

THE NATIONAL TRADE-MARK

OLD silversmiths, in order to help people tell pure silver from cheaper imitations, marked the real thing "sterling."

In a like manner, manufacturers who stand back of their wares, identify them with trade-marks that are your guarantee of quality. By advertising these trade-marks, they focus on their products the searchlight of attention.

Only GOOD goods, fairly priced, can flourish in this light of publicity. For no merchandise and no business can thrive under the weight of public condemnation.

That is why a manufacturer, or a merchant, places the whole reputation of his business at stake every time he advertises. HIS GOODS MUST BE AS ADVERTISED.

So, in looking through this paper remember this: the man who spends his money to invite your consideration of his wares, backs up his belief in his goods and leaves the final decision to you.

It pays you to read the advertisements. It pays you to buy advertised products.
