ILLINOIS LEGISLATURE TO CONSIDER CONSERVATION OF CHILDREN

(By United Press)

Springfield, Ill., Nov. 27— When the legislature of Illinois convenes next January, an amendment will be offered to the child-labor law to prohibit the employment of children under 16 years except during vacation, recommended by Oscar F. Nelson, of Chicago chief state factory inspector.

"The conservation of the child is the foundation upon which any kind of preparedness must rest," Nelson said today. He declared that the present condition of highly specialized industry has removed any chance of a child's surviving long term employment without bad effects.

"The boy bandit problem can be traced to the rebellion of the youth against blind alley employment," he said. "The state must face the situation now and the most profitable to meet is to prohibit the employment of all children under 16 years except during school vacation."

At present children in Illinois between 14 and 16 are allowed to work the year around under certain limitations as to hours of labor. They must have a certificate to show that conditions have been complied with.
