

## IN THE WORLD OF SPORT

Anderson, Yale's Promising Punter.

Photo by American Press Association.

Speaking of punters, if Anderson, one of the candidates for Yale's back field, can be cured of his slowness and deliberation in getting the ball away he is likely to be a second Ted Coy. He has little form at present—as form goes in punting—but after he has taken a step backward with one foot and turned partly around he sends the ball booming down the field in the most amazing way. So much valuable time is lost, however, that he would be almost at the mercy of the charging forwards of a strong team. If he can be taught, however, to get the ball off quickly and in the generally accepted style he will be a power in Yale's back field.

**Jockey Bullman Returns to Turf.**  
John Bullman, world famous among American jockeys, who rode two winners in the American Derby, is to return to the turf. During the last four years he has been living on his ranch in the Gallatin valley, Montana.

"For three years," said he, "my retainer from August Belmont was \$15,000 a year, exclusive of the customary fees for wins and mounts. My annual earnings at that time were between \$40,000 and \$45,000. I found the tension too high and quit the game to go ranching, but since my nerves have got into good shape again I have resolved to get back into it."  
"It is my intention to dispose of my ranch and go to Buenos Aires this coming winter. That is one of the few places on the American continent where the racing game still is good."

**Phillippe Now a Baseball Scout.**

The name of Deacon Charles Phillippe does not appear in the list of players reserved by the Pittsburg club for next season. This means that the veteran pitcher is done with the game and will henceforward be employed as a scout for the Pirates. "Phil" did not pitch a game during the 1911 season.

Phillippe went to Pittsburg in 1900. He has been a star ever since. It was announced by President Dreyfuss at the beginning of this season that as long as Phillippe wanted to work for the Pittsburg club he could do so. The Pirate boss has never forgotten the services rendered by him in 1903, when he nearly pitched his arm off against the Boston Red Sox in the world's series.

**Joe Tinker Hits Mathewson.**

Christy Mathewson would rather face nine Frank Schultes than one Joe Tinker. If Matty pitched against Tinker every day Joe would be the greatest batter the game ever saw. No matter how hard Matty tries, he cannot fool the Cub shortstop. Ever since he broke into the major league Tinker has been fattening his batting average off the Giant star. This year he has hit .412 off Matty, and last year it was .500. Tinker has won game after game in the last few years by his ability to connect with Matty's offerings.

**Casey Quits Baseball For Good.**  
Dr. Jimmy Casey says he is out of baseball for good and will not manage Fort Wayne next year. A Class B club cannot afford a bench manager, he says, and he admits that his active playing days are over. He tried to keep in the going on the field the past season, but it was hard work. Anyhow, Casey thinks twenty years of baseball service is enough for any man, and that is his record.

### REAL ESTATE DEAL

A real estate deal of considerable importance was consummated last Tuesday when P. DeLon sold to Dr. R. Scott a residence in Selden Street for \$2600.

### IN MEMORIAM

Last Sunday October 15th, 1911, in the home of Mr. and Mrs. Wilson Furlough of Columbia N. C. the Angel of Death came and took their little three year old son, Alvertie to that bright and beautiful home which is called Heaven. Don't weep, father and Mother for he is one of God's brightest angels in Heaven and will be waiting to greet you at the pearly gate.

Little Alvertie leaves Papa, Mama, Sister, and Brother and a host of friends to mourn their loss.

The funeral was conducted by Rev. Durall at the home and the remains were laid at rest in the family grave yard to await the resurrection morn.

In the grave yard softly sleeping Where the flowers gently wave Lies the one I love so dearly, In his cold and silent grave.

### CRYING FOR HELP

Lots of it in Elizabeth City But Daily Growing Less.

The kidneys cry for help. Not an organ in the whole body so delicately constructed.

Not one so important to health. The kidneys are the filters of the blood.

When they fail the blood becomes foul and poisonous.

There can be no health where there is poisoned blood.

Backache is one of the first indications of kidney trouble. It is the kidney's cry for help. Heed it.

Doan's Kidney Pills are what they want.

Are just what overworked kidneys need.

They strengthen and invigorate the kidneys; help them to do their work; never fail to cure any case of kidney disease.

Read this proof from an Elizabeth City Citizen.

Job Forbes 402 Second St. Elizabeth City N. C. says: "I have taken Doan's Kidney Pills and do not hesitate one moment in giving them my endorsement. A few months ago I had a very lame and weak back. When I tried to stoop sharp twinges passed through my loins. My kidneys did not do their work as they should and their secretions were irregular in passage. As soon as I began taking Doan's Kidney Pills I was relieved and in a few days the lameness and pain disappeared. I have had no further cause for complaint."

For sale by all dealers Price 50c. Foster-Milburn Co Buffalo New York sole agents for the United States.

Remember the name Doan's and take no other.

### THE WRIGHT BROTHERS

Captain Jessie Ward of the Kill Devil Hill Life Saving Station was here last Monday visiting his family.

He reports that the Wrights are flying down on Kill Devil Hill to beat the band.

Capt. Ward is the Wrights right hand man in their experiments and he knows more about their machine than any other man in this country.

### WHY HESITATE

An Offer That Involves no Money if You Accept it.

We are so sure that our remedy will relieve constipation no matter how chronic it may be that we offer to furnish it free of all cost if it fails.

Constipation is commonly caused by weakness of the nerves and muscles of the large intestine. To expect a cure you must therefore tone up and strengthen those organs and restore them to activity.

We want you to try Rexall Orderlies on our guarantee. They are eaten like candy and are particularly good for children. They seem to act directly on the nerves and muscles of the bowels.

They apparently have a neutral action on the other organs. They do not purge or cause any other inconvenience. We will refund your money if they do not overcome chronic or habitual constipation and thus aid to relieve the myriads of associate or dependant chronic ailments. Try Rexall Orderlies at our risk. Three sizes, 10c., 25c. and 50c. Sold only at our store—the Rexall Store The Standard Pharmacy.

### PICKED HER OUT

Two very nice little girls had a quarrel one day.

"Anyhow said one to the other, who was an adopted child, 'your parents are not real.'"

Where upon the other little girl retorted, "I don't care my papa and mama picked me out. Yours had to take you just as you came."

### SOME FINDINGS OF INVESTIGATING COMMITTEE

The tariff isn't the only thing the Republicans are afraid of in the coming campaign. There is another item that is giving them worry. They are wondering how they are to give an answer to the charges of corruption, incompetency and maladministration that have been brought out and proven by the various Democratic investigating committees.

The Moss committee brought to light the shameful manner in which the plotters in the pure food bureau had stripped Dr. Wiley of all power, and made a farce of the law designed to protect the public from the greed of unscrupulous food dopers.

The Stanley committee learned that the steel trust for years paid tremendous profits on a capitalization represented largely by water and blue air, and that the trust gobled up the Tennessee Coal and Iron Company, its principal rival, with the aid and connivance of a republican administration, ostensibly to prevent a panic, but actually to stifle its main competitor. It was further brought out that men were acting as counsel for the steel trust while receiving money from the government as special "trust busters."

The probe of the state department revealed money was expended for one thing and charged to another while the committee on expenditures in the navy department discovered that more than \$3,000,000 worth of supplies had been taken from the Washington navy yard without an accounting, and that the bookkeeping system in use there is absolutely ridiculous.

These are but a few of many illustrations that could be given to show the value of honest investigations. More than a dozen other committees have turned up equally important evidence.

### MR. WICKERSHAM AGAIN

"I am surprised," says Attorney General Wickersham, "that the business men of this country have not taken more advantage of that section of the law which permits the collection of threefold damages when they have been injured by a trust. That section is a powerful lever, and would make those illegally organized have more respect for the law."

Likewise, the people are surprised that Mr. Wickersham as attorney-general does not take advantage of the law which makes it possible to send guilty trust magnates to jail. They believe it would be an even still more "powerful level."

### A STARVING INDUSTRY

The Woolen trust is the most insistent of all the trusts in its demand for a high tariff. This trust still calls itself an "infant industry," and its agents told the members of the Ways and Means committee that the trust would starve to death if the tariff were taken off of wool.

At Boston, on October 16th, William Wood, president of the Woolen trust, was a witness in a suit filed against him by a man whom he had knocked down and run over. The judge asked Wood how many automobiles he owned.

"I don't know," Wood replied. "How many chauffeurs do you employ?" asked the court.

"Never tried to keep track of them," Wood answered. "Imagine a man so rich he cannot keep track of the number of automobiles he owns! Then reflect on how many of the workmen who purchase Mr. Wood's highly protected products are unable to keep track of the number of Woolen suits they or their children own."

### PROTECTION HELPS FOREIGNERS

The Stanley steel investigating committee has made public the export prices of steel trust products. This is a very important piece of news, inasmuch as it shows great differences in prices in favor of foreigners, and therefore, probably will result in a great reduction, if not the removal, of all tariff duty on steel.

The figures given out shows that the trust charges American consumers \$32.97 per gross ton for steel plates, while supplying the identical article to foreigners at \$29.04. The unprotected foreigner thus receives an advantage of \$3.93 over the protected American customer. The advantage given the foreigner in steel rails is \$3.84 per ton; in tin plate, \$12.54, and in structural steel, \$4.50.

Query: If the steel trust sells its products cheaper to foreigners than to home consumer, who is the actual beneficiary of the American protective system? The foreigner or the home consumer.

**Any Fisherman Ever Make a Million?**  
Probably not. Money means something to most fishermen; they work hard for it, and they want their money's worth.  
Money's worth in fishing boots means  
**"BOSTON" HUB WARRIOR BOOTS**  
made by the Boston Rubber Shoe Co., which for 58 years has made the best-known rubber boots and shoes in the world.
