URGES FARMERS ATTEND MEETING

Dr. F. D. Owen of the Federal Department of Agriculture arrived in the city this morning and stated that he will move his family here a bout September 1st.

As to the work which he is now preparing to take up in Pasquotank county, Dr. Owen has this to say to readers of The Advance:

"No doubt you know of the work which the Federal Department of Agriculture has been conducting in North Carolina during the past two years in an effort to help the farmers save their hogs from that most costly of all animal diseases, Hog Cholera.

"Some few weeks ago it appeared that this work would be discontinued altogether in North Carolina, but we are now glad to state that it will not only be continued, but we will be permitted to concentrate our efforts to the six extreme north eastern counties of the state, by which we can do more intensive work, and as we believe, secure much better results.

"In this new work efforts will be not only to control cholera by means of the anti-hog cholera serum, which at its best is but a temporary expedient that will save only that particular lot of hogs that are vaccinated, or inoculated, but it is hoped that the disease can be so controlled by sanitary measures that the expense of vaccinations and inoculations can be done away with to some extent.

"In the past two years the greatest results and best responses to our work have been in these six northeastern counties, and so in planning this new campaign, it was felt that here the work should be first taken up.

"To that end, Dr. B. B. Flowe, State Veterinarian and I are planning to hold a meeting in Elizabeth City, at the Court House on next Friday, August 11th at 7:30 p. m. at which we desire to have every farmer in Pasquotank county be present, both land-owning farmers and tenants. No matter whether he owns one hog, or one hundred, we want him to come; for at this most important time will be discussed and arrangements will be taken up for the inauguration of the new work. So come out, and bring every one in your neighborhood with you, that the work can be gotten under way before the fall outbreak of cholera gets started and takes its annual toll.

"Remember to be at the Court House next Friday, August 11th, at 7:30 p. m. if you are at all interested in hogs.

Bakers Want Ten Cent Loaf

(By United Press)

Salt Lake City, Aug. 9.—The National Master Bakers have adopted resolutions declaring that it is "the sacred duty of the public to fix the price of bread at ten cents."

The unprecedented rise in ingredients and labor is given as the reason for such action. The idea is to have the increase made permanent and nation-wide.

Seven hundred thousand members of the National Housewives League will fight against the increase in price.

STRIKERS AGREE TO ARBITRATE

Accept Offer Of Arbitration

(By United Press)
New York, Aug. 9.—3:25 p. m. The railroad employees have accepted the offer of the United States Board of Mediation to serve in effecting a settlement of the differences between themselves and their employers provided immediate action is taken.

New York, Aug. 9.—The Brotherhood refuses to accept Government mediation, preferring to confer with railroad representatives. Determined to enforce their demands and reluctant to accept arbitration, the chiefs of the four brotherhoods of railway employees met the representatives of the railroads again today. All members of the United States Board of Mediation are on hand watching the progress of negotiations and will probably offer the services of the Board in effecting a settlement today.

Rounding Up Mexico Bandits

(By United Press)

Mexico City, Aug. 9.—Eighty thousand Carranzista soldiers are now patrolling the border rounding up and exterminating bandits, according to a statement just issued by War Minister Obregon. General conditions along the border are characterized as satisfactory by the official statement.

It is denied in financial circles that Mexico is planning to make a loan to the United States.

RECEIVE HUGHES ON TRAIN

(By United Press)

St. Paul, Minn., Aug. 9.—Members of the Minneapolis Hughes club and other prominent Republicans made elaborate arrangements to receive Charles Evans Hughes on his arrival here today to speak in the Twin Cities.

The Minnesota Republican League, which met here today, planned to aid in the reception.

Dr. F. D. Owen of Raleigh was in the city today making arrangements to move his family here about September first.

ELEGANT FARM FOR SALE

Located in one mile of Snowden station and on public road from Elizabeth City to Norfolk. There are one hundred and fifty acres of high land, about half cleared and the other in woodland, easily cleared. There is \$1500 worth of timber and cordwood on the land; also an almost inexhaustible quantity of woodmold and muck. The land is well drained—the main boundary being a river. The soil is good and of loamy nature, and will produce cotton, corn, peanuts, potatoes, tobacco, etc., to perfection. There is some marsh land which will add Stock-aring to other advantages of this farm.

The chief feature on this farm is the buildings—a large modern dwelling (9 rooms), barn, stables, shelters, carriage house, smoke house, dairy, fowl houses, all built well. Also a neat school house on large lawn. There are two tenant houses on the farm. Upon the whole there is over \$5,000 in improvement. Costing originally \$10,000. Buildings insured.

Still another good thing and that is the water. For the dwelling, there is a cement cistern and for the barnyard a deep well curbed with terra cotta pipe. This farm has been the home for 25 years of a thrifty, wide awake gentleman and everything made and kept in best shape, but now needing care, hence the low price \$6,000. Bounded only by river, canal and main road.

Title perfect. It is a grand home. Beautiful Shade and ornamental trees on the lawn. Present owner compelled to live in town.

Here are Two Machines You Need

<p>Walter A. Wood Admiral Mower because it is the only mower that has genuine underdraft, "floating" frame and uniform tilt, the three big mower features no farmer should be without if he values his own time or his teams' strength, and wants the machine that does most work the easiest.</p>	<p>Walter A. Wood Steel Hay Rake No. 10 because every tooth is held individually and has a coil spring to protect it against sudden strains; because it is made entirely of steel and can be depended upon to stand up under constant wear and tear of work in all kinds of fields. Its long life makes it the most economical you can buy.</p>
