Compare your watch—or any watch—with this one

The time you are looking for is a watch that will last for years. It is the Gruen Veri Thin Watch.

Then compare the timekeeping qualities. Allow one week to test. Will be willing to BE in your watch when you carry a Gruen Veri Thin.

Lastly, compare the general value. The number of jewels, the quality of the style of dial, and price.

You owe it to yourself to make this comparison. It is the only way to get the Gruen Veri Thin Watch by day.
