CITIES CELEBRATE GERMAN DECISION TO SIGN PEACE TREATY WITH ALLIES

Enthusiasm Marked in Lille, And Other Towns Wrested From The Germans. Salutes Fired, Flags Flying, Bands Playing

Paris, June 24.—Celebrations over the German decision to sign the treaty without reservation were nowhere more enthusiastic than at Lille and other cities and towns in territory wrested from the Germans.

Newspapers printed special editions, cheering crowds paraded the streets, houses were decorated with Allied flags, at seaports warships announced the news by firing salutes, in all the cities government buildings were illuminated, in Paris bands were everywhere on the streets, and the news was announced in the motion picture houses.

REFER QUESTIONS TO EXPERTS

The Council of Three has referred the questions relative to the sinking of the German fleet in Scapa Flow to a commission of experts to determine whether armistice conditions were violated.

HAIMHAUSEN WON'T SIGN EITHER

Weimar, June 24.—Dr. Haniel von Haimhausen who was designated Sunday as the German representative to sign the treaty has telegraphed his resignation from Versailles rather than attach his name to the document.

WILL SIGN THURSDAY OR FRIDAY

Paris, June 24.—No word has been received from Weimar relative to the new German plenipotentiaries at Versailles. The date for the signing of the treaty is not yet fixed but it is believed that it will occur on Thursday or Friday.

CLEMENCEAU BELIEVES TASK DONE

Premier Clemenceau has expressed his intention of resigning from office as soon as the treaty is promulgated, feeling that he has accomplished the task for which he assumed the premiership, says Marcel Hutin in the Echo de Paris.

It is expected that parliament will ratify the treaty late in July.

GERMANY CELEBRATES TOO

London, June 24.—News of the German Government's decision to sign the Peace Treaty resulted in patriotic demonstrations throughout Germany, the Exchange Telegraph's Copenhagen correspondent reports.

In Berlin, Munich and other cities processions marched along the principal streets, the participants singing war songs and cheering the generals of the old empire.

ENGLAND IS DISTRUSTFUL

Profound distrust of Germany is the dominant note in London press comment on Germany's decision to sign the Peace Treaty.

It is contended that the Germans proved themselves treacherous throughout the war and that the latest instance of their treachery, namely, the sinking of the interned fleet in Scapa Flow, indicates that they are still as treacherous as when they entered the war. The papers say, therefore, that any celebration of peace is premature until the treaty is actually signed and that even afterwards the Allies must continually be on their guard until

ARRIVED IN TIME TO STOP KILLING

Charlie Aydlett, colored, who lives on a farm in the Berea section, is in jail awaiting trial for larceny in the Recorder's Court Wednesday.

Charlie discovered that there were a number of cattle impounded here and unclaimed. He thought he saw a chance to make a little easy money. He got a local butcher to advance him the money to get the cattle out of the pound, identified them as his own, paid the charges and drove them home.

Later Mr. A. L. Aydlett of this city discovered that a number of his cattle on his farm near this city were missing, and when he described them the police suspected that Charlie had gone off with Mr. Aydlett's yearlings. Their suspicions were confirmed by an inspection of the tax books which showed that Charlie had not listed any of his stock for taxes.

Accordingly Mr. Aydlett and members of the police force drove out to Charlie's house where they found the butcher who had advanced the money to get the animals out of the pound with all his paraphernalia and the yearlings on the point of being led to the slaughter.

The cattle are now again in the town pound, unaware, doubtless, of how narrowly they have missed appearing at the table of some of the best homes in the city.

INDIANS SCALP THE SEA ROVERS

Hot Contest Goes to Red Men By Score of 8 to 6. Contested Game Between Cubs and Grays To Be Played Over

The Indians had the better of it in Monday's game with the Pirates, winning by the big end of a score of 8 and 6. Pirate errors were largely responsible for the loss of the game, and the Indians succeeded in bunting hits off Cutrell in the fifth, thus breaking the one-run lead which the Pirates had established in the first half of the same inning.

Luck seemed to be against the Pirates yesterday. In the first inning Jenkins of that aggregation rapped the pill for a two-bagger, but carelessly snoozed on third, and was nabbed by the bloodthirsty Indians. In the fourth Lowry got a two base hit and came home on Lewis' single, bringing in the first Pirate run. All told, the Pirates poled out ten hits off Perry, according to the official score, but lost the game regardless. Certain weak spots in their infield will have to be bolstered up before they can hope to be active competitors of the other teams in the pennant race.

It is now officially announced that the contested game of last week between the Cubs and Grays, which was temporarily awarded to the Cubs, will be played over, and the League standing is revised accordingly in today's paper. The official score of yesterday's game:

MERCHANTS MEET TO ORGANIZE

The new body will concern itself with trade problems that cannot be solved without the co-operation of the men mostly directly interested. It will put the merchants solidly behind progressive movements that cannot prosper without their support. It will count tremendously in advancing the trade interests of the city, by furnishing a forum where the owners of the stores may get together and discuss methods of trade upbuilding and extension.

Every merchant in Elizabeth City is expected to attend tonight's meeting, which will open promptly at 8 o'clock.

PERSHING THANKS "Y" WAR WORKERS

Says Criticism of Association by Army Men Due to Unreasonable Expectations.

Paris, June 2. (Correspondence of The Associated Press.)—The army has been unreasonable at time in its expectations from the Young Men's Christian Association because the "Y" spirit of willingness made the doughboy take for granted the association's ability to accomplish results, General Pershing declares in a letter of commendation to E. C. Carter, Chief Y. M. C. A. Secretary with the American Expeditionary Forces.

"On behalf of the A. E. F., I desire to express to you and to your fellow workers my appreciation and thanks for the splendid services which the Y. M. C. A. has performed for the American army in Europe," General Pershing's letter reads.

"When the first contingents began arriving, the Y. M. C. A. began that work for the American soldiers which has ever kept pace with the growth of the American Expeditionary Force. All the divisions and most of the smaller organizations have enjoyed its benefits and services. Besides maintaining the usual recreation huts, it has conducted canteens where the men could purchase small supplies, and, in addition, the Y. M. C. A. has constantly distributed, without charge, tobacco, hot drinks and the like at the front.

"Another service of great value has been the creation of and the work in leave areas, where the problem of giving the men occasional respites from the routine of army life has been solved. The facts which made this possible have been the recreational facilities in the leave areas, and especially the presence and splendid assistance of the American women with the Y. M. C. A.

"Other branches of your endeavor deserving of special mention are those connected with education, entertainment and athletics. In each of these departments the Y. M. C. A. has done excellent work, but the features which I have mentioned do not begin to cover the activities of the Association, which has at all times shown itself eager to undertake any extension of its work to meet the wishes of the military authorities. This spirit of willingness has resulted in the army's taking for granted much of your society's ability to accomplish results, and sometimes expecting more than was reasonably allowable under the circumstances. In fact yours has been the same spirit which has animated the American army and made possible its contribution to the successful conclusion of the war.

"As I cannot address all of your workers personally, I hope that you and they will accept this letter as an expression of my appreciation of the splendid work that you have done in France."

DEMAND FOR COPPER IS FALLING OFF NOW

London, May 28. (Correspondence of The Associated Press.)—All but two of the Australian copper mines and smelters are reported to have been closed down because of the large stocks of metal on hand and the very small demand.

The American Chamber of Commerce in London reports that this condition has raised the question in interested circles in Great Britain as to whether copper should be imported from the United States to the detriment of the industry in British Dominions.

Sixty percent of the British imports of copper last year came from the United States and only a little over nine percent from Australia. War allocation of shipping space had a lot to do with this but there is a feeling in England, that imports from the United States should now be kept down and preference given to the Australian product. This would be a further means of reducing Great Britain's adverse balance of trade with the United States.

Dr. Henning was greatly delighted with the Windsor people also.
