

Insurance Bill Is Introduced

Provision For America's Fighting Men And Their Families Bears Approval Of Wilson And McAdoo.

(By United Press)
Washington, Aug. 10.—Bearing President Wilson's approval and with Secretary McAdoo's plea that it be made a law in justice to America's fighting men and their families, the long expected war compensation indemnity insurance bill was introduced in both houses of Congress today.

This bill represents America's first attempt to be forehanded in providing for those whose homes may be wrecked by war.

The outstanding feature of the bill is the authorization of insurance for every fighting man at eight dollars a year per thousand dollars worth up to \$10,000.

The bill provides for the assignment of part of each man's pay to his family and for a separate allowance passed by the government for graduated sealed payments, for total or partial disability, and for death indemnity insurance.

If a man fails to make application on the \$7 to \$8 per thousand plan and is killed, the government presumes him to have made application for a \$5,000 policy and pays his widow and estate that amount.

For the support of dependents the bill provides that \$15 of the enlisted man's \$33 go to his wife. The government, if there are children, gives the wife \$32 a month additional, making a minimum income of \$45, and \$5 additional for each additional child. The father may give more than \$15 from his pay, if he desires. If a man's dependents are his father and mother, he gives 75 a month of his pay to them. The government gives them \$10. Thus a private with a wife and three children and a mother dependent on him can by allotting \$20 of his \$33 gets \$47.50 from the government, making a total of \$67.50 for his dependents.

The bill provides that a man without dependents or who does not allot that for his pay may be compelled by the government to deposit up to one half with the government at four percent interest. If total disability results from injury or disease his compensation runs from a minimum of \$40 to the maximum of \$75 a month for enlisted men up to \$2000 a month for higher officers. An officer cannot receive this disability allowance if he receives retirement pay.

If a man dies his funeral expenses up to \$100 will be paid. If he leaves a wife and two children and mother, they will get \$60 a month in addition to the \$5,000 or \$10,000 insurance he may receive at \$8 per thousand.

Under the old pension system this family would receive only from \$16 to \$24 a month.

All of a soldier's insurance is non-assignable and free from all claims of creditors of the insured or of his beneficiaries.

RED CROSS WILL DO ITS PART

American Field Headquarters, Aug. 10.—The American Red Cross is ready to take care of all the wounded armies.

It will be unnecessary to send them home for proper treatment after they are brought back from the firing line.

BRITISH LABOR WILL BE REPRESENTED

(By United Press)
London, Aug. 10.—British labor has decided to be represented at the International Socialist Conference scheduled to meet at Stockholm in September.

GET COMMISSIONS AUGUST 15TH

(By United Press)
Washington, Aug. 10.—Twenty-six thousand men trained in the Plattsburg camps for the past three months will be turned out as officers on August 15th.

Fourteen thousand others will be disappointed in their ambition to win commissions.

The War Department has announced, however, that more than 2,000 of those who fail will have a chance to repeat their course for the next three months and thus win the stripes. The whole group will be ordered into active service at once though they will have until August 27th to report.

CAN'T TAKE OUT WAR PROFITS

BUT GOVERNMENT CAN COMMANDER PROFITS AND THIS HAS BEEN THE METHOD OF THE BRITISH GOVERNMENT

(By United Press)
London, Aug. 10.—You can't take the profit out of war without disaster to normal business.

This is the view of the British government.

But you can commandeer that profit for uses of state after it has been made. This is what the British government is doing.

The present fiscal year will show a billion dollars commandeered, one of the government's financial authorities told the United Press today.

During the year ending March 31, 1917, the British Government claimed that it received as its share of excess business profits \$700,000,000 or 60 per cent. Business shows no sign of discouragement either.

ATLANTIS SUNK BUT CREW SAVED

(By United Press)
Washington, Aug. 10.—The Danish bark, Atlantis, was sunk July 9th by submarine gunfire but the crew was saved by a British destroyer, the State Department advises.

JOINT LIFE INSURANCE

One of the logical developments of life insurance is the popularity of insurance on two lives.

This form of insurance appeals to the common sense of partners in business and to husband and wife.

In case of insurance on two lives the policy is payable to the survivor in case of the death of either of the insured, unless otherwise stated in the application.

These policies are written by the Pan-American Life Insurance Co., on the whole life, and twenty payment and twenty year endowment plan.

The benefits and privileges are furnished for lowest cost consistent with safety.

All the figures are guaranteed. A clean cut policy which any intelligent man can read and thoroughly understand.

The Pan-American issues all forms up to date policies at low non-participating rates. This well known insurance company with assets of over \$5,600,000 and business in force of over \$42,000,000, is represented by Wood & Cartwright, No. 318 Hinton Building.

SPREADS OVER MANY COUNTIES

EPIDEMIC OF INFANTILE PARALYSIS NOW IN ELEVEN VIRGINIA COUNTIES WITH SEVENTY KNOWN CASES

(By United Press)
Richmond, Va., Aug. 10.—The northwestern Virginia infantile paralysis epidemic first reported less than a fortnight ago has now spread over eleven counties. There are at least seventy known cases.

The State Health authorities believe that there are a number of other cases in rural sections which have not been reported.

The affected counties are in a virtual "state of terror." State health representatives are on the scene everywhere making investigations and trying to control the epidemic.

DUTCH CARTOONIST TO HELP WAKE AMERICA

New York, Aug. 10.—Louis Raemaeker, Dutch cartoonist on whose head the Kaiser set a price of 12,000 marks, for showing up the Hun in all his "rightfulness," is in America and will attempt to rouse Americans to a full sense of the "brutal Boche," driving home his argument with his powerful cartoons.

Raemaeker arrived at an American port recently after playing hide and seek with the German spy system at London and evading U-boats whose commanders had order to "get" him.

When seen at the Vanderbilt hotel he laughingly told how he evaded the Germans who were intent on preventing him reaching America.

He remained in London for several days then jumped over to France, where he apparently sailed on at least a dozen vessels bound for the United States. He would board a vessel late at night. The German spies, seeing him go aboard would feel satisfied that had him cornered but early the next morning or a few minutes before the ship sailed Raemaeker would quietly slip ashore and embark on another vessel. In this way he managed to keep the spies on a wild goose chase and eventually sailed unobserved.

Raemaeker told the United Press how Germany had "kultur" blighted Europe. "If the Kaiser tried to stop the war today I believe the people would depose him," he declared.

One of the examining physicians declared that if the draft had called out the men between 31 and 51 a much better showing of physical fitness would have resulted. Apparently, the young men of the city and country do not measure up to the mark set by their fathers, and this in spite of modern sanitary measures and campaigns of disease prevention.

Mr. P. D. Twiddy returned Friday from a week's fishing trip at Nags Head.
