GREAT DEMOCRATIC LEADERSHIP ON TARIFF.

The old Spanish proverb, "It is waste of labor to shave at sea," would seem to apply to the effort expended in criticizing the present republican tariff bill, because it is absolutely certain that the bill will be multiplied of inequities, taking everything from the states in a new-born infant's unshakable hand to the tombstone in the cemetery, will be passed.

The democratic analysis of the various schedules, however, are justified by the fact that the people are entitled to know and to understand the size of the mountain of taxation and the indefensible policy under which it is levied.

No other tariff bill has been so thoroughly analyzed, discussed, and vivisectioned so far as the debate proceeded as this indefensible measure and the indefensible policy of protection responsible for it. The democratic senators who have been most prominent in exposing the necessities, inconsistencies, fraud, and downright robbery in this tariff bill are perhaps the best equipped and most experienced men to deal with this subject that have ever sat in either house of congress. Mr. Underwood, Simmons, Pomeroy, Jones of New Mexico, Robinson, Plummer, Hitchcock, King, Fletcher—most of them include a large majority of the sitting democratic senators.

On the other side of the chamber there seems to be but one man, Senator (Rep., Utah)—veteran and partisan reactionary advocate of the theory of special privilege—whose theories of government in the matter of taxation seem to include the benevolent despotism of Frederick the Great and the policy of levying tribute practiced by the feudal barons before Magna Charta.

REPUBLICAN GAINS.

(From Democrat-Argus, Caruthersville, Mo.)

In 1920 it was Harding or bust—now it's both.

LODGE, THE UNCONSCIOUS HUMORIST

Senator Henry Cabot Lodge is one of the best unconscious humorists in the country. After asserting that the methods employed by the Democrats in exposing the infamies of the Fordney-McCumber Tariff bill for postponing the arrival of a period of stability, he said:

"Business could not fully recover while uncertainty existed as to the tariff rates."

The Republicans came into control of both branches of Congress following the general elections of 1918. They have been in full control of all branches of the government since the Frowth of March, 1921. It was not until a few months ago that they have even attempted to revise the tariff, and their present efforts are exciting the ridicule, contempt and denunciation of even their own party press.

DEMOCRATIC PROSPERITY VERSUS REPUBLICAN DISASTER

When Woodrow Wilson went into office as President in 1913, the estimated wealth of the United States was \$180,000,000,000; when he retired at the end of eight years it was \$300,000,000,000, a gain of 215,000,000,000.

The present estimated wealth of the United States is \$225,000,000,000, showing a decrease of \$75,000,000,000 in the fifteen months a Republican administration has been in power.

These figures were recently stated by Senator King (Dem., Utah) upon the floor of the Senate. They are approximately correct.

The center part of this loss has been sustained by the farmers of the country in land values, agricultural products and live stock values, all through a part of this loss has fallen on the heavy industry and factories of the every form of property values.

It is consequently clear that we will be led by Republican speakers to a policy of increasing taxation and a policy of increasing the size of the government. It is the duty of property to have a Democratic administration and what it means in the way of disaster to the country through Republican administration.

LEWIS SOCIAL ITEMS.

Mr. Elvay and Mrs. Elvay are very proud to state they have a new son, especially their second.

Friends of Mr. and Mrs. George Gordon are glad to learn that they are expecting along about the middle of the month a new addition to their family.

Mr. Frank and Mrs. Anderson, Mr. Frank and Mrs. Anderson, Mr. Frank and Mrs. Anderson.

reached the sum of \$171,000,000 for the year 1920. This obtained of the Americans whom he places Colombia fifth among the met in France during the war, and South American countries, a position attained only by the herculean and unceasing efforts of the hard-working and industrious people laboring under deheartening handicaps and difficulties of transportation.

"The government of Colombia recognizes the need of better means of communication, and to this end is studying with careful attention a variety of proposals submitted to it by competing engineers."

The promotion of public works in Colombia will claim the serious attention of the new president of that republic, General Pedro Nel Ospina, now in the country, who returns soon to Colombia where he will remain until August 7.

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier, and acts through the blood upon the mucous surfaces of the body, thus restoring the inflammation and restoring normal conditions.
