Co-Operative Religion

By Rev. W. F. Beadle.

Prophecies are still extant. The writer will be bold enough to make one in the face of much slanty opposition.

Highlands, N. C., will have but one church. It will not be named by any of the present churches. It will be of the people, for the community and for God. I say this knowing that it might mean ministerial suicide.

My reasons are these:

The constituents of the various churches have not enough denominational conviction and rightly so. What is too present is too much denominational prejudice. The parishoners possess friendly Godliness which runs counter to the adherence of religious restrictions in regard to segregation.

The authorities of the various churches are adhering to their religious obligations by keeping not alive but open the few places of worship that have been by traditionalism "opened" through the years.

The livelihood of the many ministers is not sufficient to keep his head bowed in the face of his many creditors. To live on less brings a condemnation on "that is our minister," which eventually becomes so overwhelming that even religious convictions wane and waver.

The annual festival of figures of the consummation of all the pastors report show no substantial increase in such localities but a holding on, alone that, thank God such a hold is fast losing its grip, and soon a church member will be able to invite a visitor to attend the community church where even new members will be welcomed without an anathema of religious jealousy.

Finally it will be an answer to

Christ's own prayer, a pride of a united community and a step toward our expected religious Utopia. W. F. Beadle.

To Surface Walhalla Link.

Atlanta, Aug. 16.—A new all-paved route from Georgia into the mountain resort area of North Carolina will become available with surfacing of the Walhalla (S. C.) to Highlands (N. C.) highway through the tip of Rabun county. The State Highway Department announced today the Federal Bureau of Roads had approved the project and that it probably would be placed under contract September 10.

The airplane manufacturers will never get the family trade until they stop putting the back seat in front.

One thing can be said about the school of experience—you never have to take your books home.
