RAW FURS BOUGHT

THE Crisco man
has started on his
rounds.

Altogether he's got several
thousand calls to make, so it
may take him some time to
reach you.

What he has to say will be of
a good deal of interest to
every woman who wants to
cook better and easier.

The cooking fat which he's
explaining to women is

CRISCO
For Frying For Shopping
For Cake Making

It is better than lard, "lard
compounds" and butterine
in many important ways.

Don't hesitate to ask plenty
of questions about it.

ELECTRIC LIGHT PLANT.

Brighten up the farm with a storage battery lighting plant at a small cost. Electric Light can be used and left burning near hay, cotton or paper without damage of fire, unlike use of matches, which has caused thousands of fires. We have installed a plant in our store for demonstration. Hope you will call and see the plant for further instructions. We have, Lighting Fixtures, Flash Lights, Dry Cell Batteries, Mazda, Gem and Automobile Lamps.

"There Is a House With a Bathroom"

was an expression at one time calculated to arouse interest, but now, conditions are entirely different. To build a house without a bathroom merely raises a question as to the good judgment of the builder. People know that he has either not considered or else misjudged the importance that an up-to-date bathroom has in increasing the value of the house, both as to renting and selling value.

For the finest plumbing equipment at reasonable cost we recommend "Standard" plumbing fixtures and will be pleased to show you the many artistic designs in which they are made. Ask for illustrated booklet.

Remember I am prepared to do all kinds of plumbing, steam and gas fitting, also special attention to sewer connections.

Here are Two Machines You Need

Admiral Mower
because it is the only mower that has genuine underdraft, "floating" frame and uniform tilt, the three big mower features no farmer should be without if he values his own time or his teams' strength, and wants the machine that does most work the easiest.

Steel Hay Rake
because every tooth is held individually and has a coil spring to protect it against sudden strains; because it is made entirely of steel and can be depended upon to stand up under constant wear and tear of work in all kinds of fields. Its long life makes it the most economical you can buy.

Make us prove these claims or convince yourself by examining the machines at our store.
