Physical Tests Early Next Week

Men Called by The First Draft Will be Notified by Mail But The Responsibility of Knowing Order of Call is Upon Them.

Of the 1400 young men of Pasquotank county registered for service and subject to draft in the army of Uncle Sam only 69 will be required to answer the first call to the colors.

Currituck will be required to furnish 53 men to the first national army and therefore 126 registrants in Currituck may expect the call to appear before the exemption boards.

Camden's quota to the nation's first army is 37, and in that county 74 men will be required to appear for examination before the exemption board.

Perquimans will be required to furnish 87 under the first draft and in that county 164 will be summoned before the exemption board for examination.

Only 30 men are to be drafted from Dare county. Sixty, therefore, may expect the call to appear before the exemption board for examination.

Tyrrell county is required to provide 38 men for the first draft and in that county 76 will be summoned before the exemption board for examination.

Gates county's quota is 78, with 156 to be ordered before the exemption board for examination.

Washington county, the apportionment of which was 83 has a credit of 33, leaving 50 to be drafted into service on the first call. One hundred is the number in Washington, therefore, that will be first summoned before the exemption board for examination.

Those who are to be called under the first draft will be notified to that effect by mail; but the Government emphasizes the fact that the responsibility for knowing the order of call lies upon each registrant.

Those who are only a little way down the list below the last man who will be summoned before the exemption board next week should be especially on the alert, as they are likely to be called if the proportion of exemptions in their county is larger than the average.

The following names and numbers are listed in the order in which they were drawn at Washington. The names apply to Pasquotank county only; but the numbers apply to any county the registration roll of which numbers not more than 1400 men.

The following numbers are not yet complete. Every name listed in your county has been drawn. But unless your name appears on the following list you may be reasonably certain that you will not be called under the first or even the second draft.

The list as it appears today has been corrected and revised as far as it goes. The names will be held in type and this paper will not rest until it has the complete roll for Pasquotank showing every man in the county the exact order in which he is liable to call.

The War Department has ordered all recruiting officers to refuse to enlist drafted men for any branch of the service after they are summoned for physical examination by the local exemption boards.

Men at the top of the list now have only a few more days in which they may volunteer.
