ALL THE LOCAL NEWS

County Commencement All Ready For Thursday

**Fair Day Tomorrow Expected.
Tremendous Crowds Coming
To Tarboro For Big Occasion;
Many New Attractions
Have Been Added In Big
Parade; 100 Mounted Marsh-
als Will Be In Line.**

Even since last Friday when the commencement was to have been the steering committee has not been sleeping—but on the other hand they have been busy as bees keeping in touch with everything and everybody.

They have kept their eyes open and their hands to the wheel and again have gotten things in readiness for the commencement tomorrow.

Since last Friday those who have entered for the athletic stunts have been working and training and those who have entered the other contests have not let the grass grow under their feet.

The news is coming in from all parts of the county that the folks are looking forward with great pleasure to the occasion.

100 Marshals in Line.

Mr. Milford Haynes informed the Southerner that he had been giving much time to the parade and he thinks that this parade will be something great. So far he says he thinks he can count on having 100 marshals in the parade tomorrow and all of them will be mounted. These marshals will wear the color schemes of the different schools thruout the county. Many prizes have been offered for the different features of this parade.

Will the People Be Here?

Since the postponement of the commencement from last Friday the question has often been asked whether the people would come back to Tarboro to this commencement tomorrow.

Mr. Sentell informed the Southerner that the most elaborate preparations were going on all over the county to make the commencement here tomorrow the biggest day Tarboro has ever had.

Yes, the people are coming to this commencement because they want to come, and they are coming in big crowds.

Hearty Welcome to All.

To all the visitors who come to our town tomorrow the Southerner fully believes it is voicing the sentiment of every man, woman and child when it says that a most hearty welcome is awaiting them from the time they enter the town until they leave.

Tarboro will have on her best clothes and manners tomorrow and the Southerner requests the Tarboro people to meet our visitors and shake hands with everyone they meet.

A hearty welcome is a good thing, but nothing in this world reaches a man's heart like an old fashioned handshake.

Tarboro says that the string to the door hangs on the outside and everybody is invited to pull this string and come in. A hearty welcome and a good old-fashioned handshake awaits all.

PROGRESS SCHOOL CLOSES.

The commencement exercises of Progress school will take place today. The teachers of this school are Miss Beula Coley and Mrs. Helen Knight.

Mr. R. E. Sentell delivered the address this morning at 11 o'clock. At 12 o'clock there was a picnic dinner and after dinner there were exercises by the children.

Tonight the children will put on a play, and after this, Mr. M. G. Mann will deliver an address and present the seventh-grade diplomas to the following pupils: J. R. Taylor, David Williams, Solomon Williams, Irene Bullock, Levy Williams, Leona Williams, Elizabeth Proctor and Mack Hurdle.

FARMER MUST SAVE MONEY IN SOWING MORE LEGUMES

By JOHN PAUL LUCAS.

RALEIGH, May 3.—North Carolina will use this year probably 900,000 tons of fertilizer at a cost of approximately \$27,000,000.

That total is nearly three times the value of last year's sweet potato crop in North Carolina; nearly four times the value of the peanut crop; more than one-third the value of the tobacco crop; more than four times the value of the wheat crop; two-thirds the value of the entire corn crop; nearly twice the value of the hay crop; and more than 40 per cent of the value of the cotton crop.

Of the \$27,000,000 which North Carolina will spend this year for fertilizer, something like \$13,500,000 will be for nitrogen. This element, the most costly ingredient of fertilizer, may be produced at home instead of being purchased if farmers will but diversify their crops and produce legumes, such as clover, vetch, cow peas, velvet beans, soy beans and others.

On a farm which produces feed for its livestock, particularly where a considerable number of cattle are kept, the production of ample legumes is so altogether logical that it can hardly be avoided, and of course, the legumes are returned to the soil in the form of manure. On farms where sufficient livestock are not kept to consume the quantity of legumes which should be grown in order to provide the nitrogen required for fertilizer, clover, velvet beans, cow peas or other legumes should be grown simply for green manure to be turned under purely for the benefit to be derived from the fertilizer elements and humus.

It is rather difficult for a short-sighted farmer to make up his mind to turn under a good growth of clover or any other legume. If he could see one, two, three or four years ahead it would not be so hard.

Land of comparatively low fertility frequently has its productivity doubled thru the turning under of one legume crop.

The farmers who are moving ahead most satisfactorily are those who not only study means of making money, but means of saving money, and a farmer who can, in the course of a few years, cut his fertilizer expenditures practically in half thru the use of legumes is certainly saving money. He simply banks it in the soil where it can be drawn out thru the larger crop yields during succeeding years. This is a big step in "living at home" and in winning economic independence.

At the end of this year North Carolina will have used more than five million tons of fertilizer during the past seven years at a cost of \$150,000,000. Unquestionably it pays to use fertilizer, and North Carolina farmers have gotten good results from the fertilizers they have used, but it does not pay to expend ten, twelve or fifteen million dollars a year for nitrogen which the farmer can himself draw from the air above his head thru the growth of legumes.

PEKING, China, May 3.—Advices to the American military attaches state that General Wu's main army appears engaged in a drive toward Tientsin. Severe fighting occurred on the Hun river. The Fentien army, under General Chang Tso-lin, has temporarily withstood the drive on Changsin-tien and stopped General Wu's movement toward Peking. The cost, however, was heavy, Changsin-tien being filled with wounded, many of them dying.

SCHOOL COMMITTEE WILL HEAD PARADE HERE THURSDAY

Mr. M. G. Mann has sent to all the school committeemen of the county the following letter. This is a new feature that has been added to the big parade for tomorrow and is a most appropriate thing to have done: Dear Committeemen: As you doubtless know Edgecombe county schools will meet here on Thursday, May 4, for our Annual County Commencement, and this is to advise you that I shall expect you to be here as it is the desire of the Board of Education to have each committeeman march with them at the head of the parade. Of course, we want each township to march together and we are going to try to have badges for the various committeemen.

The parade will form at the city high school building at 10 o'clock and we ask that you be here as early as possible and that you make it known that you are a committeeman and assist us in getting our line in proper order at the appointed time.

The responsibility of making this commencement a success depends on you as much as any one and I sincerely hope you will use your influence in your district to have each child to attend and as many parents as possible.

Let's make May 4 the biggest in the history of Edgecombe county.

Yours very truly,

M. G. MANN, Chairman
Board of Education.

RUSSIAN DELEGATE PLEADS FOR BIG ARMS CUTTING

GENOA, May 3.—The disarmament question bobbed up at today's plenary session of the economic conference.

The German foreign minister said world trade must be doubled before conditions could be bettered, but this could not be done, he said, while nations were jumping at each other's throats.

Foreign Minister Tchitcherin, the Russian delegate, pleaded for general disarmament.

The financial commission's report containing 19 resolutions, was adopted this morning.

FULL DRESS IN DAYTIME IS DIPLOMATIC SIMPLICITY

BUENOS AIRES, May 3.—Full dress clothes in broad daylight are in accord with the Argentine policy of "diplomatic simplicity" which taboos silk knee breeches for high civilian functionaries, it was noted here when John Wallace Riddle, the new American Ambassador, presented his credentials to President Yrigoyen at Casa Rosada. Argentine state etiquette insists that even at morning functions the president and his ministers shall wear full evening dress. This departure, which would shock Washington or any of the European capitals, is the only alternative Argentine statesmen have found for the cutaway or morning coat and striped trousers worn at daylight affairs in other countries, but which are practically every-day togs here.

ENGLISH INDUSTRY STEADILY SHOWS IMPROVEMENT

LONDON, May 3.—Trade and industrial conditions in this country on the whole are, in the opinion of experts, steadily improving the somewhat slowly.

No big revival has materialized but there has been a continuous betterment of conditions, a seemingly healthy growth, that has satisfied traders more than any sudden "revival" that might have been built on shifting sands and would have collapsed, and leaving matters worse than before.

One outstanding indication of the trend of affairs is that money is easier and more is being loaned, which indicates confidence in the trade situation generally.

Encouraging reports come from various trades, notably coal, textile and pig-iron. General living conditions have improved, commodities having dropped in price and there has been a decrease in unemployment, altho it is still large.

In seeking for an unbiased statement regarding conditions from an authority, the Associated Press turned to Robert Skinner, the American consul general in London. In response Mr. Skinner gave the following:

"While governments undoubtedly continue to have their very serious difficulties of a political nature, there are signs of improvement in business, which is much less dependent upon the activities of governments than might appear to be the case. The recovery of trade is taking place very slowly and uneventfully, but to realize that it is recovering, it is only necessary to recall, for example, the state of this country just one year ago.

"At that moment there was much political and industrial unrest, troops in large numbers were on active service, the coal industry had closed down and dependent lines were necessarily affected. Prices were high, unemployment was much greater than at present and the psychological factors disturbed.

"It seemed a year ago as tho Britain had lost her foreign coal market, but today it is obvious that this has been recovered to a great extent.

"The Manchester Chamber of Commerce tells us that hopes of a moderate revival of trade with India have been realized and that inquiries from India and China have been numerous. Egypt also has placed a fair number of orders. South America continues quiet.

"India, for many years the great market for British cotton goods, has become herself a manufacturer of such goods.

"China has become more or less a manufacturing country, absorbing, say, 100,000 bales of American cotton last year. South America notably Argentina and Brazil have begun to manufacture textiles and generally all countries give signs of interest in domestic manufacture. While this shifting of production from one place to another creates certain difficulties, on the other hand, far from indicating depression it suggests the reverse condition.

"As for trade between Great Britain and the United States exports from the city of London are suggestive. For the three months ended with March 31, 1922, declared exports from London to the United States aggregated 7,870,399 pounds sterling plus merchandise valued at 1,272,589 dollars which was invoiced in American currency only, against exports for the same period in 1921 amounting to 7,201,675 pounds."

NEW MAY LOSE SEAT.

INDIANAPOLIS, Ind., May 3.—Albert Beveridge is leading Senator Harry S. New in the contest for nomination for United States senator by over 4,000 votes.

DEARBORN EDITOR TO ADDRESS BUIES CREEK ACADEMY

The following communication has been received from Herman Whitehead, a young man from Edgecombe county, now at Buies Creek academy.

This communication the Southerner publishes with great pleasure. The address at Buies Creek will be made by Mr. Cameron, who is editor of the Dearborn Independent.

The commencement program of Buies Creek Academy is completed with the announcement that Hon. W. J. Cameron, editor of the Dearborn Independent, will deliver the literary address on Thursday, May 17. Other announcements of special interest are that Dr. Paul Bagby of Wake Forest College will preach the baccalaureate sermon Sunday, May 14, and that Dr. John Alston Ellis of Raleigh will deliver the alumni address, Thursday, May 18.

This unusually attractive array of speakers, together with the special alumni announcements, is expected to draw great crowds of old students and friends of the institution from all sections. Arrangements are being made to provide for 500 alumni expected at the alumni luncheon, and ball game. Several changes in the program this year will be of interest to the alumni and friends in all parts of the state. Beginning with the exercises by the primary grades Saturday, May 13, followed by sermon on Sunday, the program for the remainder of the week is as follows:

Wednesday, May 17:
2:30 p.m.—Contest for declaimers medal.
4 p.m.: Senior class exercises.
8 p.m.: Sappho and Astro Literary societies contest.
Thursday, May 18:
10:30 a.m.: Contest for orator's medal.
Noon: Address to graduating class by Mr. Cameron.
1:30 p.m.: Alumni luncheon and address.
4 p.m.: Baseball game between seniors and alumni.
8 p.m.: Annual play.

TREASURY BUILDING SUFFERS SECOND FIRE RECENTLY

WASHINGTON, May 3.—For the second time in three months, firemen last night battled a stubborn fire on the roof of the treasury building, which for a while assumed menacing proportions as the flames, burning thru the long superstructure, leaped high and cast a threatening glow on the White House, while sparks wafted across the surrounding terrace.

President and Mrs. Harding, who were awakened by the noise, watched the firemen battle with the flames.

HOLSTEIN COW PRODUCES

40 POUNDS BUTTER 7 DAYS
DELANAV, Wis., May 3.—Forty pounds of butter in seven days is the production record just announced for a California cow by Malcolm H. Gardner, superintendent of testing for the Holstein-Friesian Association of America. The cow is Miss Aggie Ormeby Segis, a registered Holstein owned by Fred Hartsook, Lankershim, Cal. Her milk production during the seven days was 644.3 pounds. The test was supervised by the California Agricultural College, California State Association and National Holstein Association.

Miss Aggie established a world's record over all breeds for two years olds several months ago, producing in ten months 22,084 pounds of milk, yielding 834.7 pounds of butter.

A Military Company Can Be Obtained Now

ABORIGINAL GRAVES ARE EXPLORED BY SCIENTISTS

VICTORIA, B. C., May 3.—The stone age, which, scientists say, came to an end in Western Europe about 1700 B. C., was carried on for more than three thousand years later and in its most characteristic form existed in British Columbia up until as late as a century ago in some districts, according to findings of archaeologists who have been exploring some of the old community sites, mounds and aboriginal graves along the coast and the interior of the province.

The stone age in British Columbia has for many years been the study of scientists of note who have been working the field in an effort to build up the story of the evolution of the prehistoric civilization as exemplified in the tribes who worked out their existence between the Rocky Mountains and the Pacific. Valuable collections have been obtained.

It was only recently, however, that British Columbia, in an effective way turned its attention to the past. Under the direction of Premier John Oliver, the Provincial Museum has been partially rebuilt and the collection put on exhibition.

The aboriginal occupants of the country belonged to the neolithic, or new stone age, scientists determined from the specimens obtained from old villages and burying places.

Stone and bone tools were in common use when the first white explorers visited the North Pacific, altho iron and copper in small quantities were found almost everywhere.

In some instances the native races had developed a degree of art. One of the feature exhibits in the museum is a copy of a seated human figure holding a bowl. It was shipped from a solid block of stone and then polished. There are two of three specimens very much alike. One was discovered near Departure Bay, Nanaimo, and the other in North Saanich, on Vancouver Island.

Perhaps the most characteristic of the stone age are the stone axes and hammers discovered in many places. They are almost identical with the tools of the neolithic man found in Europe.

The stone weapons include daggers and war clubs. There are many examples of stone dishes, hewn from small boulders. With what appear to have been rolling pins of a somewhat angular design the prehistoric woman of this coast seems to have been well supplied.

Primitive man in British Columbia apparently did a little smoking now and then. Old shell mounds on the Thompson and Fraser rivers have yielded what appear to have been stone pipes. The early explorers found the native races using a true tobacco, nicotine attenuated, which grows wild in the Thompson river country and was smoked alone or mixed with grease and kinnikinnick.

12 BUILDINGS BURNED.

KANE, Pa., May 3.—Twelve buildings, housing families, factories, a newspaper office and other businesses, were destroyed by fire at Marienville, near here, today with a loss of \$100,000.

ELECT NEW BISHOPS.

HOT SPRINGS, Ark., May 3.—Election of new bishops, unification of the northern and southern bodies, were among the many important problems before the 19th general conference of the Methodist Episcopal Church, South, which convened here today for a three weeks' session, answer his cable message.

If the people of Tarboro want a military company in their midst now is the accepted time for them to act or forever hereafter hold their peace.

The only available organization now open is a headquarters company that requires only 42 enlisted men and two officers.

Tarboro should have a military company and if the men will enlist it will be an easy matter to form this company at once.

Captain Jones will have to write to General Metts in a few days and if anything can be done it will have to be done in a few days, because the adjutant general will not keep this offer open any longer.

REGULAR SESSION OF COMMISSIONERS

Monday was the regular monthly meeting date for the county commissioners. Every commissioner was present and the entire day was taken up in consideration of the county's business.

Dr. R. C. Gyles made a verbal report of his work for the month of April.

The county attorney was requested to draw up a bill asking the next legislature to change the present law so as to provide for a vice recorder. The attorney will have this bill before the next session of the general assembly.

The sheriff was authorized to bid in for the county all property where there was no other bidder.

The commissioners appropriated \$8.33 per month for the Children's Home Society at Greensboro.

A request was made for the purchase of a car for the public welfare officer. Action on this request was deferred.

The list-takers for the several townships thruout the county were duly sworn in, according to law.

The county chairman and the auditor were appointed a committee to settle with the sheriff.

The following jurors for the June term of superior court were drawn. The first 25 will serve the first week and the others will serve the second week of this term, which will be both criminal and civil: G. R. Young, 12; T. P. Cherry, 12; W. J. R. Whitley, 12; H. H. Phillips, 10; J. C. Edwards, 10; J. L. Melvin, 12; H. L. Tolston, 11; J. R. Dawes, 14; S. N. White, 8; T. T. Thomas, 1; C. D. Ruffin, 13; J. W. Harrell, 8; A. D. Mizell, 1; E. H. Fly, 12; P. M. Quincy, 6; E. D. Aycock, 12; C. A. Thomas, 12; M. T. Lewis, 9; Nathan W. Harrell, 1; J. A. Jones, 10; E. C. Battle, 12; R. P. Bell, 1; W. C. Phelps, 1; W. J. Mitchell, 4; W. B. Norville, 8; A. F. Gurganus, 1; E. L. Minton, 12; T. E. Mayo, 13; Tom Walters, 1; C. M. Thigpen, 2; C. J. Spain, 1; J. T. Grimes, 3; A. W. Burne, 12; G. H. Griffin, 10; A. S. Hallford, 12; J. Sidney Brown, 1; Thomas Hussey, 1; J. C. Warren, 2; R. C. Mayo, 2; J. F. Edwards, 8; W. B. Webb, 8; L. T. Browning, 12; G. T. Williams, 13; E. Harvey Lewis, 1; W. R. Denson, 7; W. Dawes, 14; J. W. Driver, 6; J. A. Thomas, 12.

The following jurors for the June term of superior court were drawn. The first 25 will serve the first week and the others will serve the second week of this term, which will be both criminal and civil: G. R. Young, 12; T. P. Cherry, 12; W. J. R. Whitley, 12; H. H. Phillips, 10; J. C. Edwards, 10; J. L. Melvin, 12; H. L. Tolston, 11; J. R. Dawes, 14; S. N. White, 8; T. T. Thomas, 1; C. D. Ruffin, 13; J. W. Harrell, 8; A. D. Mizell, 1; E. H. Fly, 12; P. M. Quincy, 6; E. D. Aycock, 12; C. A. Thomas, 12; M. T. Lewis, 9; Nathan W. Harrell, 1; J. A. Jones, 10; E. C. Battle, 12; R. P. Bell, 1; W. C. Phelps, 1; W. J. Mitchell, 4; W. B. Norville, 8; A. F. Gurganus, 1; E. L. Minton, 12; T. E. Mayo, 13; Tom Walters, 1; C. M. Thigpen, 2; C. J. Spain, 1; J. T. Grimes, 3; A. W. Burne, 12; G. H. Griffin, 10; A. S. Hallford, 12; J. Sidney Brown, 1; Thomas Hussey, 1; J. C. Warren, 2; R. C. Mayo, 2; J. F. Edwards, 8; W. B. Webb, 8; L. T. Browning, 12; G. T. Williams, 13; E. Harvey Lewis, 1; W. R. Denson, 7; W. Dawes, 14; J. W. Driver, 6; J. A. Thomas, 12.

The following jurors for the June term of superior court were drawn.
