NOT MAKING GOOD THEIR CLAIMS.

From the very day that congress convened in Washington under the republican administration it was claimed by that party that they were going to save money for the people and have an economical administration.

Only a few days ago they were scattering to the four corners of the country propaganda making claim of economy.

To fill up the pork barrel it takes money and appropriations by the millions, but while the party wants to be economical it does not want to dispense with this pork barrel.

Only yesterday there came thru press news from Washington that Mr. Mellon had stated that in order to meet the deficit of over three hundred and fifty million dollars, it would be necessary to levy additional taxes with which to meet this deficit. And this additional tax will be in the shape of a high tariff law.

STEEL TELLS STORY.

While recent reports of commercial agencies and of the federal reserve banks have been decidedly optimistic in reflecting general improvement in the business situation Wall street experienced its biggest thrill of the season when Judge Elbert H. Gary, head of the United States Steel Corporation, at the annual stockholders' meeting in New York, on last Monday, submitted his report on the business activities of that concern. Students of the economic situation have long recognized steel as a true barometer of American business. Hence their forecasts as to the future are largely governed by the showing of prosperous conditions this big corporation is enabled to make. Its figures are a deciding factor in indicating the state of the business pulse.

At this meeting, Judge Gary said that the steel business has doubled in the last year and is 75 percent of normal, while the export trade is nearing its pre-war high point and shows every sign of increasing in the near future. He indicated in his statement that the coal strike has caused little damage to the steel industry thus far. All mill are well supplied with coal and coke, and, considering reserve fuel on hand, the industry's needs are well taken care of, he said.

With the steel business of the corporation doubled in volume as compared with a year ago and now within 75 percent of its normal capacity, one can readily appreciate the tremendous strides the country is now making toward its normal peace-time activities in all lines of industrial enterprise. It means that both public and pri-

vate movements in the nation's upbuilding are getting under way and are mobilizing their reserves of strength to set the wheels of industry humming. A big evidence of this impulse is locally reflected in recent heavy orders for the construction of railway engines to meet the increasing demands upon transportation facilities. Lowered interest and discount rate bear out bank statements that there is a generous supply of free money for investment purposes. This money will be turned into productive channels, and unemployment will steadily decrease until every willing worker will soon find a job awaiting him.

It has been a long hard pull, but the worst has been gone thru with, and if ignorant politicians will let up on their meddling interference with the natural laws of trade and lift some of the burdens which still restrict productive enterprise, the country will soon be on the highway of assured and permanent prosperity—Richmond Times-Dispatch.

A HOG COMBINE.

Packers in Chicago have planned \$500,000,000 merger according to information in financial circles. Three of "Big Five" packers may join combine, according to plans being worked out. They are Armour & Co., Wilson & Co., Cudahy Packing Co. Consummation of plans would place J. Ogden Armour chairman of the board of directors of the company, and Thomas E. Wilson, president. The idea of the merger came from Armour, it is said, who has no son to succeed him.

There is nothing libelous in calling this truly a hog combine of hogs. These meat packers have experience enough in the past with the violation of the law to know full well that too much hogging the public may be dangerous.

ELIZABETH CITY MAN DEAD

NEWPORT NEWS, Va., April 21.—Engineer C. H. Hussey of Elizabeth City went down with the Buxton liner Brewster, which collided with the Lake Sterling of the Richmond-New York line in James river, near City Point. The cause of the disaster is undetermined.

ASK APPROPRIATION OF MILLION TO FIGHT FLOOD

WASHINGTON, April 21.—Southern congressmen will ask congress for an emergency appropriation of one million dollars to fight the Mississippi flood waters, the money to be deducted from the regular flood control provision of the army bill.

HOW'S YOUR STOMACH? Any Weakness or Distress?

Copperhill, Tenn.—"I suffered for 8 years from stomach trouble, and truthfully can say that Dr. Pierce's Golden Medical Discovery did more for me than all the doctors I ever tried. One of my neighbors said, 'Why don't you try Dr. Pierce's Golden Medical Discovery?' I sent and got a bottle and I can hardly tell how much that one bottle did for me, and when I had taken three bottles I was able to do my washing. I couldn't do all my housework before I began taking the medicine, and now I can do anything I want to and feel good. I praise Dr. Pierce's Golden Medical Discovery to everybody."—Mrs. J. A. Russell.

EXTRA HEAVY SHEETS

WE have succeeded in purchasing one thousand squares of SURPLUS CORRUGATED SHEETS that the United States Government had on hand at time of the Armistice. This is all 22 gauge extra heavy stock. Government experts selected this stock, knowing full well the value of this gauge and quality of material.

MADE FOR OVERSEAS USE!

Note especially that this material was selected for Government use abroad and that the quality and gauge were made to stand salt-air transportation as the sheets are specified for use abroad. There is no comparison whatever between this extra quality 22 gauge corrugated sheet and the regular 28 and 26 gauge stock now being marketed everywhere at a higher price.

SIZE: The sheets are all 27 1-2 in. wide and 2 1-2 in. corrugated and 84 in. long. If the farmer needs a shed, storage house or has to cover an old building—this is a BARGAIN. The present price of the size sheets from the mill is \$7.00. WE WILL SAVE YOU MONEY.
