A LITTLE CONSIDERATION

The hunting season is now on and the whir of wings of the quail and the bark of the sportsman's gun will soon be heard in wood and field.

Before the days when the claims of a country newspaper had mortgaged his time, the editor of The Advance, during the hunting season spent a fourth of his time with his gun and his dog learning the ways the wisdom of Old Bob White. This paper has, therefore, a keen feeling of fellowship for the sportsman in general and for the quail hunter in particular.

But Elizabeth City is a rather large town and the number of quail shooters here is something fearsome to see. The quail is a valuable bird to the farmer and there is small wonder that the farmers in this vicinity have practically all posted their land. This does not mean that they would put a stop to quail shooting altogether, for the farmer knows that the shooting of a few quail during the hunting season will not prevent the coveys that run on his land from due increase and multiplication.

But the farmer would like to say who shall and who shall not go on his land to hunt and he wants as well to regulate the number who shall kill his quail. Of course, if he wishes so, he has the undoubted right to forbid hunting altogether on his lands, but we know of few farmers who do this.

Some of the farmers, however, who only desire to prevent undesirable or reckless persons from shooting on their land and to see that so many hunters do not get after their quail that the birds will be exterminated beyond the safety point for propagation next year, complain of lack of consideration on the part of the Elizabeth City sportsmen. Posted signs have been torn down, advantage has been taken of a farmer's absence from home, and in these and other ways the patience of the farmer has been sorely tried. Farmers near Elizabeth City are getting together this year to see if they cannot protect themselves against wanton and wilful trespassers and ask the co-operation of their friends in the city.

If you go a hunting this season it will be more neighborly and more safe to get permission from the farmer in every instance before you hunt his land.

HOW MUCH DEMOCRAT

Are you a Democrat? Have you got any money? If you can answer in the affirmative in both of these instances you might be making a contribution to the Democratic Campaign Fund. From the appearance of the list of contributors an outsider might judge that Pasquotank is a Republican stronghold and that what few Democrats are here are dead broke. Nearly every Democrat in the County can give something and nearly every individual and firm that has contributed could multiply the amount by ten easily. If

ou believe in Democracy—show it. When a crowd of down homers were at the state capital some time ago we heard some of them saying that Elizabeth City in many respects would compare very favorably with Raleigh. It might help some of us to take a look at what Raleigh has contributed to the Woodrow Wilson campaign fund.

FORT VAUX FALLS AGAIN TO FRENCH

MACKENSEN'S ADVANCE HALT-OFFENSIVE ON ISONZO

ED AND ITALIANS BEGIN NEW

(By United Press)
London, Nov. 2.—Dispatches from Petrograd declare that Mackensen's advance in Dobrudja has halted apparently because of a shortage of men to protect his long line along the Danube. Bucharest thinks that Mackensen has been forced to deplete his own forces, he reinforcements sent to Falkenhayn in Transylvania to such an extent that he cannot risk an offensive movement in Dobrudja.

Practically everywhere in Roumania except to the south of Red Tower Pass the Roumanians are holding their own. The Teutons are reported checked in their advance on Campolung but continue heavy attacks in the Alt valley where the loss of two Roumanian towns is conceded.

GERMANS LOSE LAST VERDUN FORT

Fort Vaux, northeast of Verdun, has been evacuated by the Germans. It is officially admitted in Berlin. "The artillery engagement east of the Meuse," is the statement, increased greatly in intensity. The French directed an especially destructive fire at Fort Vaux which, following orders, had already been evacuated by our troops during the night. Important parts of the fort were blasted before the German troops were withdrawn.

Fort Vaux was the last of the Verdun forts captured by the Germans in their offensive against Verdun to remain in their hands. Fort Duamont having been captured in the recent French offensive. The United Press reported Saturday that Vaux was under intense bombardment.

NEW OFFENSIVES BY ITALIANS

The Austrian War office, according to Berlin, has announced that the Italians are beginning a new offensive on the Isonzo, apparently with the purpose of making another drive at Trieste.

Berlin also declares that Russian warships shelled the Roumanian sea port, Constanza, recently captured by the Germans in their victorious invasion of that country.
