WANT TANK FOR VICTORY PARADE

Chairman Duff And Committee In Charge of Parade Making Strenuous Effort to Bring Land Battleship Here From Raleigh

County Chairman W. P. Duff and his committee on the big Victory Parade to be pulled off here on Easter Monday, April 21st, at four o'clock, are making strenuous efforts to secure a battle tank from the tank camp at Raleigh to be used in the parade.

These tanks are being exhibited to arouse interest in the Victory Loan all over the country and Mr. Duff and his helpers are very optimistic about the possibility of getting a tank here. They are the more optimistic because of the fact that the man who has the say-so in the matter is a Camden County boy, Lieutenant C. K. Burgess, and Mr. Duff and the members of the parade committee feel that Lieutenant Burgess will strain a point, if necessary, to favor his own home section.

Chairman Duff is writing Lieutenant Burgess a strong letter, urging him to do all he can for Elizabeth City and its section.

The committee feel that more than any other one thing a tank will stir interest in the Victory Parade and assure a large crowd from the surrounding counties in the city on that day.

SPARKS' MENAGERIE FEATURES

Experienced Animal Man Describes 127 Monkeys

That is the number of different species of monkeys that inhabit the earth, so says Gimp Reed, the noted trainer of simians in the natural haunts in all parts of the known world, and is now in charge of the 'interesting collection of monkeys, birds and reptiles that constitute the most interesting department of the Sparks' Circus Zoo. Persons particularly interested in Darwin's theories will have an opportunity to study first hand the habits and peculiarities of two rare specimens recently added to Sparks' Menagerie at great expense. One is a mammoth Chacma Baboon, imported prior to the outbreak of the war and kept in a gulf coast private zoo until thoroughly acclimated. He is one of the few of this species that has withstood the change of climate, confinement and separation from its mates, all of which are causes of short life for the Chacma, when taken from its native home. Mr. Reed claims as the greatest attraction in the big menagerie a mother monkey and 7-month-old baby of the species known as Rhesus. This mother very seldom allows her baby to get beyond her reach. No human mother could possibly show more love, or give more attention to the care of her baby. The visitor to Sparks' Menagerie on April 24 should not fail to devote some time to a study of Trainer Reed's special cages.

HID IN BUSHES TO EVADE WAR

One German Trusted Himself To Cannibals Rather Than His Own Countrymen And The Enemy

Sydney, Australia, March 5. (Correspondence of The Associated Press.)—Konrad Detzler, a German army engineer who had been hiding in the New Guinea jungle for years or since the beginning of the war has come back to civilization and now is in an internment camp in Australia. Detzler's story is on a par with other romantic incidents of the war as it affected the South Sea.

Detzler holds a captain's commission. When the war began he was surveying the boundary line between the then Kaiser Wilhelmland, or German New Guinea, and Papua, or British New Guinea. He decamped into the bush. This was a risky act, for the bushmen prefer human flesh above all other kinds. When an Australian force occupied Kaiser Wilhelmland, Detzler was overlooked.

For more than four years Detzler lived in the bush near Mismis. He had a shotgun but it was not long before he ran out of cartridges. Thereafter he lived on yams, taro and kau (a variety of sweet potato) in common with the natives, and upon birds and animals which he caught by means of snares.

Several times the Australians searched for him but Detzler managed to elude them. He might have stayed indefinitely in the jungle, but mistakably he told the Papuans of the armistice and they in turn told him. Thereupon he surrendered to the nearest Australian officer. While living throughout the war at Mismis, Detzler wore only a lava lava (native kilt). The result is that he is almost as brown as a Paupuan. He now wears a German uniform.

LAKE SHIPYARDS HAVE BEEN BUSY

(By Associated Press)
Cleveland, Ohio, April 10.—The shipyards of the Great Lakes have been steadily turning out steamers for the Emergency Fleet Corporation during the mild winter and when the canals between Lake Erie and Montreal open soon after April 15 there will be a rush of down-bound vessels.

Orders call for the delivery of more than 250 steamers in 1919. It is estimated that 100 vessels building for the government for salt water service will be ready to leave for the coast when navigation opens.

The American Shipbuilding Company, with several yards on the lakes, has orders for 111 steamers, 45 of which will be ready to sail at the opening. The boats are being turned out at Superior, South Chicago, Detroit, Lorain, Cleveland and Buffalo.

Contracts for 44 steamers, many of which will be ready soon, are held by the Great Lakes Engineering Works. Yards at Toledo, Duluth, Saginaw and Manitowoc also will have a number of vessels ready when navigation opens.

It will be late in the season before all the shipyards finish their contracts with the Emergency Fleet Corporation.

CANADIANS HOME WITH MUCH MONEY

(By Associated Press)
Winnipeg, Man., April 10.—Canadian privates are returning from Europe with considerable money, while many officers are reaching their homes practically penniless, according to provincial officials.

Most of the soldiers had approximately \$500 to their credit when they left England, only a portion of the amount being given to them before embarkation. The privates spent most of their leisure at recreation camps where little money is needed.

Officers, on the other hand, followed their inclination to "live" and with British and American officers helped fill the London hotels, according to returned officers. They say that fraternizing with American officers proved rather costly as Americans received higher pay and spent it freely.

"Thousands of Canadian privates will return with far more money than they possessed when they enlisted," one officer said.

SUMMER SCHOOL HERE POSSIBLE

Talk of Having Summer School For Teachers This Year Instead of Usual Two Weeks Institute

Superintendent P. S. Vann is corresponding with the county superintendents of Camden and Currituck as to the possibility of having a summer school for teachers at Elizabeth City this summer.

The school would be in session for a four week's term and would bring to the city for that period the teachers from each of the three counties.

The idea is suggested by Mrs. T. E. Johnson of the State Board of Examiners and Institute Conductors, and Superintendent Vann believes the suggestion an excellent one. If the other superintendents concur with him in this opinion it is most probable that the school will be held here.
