The proposals probably go before the Council of Four at this morning's session.

The reply was written in German.

AUSTRIAN TREATY NOT COMPLETED

When the Peace Conference in plenary session met this afternoon to hear the Austrian peace terms, it was announced that the treaty was not completed. It was decided therefore to postpone the session until Saturday.

Another reason for the postponement was a request from the smaller powers that they be allowed further time to consider the terms.

Later it was reported that the peace terms would be presented the Austrian delegation Monday.

Invitations to the chaperons will be mailed out by the club and these cards must be presented at the door in order to be admitted. If, by chance, any of those whom have been attending these club dances as chaperons fail to receive an admission card, same may be secured by asking any club member. As a large crowd of out-of-town visitors are expected and the music for this occasion promises to be the best ever had in the city, it is expected that the hall will be crowded to its capacity, therefore those who are desirous of attending as chaperons will do well to get admission card at the earliest moment.

GOOD MEETING HELD WEDNESDAY

Secretary Case Addressed The Housewives League on Subject of Unity And Concerted Action

Secretary Case of the Chamber of Commerce addressed the Housewives League Wednesday afternoon at a called meeting in the Hinton Building Rest Rooms on the subject of "Co-operation, Unity and Concerted Action," declaring that the League workers can get anything they want for their community if they will work together.

Committees from the Chamber of Commerce and the Housewives League are working co-operatively for a playground and in other matters. "All we need now is the money," said one of the members of the League. "We can get a playground with proper supervision, but the mothers and fathers of the children must together give something to this work. The organizations have no funds with which to make a playground possible. The parents of children, and men and women who have no little children of their own, but want to help their community, should be willing to contribute each and every one something to this cause. For it has come to be recognized that playgrounds are as necessary as schools."

A letter was read at the meeting from the national organization asking that the local league write to the congressman from this district and ask Congress to make cheaper flour possible. The national organization believes that this could and should be done.

A vote of confidence was given the new Board of Aldermen who hold their first meeting next Monday night. The League expressed its desire to co-operate with the Board in every undertaking for the betterment of the community.

The regular meeting of the League will be held next Wednesday afternoon at 4:30 at the Rest Rooms in the Hinton Building. The Inspection Committee which has been doing most valiant and valuable service for better sanitation this month, will make its report. All members are urged to be present.

TEXAS EXPECTS BIG WHEAT CROP

Dallas, Tex., May 28.—The two million acres of Texas land sown in wheat last autumn are expected to produce a crop of 40,000,000 bushels, five times larger than any previous Texas wheat crop. The Texas growers, guaranteed a price of \$2.25 a bushel, figure a total return of \$91,000,000 in round figures, with a \$10,000,000 reduction as the approximate cost of production.

Districts of west Texas and the Panhandle belt are recruiting a huge army for harvesting the crop within the next sixty days. For the first time in three years the drought-stricken sections of west Texas have use for reapers.

The reapers have already started on the southern edge of the grain belt and will continue moving north, county by county and state by state, until they reach Canada next fall. Many districts never before used for growing wheat were sown last fall, including tracts that formerly grew cotton.

Wheat statisticians have figured that the Texas crop, reduced to bread, would make 1,120,000,000 loaves, or 11,200,000,000 sandwiches.

The American army has made great use of side-cars in Paris and their handiness has appealed to everybody. Of course there is the drawback that a side-car can only carry one passenger but official statistics show that between 50 and 60 per cent of taxicabs have only one passenger.
