## New IDEAL-Arcola Radiator-Boiler

This new and wonderful outfit delivers the pleasantest, health-protecting warmth throughout all your rooms, day and night, all winter long. If freezing days at home have shown you how comfortless and fuel-wasteful your present heating is, consider at once these unequaled benefits and economies guaranteed by IDEAL-Arcola outfits-

UNIFORM WARMTH-The IDEAL-Arcola is hollow-walled, and the space between is filled with water. This water absorbs the excess heat of the fuel and automatically circulates through piping to AMERICAN Radiators set in other rooms, warming all alike. The same water is used over and over for years.

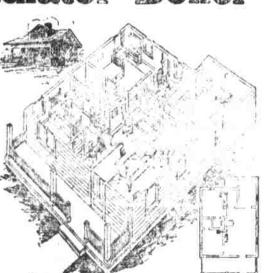

HEALTHFUL—Unlike stoyes, there are no coal-gas leaks into the living rooms. There are no drafty halls or chill spots.

ECONOMICAL-The IDEAL-Arcola burns hard or soft coal and brings cost of heating down to lowest notch. The outfit does not rust out or wear out-is a genuine, permanent investment.

SAFE-With the IDEAL-Arcola there is no fire-risk to building-no danger to children.

EASILY PUT IN-IDEAL-Arcola Outfit is easily put in OLD or new buildings, without disturbing the household. No cellar is needed.

> Catalog showing open views of houses, individual flats, stores, offices, etc., with the IDEAL-Arcola Boiler in position will be mailed (free). Protect your home forever and save at the coal-bin-write today

All Federal Reserve Banks, as fiscal agents of the United States, are authorized and requested to receive subscriptions and to make allotments in full in the order of the receipt of the applications up to amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of their respective districts.

It is hoped that every banking institution in the country will bend its utmost efforts toward making the volume of subscriptions to the new series as great as possible and toward having the subscriptions in hand at the earliest possible date.

#### CLEARING HOUSE FOR FREIGHT CARS

New York, Jan. 23 .- A \$20,000, 000 connecting railroad, to act as a clearing house for the freight cars of half & dozen roads entering or passing through the port of New York from both sides of the Hudson River, is proposed by the New York and New Jersey Port Commission. The roads is to link up trunk lines terminating on the New Jersey shore and those on the New York side of the Hudson at Piermont, N. Y.

The scheme is said to be part of a general plan of changes to enable the port of New York to hold and facilitate the handling of commerce passing through here, for which Boston, Philadelphia and southern ports are reaching. Railroad men are said to be agreed that the connection will save the trunk lines money far in excess of interest on its cost and operating expenses.
