## MOTHER'S WISH HAS COME TO PASS

Most every boy, old boy, middle-aged, and young boy can remember back in his wild romping youth when mother wished to goodness boys' clothes were made of leather. Now this long wished for thing has actually come to pass and LEATHERIZED suits for boys are being shown this season by T. T. Turner & Co. This firm believes Leatherized suits to be the biggest thing in Boys' Clothing ever shown in Elizabeth City. They are really leatherlined where the wear comes, and are guaranteed. We would like to show every boy's mother in this city and county one of these Leatherized suits. It solves an old, old problem. They have a snappy smart appearance and are bound to make a big hit.

## HELD SCORELESS FOR SIX INNINGS

### Fast Norfolk Team Outclassed Grays But Home Team Made Gallant Fight

The largest crowd that has witnessed a ball game in Elizabeth City since the days of Dave Robinson and the Tidewater League turned out to see the Labor Day contest between the Elizabeth City Grays and the Norfolk Odd Fellows.

And the contesting teams gave Elizabeth City fans the prettiest exhibition of baseball seen here this season. The Grays were evidently outclassed by the visitors but they made a gallant fight and held the Odd Fellows scoreless for the first six innings. The final score was six to nothing for the Norfolk team.

From start to finish the game was fast and clean, and was greatly enjoyed by the big crowd of Elizabeth City fans.

About a score of automobiles brought the visiting teams and their friends from Norfolk.

The batteries were Fletcher and Fletcher for Norfolk and Davis and Caddy for Elizabeth City.

Everybody is invited.

## LIVE LOCALS

Mr. and Mrs. J. G. Fearing and son, James, Mr. R. S. Fearing, Miss Maxine Fearing, Dr. and Mrs. Ike Fearing and children returned to the city last night after a week's stay in Washington, D. C. They were extended many courtesies by Senator L. S. Overman and Congressman J. H. Small while in the Capital. On Sunday they attended President Wilson's church and the great Southern Methodist church that has just been completed.

Dr. and Mrs. Willard Camahin and son, Willard, Jr., from Washington, D. C. have returned after a visit to Mrs. G. R. Barrow. Mrs. Barrow and little daughter accompanied them home.

Miss Bessie Morgan and Miss Lizzie Mae Jackson have returned from a pleasure trip to Washington. Returning they spent several days with friends in Portsmouth.

There will be an ice cream supper Thursday night on the lot behind Walker Memorial Chapel on Southern Avenue. The proceeds will be used for the Sunday School.

The Boy Scouts, with Scoutmaster Shumaker, left Wednesday afternoon for Gorrell Beach where they will camp for the night.

## THE SOY BEAN WORM

### Next Brood is On The Way. Its Seriousness In Question. What to do if Destructive

Temporary quarters: R. F. D. 1, Box 30, Flora Farm, Elizabeth City, N. C.

By FRANKLIN SHERMAN

The parent moths of the bean worm were abundant in the fields from August 12th to 26th. Here at Elizabeth City I found first eggs on August 22nd, but some had certainly been laid sooner. Eggs are now hatching to very small worms which crawl with looping motion and "dop" when touched, the genuine article. Careful (and tedious) examination of 600 leaves yesterday showed 26 eggs and 4 young worms—total 30. This is one to every 20 leaves. It stands to reason that some were overlooked for the egg is about the size of a period in ordinary print. From these I have already hatched 3 young worms and (good news so far as it goes) 2 egg-parasites—no worms will hatch from those two eggs.

While I feel sure that the number of eggs laid is not commensurate with the number of moths,—i. e.—that many moths died without providing for normal progeny, yet the present showing is sufficient so that every bean-grower will do well to "keep his powder dry." If he is also a potato-grower he will do well to lay in some of the poisoning materials, for he will need them next spring on his potatoes if not in September on his beans. If he would have no other use for the materials, he should at least know where he can get them and be prepared to place a rush order if he finds his beans need treatment.

The young worms are very small. It will take about 10 days or two weeks for them to get to the size where they "riddle" the leaves. I'll stick to my former dates, they should be in evidence by September 10th, and if you cannot find renewed evidence of their work by the 15th it is likely that they will not be serious. Diseases (previously noted and mentioned in these articles) may yet greatly reduce them.

## The Remedy

We give first preference to dusting with powdered arsenate of lead mixed with dust (hydrated) lime, at rate of 1 pound arsenate to 8 pounds of lime. The Elizabeth City Standard Drug Co. has a limited quantity of arsenate and Flora Co. has the lime.

As a source of larger supply I have secured prices from T. C. Andrews & Co., Norfolk, Va. Their quotations are as follows:

(1) Arsenate of lead—1 lb. packages, 41 cents per lb. 5 lb. packages, 39 cents per lb. 100 lb. kegs, 33 cents per lb.

(2) Arsenate of lead mixed with hydrated lime, 1 lb. to 8 lbs. of lime, in 100 lb. bags, \$7.00 per bag.

(3) A Paris green mixture (their own), which on beans should only be used with dusting machine, 15 to 20 lbs. per acre, put up in 100 pound bags, \$4.50 per bag.

The principle of fighting them is the same as with the potato-beetle,—but beans are more likely to be burned by the poison, hence light, even applications are necessary, heavy dosing with very strong poison will do more harm than good.

Dust enough to whiten the top leaves, need not worry about lower leaves nor under surfaces. If you haven't a dusting-machine shake from a sack, or scatter as thinly as you can (but thoroughly) by hand. With dusting machine the poison may be used stronger—but be careful.

If prepared for liquid spraying use at rate of 1 pound powdered arsenate to 25 gallons water.

Yes, you may use Paris green, but I warn you it is more likely to burn the leaves, hence our preference for arsenate of lead.

Having told you that the next brood of worms is now provided for, and are already hatching,—and having warned you to be ready and what to do if the need arises, I now venture to hope that this brood will not be so destructive as the last. The worm has already lessened the amount of hay and injured the weight, bulk and sprouting capacity of the beans in many fields, though many other fields (especially where beans were not up when previous moths were out) have recovered nicely.

We have ascertained many things in our studies and are finding more,

## BLUE MOOSE WIN IN MEMBER DRIVE

### Lively New Order Now Has Nearly Two Hundred Members Enrolled And Is Still Going Strong

The Blues won in the Moose membership campaign which came to a close Tuesday night at the regular meeting of the order in the Flora building hall. The meeting was largely attended.

When the number of new members and their names read out there gained by the campaign was announced was prolonged applause from the members.

The following officers were elected: P. H. Williams, Past Dictator; M. B. Simpson, Dictator; A. R. Nicholson, Vice Dictator; Rev. E. F. Sawyer, Prelate; W. R. Pritchard, Secretary; H. G. Kramer, Treasurer; Dr. C. B. Williams, Medical Examiner.

A committee was appointed to arrange for a banquet to be given by the Lodge within the next few days. It is planned to make this banquet one of the most enjoyable affairs of the kind ever held by any lodge in the city. Announcement of the banquet date will be announced very soon. Several short talks were made by members, all expressing the belief that the Moose will be one of the strongest fraternal organizations in this section.

The Lodge will be officially instituted probably next week.

Good work in the membership campaign was done by both teams, but Mr. A. R. Nicholson of the Blues won social distinction. Of the four score names brought in by the Blues half represented applications turned in by Mr. Nicholson.
