Caruso, McCormack, Galli Curci, Heifetz, Elman, Ruffo, Kreisler, Homer, Gluck, Farrar, Garrison, Alda and many others of the great artists purposely chose the Victrola and Victor Records to record their art. The ultimate aim and hope of every artist is to become an exclusive Red Seal Victor artist. This is a stamp of per-

fection, recognized as the greatest agency in the world that controls the power of making or "breaking" forever an artist.—adv.

The Victor Talking Machine Co. manufactures more than a million Victor Records a day. Many of these are not accepted as perfect, and

hence after the elimination process not more than a million records are accepted a day. During the dull summer months, labor in the great press rooms is hard to obtain, and the production will fall below the million a day mark. The annual output of Victor Records is over two hundred million.—adv.

Next to the Victor Co., the Edison has probably the largest output of records and machines. However the output of all the record companies on the market, exclusive of the Victor, added together, will not amount to two hundred million.—adv.
