SLAYER CARMACK IS FOUND DEAD

Body of Robin Cooper Found Dead in Creek Near Nashville Today

(By Associated Press)
Nashville, Aug. 30.—Robin Cooper, prominent lawyer, who killed Senator Carmack in 1908, was found dead in a creek near this city today. It is reported that he was murdered.

Bullet wounds and other marks on the body convinced the authorities that Cooper was murdered and robbed.

Nashville, Aug. 30.—Cooper and his father, Duncan Cooper, were convinced of murder following shooting of Carmack in midst of bitter contest over Tennessee governorship. Later the younger Cooper was acquitted by a higher court and verdict against his father was confirmed, but the Governor pardoned him.

IRISH AGAINST PEACE TREATY

Say It Is Direct Violation of the Principles on Which War Was Fought

Washington, Aug. 30.—Representatives of Irish freedom appeared before the Senate Foreign Relations Committee today urging rejection of the Peace Treaty on the grounds that it will create a supergovernment and establish British moral supremacy so strongly as to menace the United States. They declared the Treaty a direct violation of the principles on which the war was fought.

GAS MASKS ARE HERE TO STAY

Buffalo, Aug. 30.—Army gas masks will not be abandoned by the Buffalo fire department. At the first fire in which they were used there fifteen wearing them were overcome while others without masks were able to stand the smoke. It was declared at that time that masks were useless as fire department equipment.

Fire Chief Murphy refused to accept this as a conclusive trial and since then, he says, the masks have been used with signal success.

"At the recent fire at the Cudahy packing plant where the smoke was very dense, men wearing mask penetrated to all parts of the building, remained for long periods and suffered no ill effects," Chief Murphy said. "The army mask has come to stay in the Buffalo department."

OPPORTUNITY FOR ELIZ. CITY BOYS

Can Enter Naval Academy Immediately. Congressional Appointment Not Necessary. Ages For This are 16-20

A golden opportunity is afforded three young men of this city to enter the Naval Academy at Annapolis, Maryland as midshipmen, without having to secure an appointment from a Congressman.

As the Secretary of the Navy has authorized the appointment of 100 midshipmen each year from the enlisted personnel of the navy, young men desiring to avail themselves of this opportunity may enlist as apprentice seamen and be permitted to take the examinations aboard the ship they are on. Two years high school education or its equivalent is necessary.

Young men desiring to secure further information about this should see the officer in charge of the Recruiting Party from the U. S. S. Robinson, which is in Elizabeth City today and labor day. The boat from the Robinson is at the U. S. Coast Guard dock on Water street.

SAYS STRIKE IS 2 EDGED WEAPON

Should Be Used Only as a Last Resort Says English Labor Leader

London, Aug. 12. (Correspondence of The Associated Press.)—The strike was characterized as "a two-edged weapon" which should be used only as a last resort in enforcing workers' demands by James Henry Thomas, a member of Parliament for Derby and general secretary of the National Union of Railwaymen in his first public address after returning from a visit to the United States where he studied the labor situation.

America had strengthened her economic situation during the war and "controlled or produced everything that the rest of the world required," Mr. Thomas declared. Unless England at once repaired the losses of the past four years, he said, disaster would stare the country in the face.

The speaker said he believed that the government itself did much to popularize the strike by refusing at the conciliation table today what they would concede tomorrow merely on the threat of a strike.

"The first essential is that confidence immediately be restored to the working classes," Mr. Thomas stated. "Employers must realize that the men and women who were responsible for saving the country expected fair and square dealing while workers, on their part, must not be carried away by the mistaken notion that wealth consisted in mere paper money—but must remember that the nation had to regain not only self-confidence, but the confidence of the world."

INTERESTING SERVICE IN UNITED STATES NAVY

A Recruiting Party arrived this morning from the U. S. S. Robinson, the fastest torpedo boat of the fleet, in an effort to enlist men for service aboard that ship. Men enlisting will be sent to the ship immediately and avoid being sent to a Training station.

An interesting winter cruise has been planned for the ship and men enlisting immediately will be able to take advantage of this trip through the old world which will be not only pleasant but highly educational.

Congress has made war pay permanent, a feature which is attracting many to the Navy. It is expected that many will avail themselves of the opportunity to enlist.

A large sailing launch from the U. S. S. Robinson is at the U. S. Coast Guard dock on Water street. Those desiring to go aboard the Robinson will be taken to Norfolk in this fast power boat, and given a chance to see this powerful ship.

The Robinson's Recruiting Party will leave Elizabeth City on Monday evening, as the U. S. S. Robinson will sail on probable foreign duty September 5th from the Navy Yard at Norfolk, Va.

TRAFFIC HEAVY ON LABOR DAY

And Those Expecting to Travel At That Time Urged to Make Arrangements in Advance

Norfolk, Va., Aug. 28.—Walker D. Hines, Director General of Railroads, today authorized the following: In view of the extraordinary heavy travel anticipated over Labor day, it is urged that the public if desiring to travel on railroads over labor day make their traveling arrangements including the purchase of railroad and sleeping car tickets as far in advance as possible so as to avoid adding to the congestion which usually occurs at this period. As far as possible everything that can properly be done has been done to care for the expected travel over labor day. Several weeks ago our Regional directors were asked to give special consideration to this matter and each of them has answered that he has issued the necessary instructions and has taken steps to provide as much equipment as possible to adequately care for the travel as far as its volume can be anticipated. The arrival within the next two weeks of the first and third army divisions from France will require a large number of cars and there is also still a very heavy movement of discharged soldiers from Camps to their homes which takes up a great deal of space in passenger equipment, but all equipment that the troops movement section can possibly spare has been assigned to the labor day traffic. Arrangements have also been made to supply extra baggagemen at all large centers and other points where congestion might occur. Also extra ticket forces have been arranged.

METRIC CAMPAIGN IS SUPPORTED IN BRITANNIA

San Francisco, Aug. 29.—World Trade Club of San Francisco is receiving daily a large number of letters from English-speaking people all over the world, pledging support to the campaign for world wide adoption of the metric units meter-liter-gram.

A Lieutenant-Colonel in the British Army who is still stationed in France has written World Trade Club as follows:

"You may be amused at the following story of a conversation of mine with two officers of the U. S. American Ordnance Department with whom I made dear friends. I said: 'There is one thing about the United States which, when I realized it, filled me with horror and contempt.' This made them sit up and wonder what I was getting at. However, they quite politely asked me what it was, without knocking me down. I replied: 'You use to your disgrace the same ghastly weights and measures as we do.'"

Another typical letter comes from the pastor of a large London church. He says of the metric system: "I am convinced that its exclusive use would create a greater unity among the world's nations, both commercially and socially, and would therefore be a potent means of the continuation of peace. Therefore, I hope that your efforts to this end will be repaid with success."

THREE TO TWO IN CUB'S FAVOR

Friday's Game a Close And Exciting One And Issue Was in Doubt up to Last Inning. Final Game This Afternoon

The sixth game in the fight for supremacy between the Elizabeth City Grays and Cubs went to the Cubs by a close margin Friday afternoon. The score was three to two.

Features of the game were a one hand catch by Norris of the Cubs in left field, the pitching of Woodley of the Grays and Dixon of the Cubs and the batting of Woodley and Caddy.

The winning of this game by the Cubs puts the two teams on even footing in the race for the pennant, each team now having three games to its credit.

The final contest of the series will be played on the Main street diamond this afternoon at five o'clock. A big attendance is expected, spite of the fact that Saturday is a busy day down town and many of the fans and the players are usually at work. The time has been changed from six-thirty to five o'clock on this account.

The score by innings in Friday's contest follows:

	R	H	E.
Grays:	0	10	1000-2 4 3
Cubs:	0	0	10011-3 5 6

Meantime the President is completing his arrangements for his tour.

THE WEALTHY DOLLAR

Money Saved Now And Securely Invested Will Have Double Buying Power in The Future

The saying has come up from the dark ages that the way to make money is to buy cheap and sell dear.

As the government of the United States is pointing out to its citizens, one way to do this is to buy standard securities when the purchasing power of money is low and hold them until the purchasing power of money is greater. "Low-power" dollars invested in government securities now will be redeemed at a later period when interest and principal will come back as "high-power" dollars.

Here is how it works:

Before the war you earned, say \$3 a day. Now you earn, say \$5 for doing the same work. But you can't buy much more with your \$5 than you could with your three dollars—other prices have gone up along with the price of your labor.

Now when prices and wages have decreased somewhat, you may, for example, be earning and spending \$4 a day. Your hundred dollars worth of War Savings Stamps becomes due and the government gives you back your original investment of \$83 plus \$17 interest. In terms of days' labor the government is giving back four days more than it borrowed from you, plus your \$17 interest.

This changing value of the dollar has made many people richer and others poorer without their knowing exactly how it happened. Now is the chance to join those who are going to be made richer, and one safe way to do it is to buy the convenient government security — War Savings Stamps.
