FRIENDSHIPS BROKEN AS BOYS GO TO CAMPS

Fleetwood Dunstan, recently recommended for first class sergeant by his commanding officer, sends his father, W. E. Dunstan of this city the following interesting letter: Community Club for Enlisted Men 283 Meeting Street, Charleston, S. C.

"It is pretty certain that I shall leave here tomorrow, although I have not received orders yet. Capt. Kimball told us that we could expect them tomorrow. He called to his office all that he had recommended for promotion and gave each man his selection of the several camps. Carr and I selected Charlotte, N. C. Thus, I suspect that I will be on my way for Charlotte in a few hours. Carr was also recommended for first class sergeant. He and I are the two first class sergeants who are going to Charlotte. There will be in addition two sergeants, and two corporals. Letting us choose our own stations is directly opposed to military custom. Capt. Kimball has been mighty good to us at all times, and this is just one of his many favors. As a result all of the boys almost worship him. I hope that I shall be lucky enough to be under as accommodating and considerate an officer in Charlotte.

"In a way I hate to leave here tomorrow. As I have said previously we have a fine bunch of boozers here and it is almost like leaving college. Everybody seems to be the other fellow's friend, and there has been absolutely no friction anywhere. We had a farewell supper tonight. They gave us a pretty fair lay out, and everybody enjoyed it. A string-instrument-negro trio came out and played for us. In conclusion we had a few little impromptu farewells, thanks to our mess sergeant, cook, etc. We had the best cook I have ever seen. He knew how to cook everything and cooked it well.

"All our sort friendships have to be broken. We are scattering in all directions: Mississippi, Alabama, Louisiana, Georgia, Arkansas, North Carolina, all parts of South Carolina, and some are staying here.

"There is one part of our roll call that is really humorous. Such names as these are called in succession: Zuzack, Decauche, Dalberg, Blankenstein, Gerde, Herzeberg, Kochner. "Most of these are German-Americans. All this goes to show how foolish war really is when reduced to the last analysis. I was talking to one fellow last night; and he says that he has cousins fighting for Germany. His name is Waterman (spelled in German Wasserman). One would never think that his father was a German by looking at this boy. One of his cousins is a Captain in the German lines, another is a dye manufacturer. His father is in sympathy with Wilson, and his own blood kin are in sympathy with Germany. This is one of the many cases of brother fighting brother."

JOINT LIFE INSURANCE

One of the logical developments of life insurance is the popularity of insurance on two lives.

This form of insurance appeals to the common sense of partners in business and to husband and wife.

In case of insurance on two lives the policy is payable to the survivor in case of the first death of either of the insured, unless otherwise stated in the application.

These policies are written by the Pan-American Life Insurance Co. on the whole life, and twenty payment and twenty year endowment plan.

The benefits and privileges are furnished for lowest cost consistent with safety.

All the terms are guaranteed. A clean-cut policy which any intelligent man can read and thoroughly understand.

The Pan-American issues all forms of up to date policies at low non-participating rates. This well known insurance company with assets of over \$5,600,000 and business in force of over \$42,000,000, is represented by Wood & Cartwright, No. 318 Hinton Building.

WOMAN SAMMY ENDS HER LIFE

WAR DECLARED ON TYPHOID FEVER IN PASQUOTANK COUNTY

The blowing up of the U. S. S. Maine in Cuba in 1898 caused the United States to declare war on Spain. At that time the United States had 10,759 troops in camp at Jacksonville, Fla., not one of which had been vaccinated against typhoid fever; consequently 4,442 contracted typhoid, and 248 died. That experience caused a declaration of war on typhoid by vaccination. In 1911 there were 12,801 U. S. troops in camp during the hot months of the year in Texas. All but one had been vaccinated against the typhoid, and he, alone, contracted the disease.

There has been no typhoid fever in the Army and Navy since vaccination was made compulsory.

DO WE NEED GAS?

Do we need the Gas Company in Elizabeth City? Are we willing to help it stay here?

It is only a young institution, but we believe it has been a great convenience, and even a great comfort to many homes in Elizabeth City. It was just getting on its feet when the war prices struck it, and they struck it with a force that made it tremble. The prices of material that go into the manufacture of gas, and the pipes, fixtures and etc, have increased from 25 to 200 per cent, not to say anything about the advance in the cost of labor. Of course we cannot compare our little plant with plants of larger cities and towns, for our patronage is of necessity limited, while our cost of production is as much or more than in larger towns, with much greater number of consumers.

It is asking the board of aldermen to permit it to make a slight increase in its charges for gas, not for the purpose of increasing its profits, but to enable it to live, and to enable it to serve its patrons efficiently and satisfactorily. The few additional pennies it costs each home will not amount to much, but it will enable the company to live, and to furnish good service. It is not asking for a permanent increase, but only until times get normal. Many companies are asking for much larger increase, but this company is only asking for enough say 12 1/2 percent, to enable it to stem the current, with the additional burdens, the great war has laid upon it. It is needless to say how the expenses of the company have increased, everybody knows how the prices of everything have advanced, and coke, coal, crude oil and piping are keeping pace with the highest. If the cost of furnishing gas is more than its receipts, it takes but little business judgement to say what the inevitable result will be. The company is only asking its patrons to help it live through the war, and then when normal times return, it will most cheerfully go back to normal, and even lesser charges.

Mrs. P. C. Cohoon and sister, Mrs. H. W. Nixon of Henderson, are spending the week at Nags Head.

NATIONS FACES CABINET CRISIS

BOTH ENGLAND AND FRANCE HAVE RESIGNATIONS PENDING DUE TO CRITICISM OF POLICIES OF OFFICIALS

(By United Press) London, Aug. 3.—Two Allied nations face a cabinet crisis today.

In London rumors have persisted that Arthur Henderson, Laborite member of the war cabinet, would resign as a result of the bitter criticism of his participation in the movement of radical socialists of France and Russia and his open advocacy of British participation in the Stockholm Peace Conference of Socialists. His retirement is regarded as certain if the government withholds the passports of such British delegates and otherwise the conservatives will raise a great storm.

In Paris two resignations in the Ribbott ministry are reported pending,—the Minister of Marine, Lacasse, and the Minister of Blockade, Cochon, due presumably to criticism of their policies.
