Well, it's the cold gray dawn for a lot of us fellows. But anyhow, we're game.

Next on the calendar will be the second primary and Good Will Day.

Like the folks in that little Western town Lieut. Maynard told about, we can't help being disappointed that we didn't see Trixie.

Well, here's hoping that Camden and Currituck will not have cause to regret the defeat of Miles Ferebee for the Senate. But we shall see what we shall see.

Lieut. Maynard said in a few years we'd all be rushing to the country to live. Well, plenty of us would like to live at Weeksville when the new road and the new high school are completed.

While we are appointing our various Chautauqua committees next year, can't we get one on law and order? Disorder at the tent was trying this year throughout Chautauqua week and on Monday afternoon and Monday night was little short of disgraceful.

The Advance especially regrets discourtesy to visitors in the Picture City when they come to us from another country.

When George Spence was a college boy and did the usual stunt of trying to walk from Wake Forest to Raleigh one day he remarked as he got along on his thirteenth mile, "These here mile posts are getting devilish scattering." Well, its the other way with us today. Getting to press with one issue of The Advance in the morning and another in the evening makes getting out the paper painfully frequent.

We fancy that a number of Elizabeth City young people will want to go to Chowan College next term because Mr. and Mrs. Vann will be in charge there. Of course the location and accessibility have something to do with selecting a school, but after all the biggest and most important thing is the sort of president and faculty the school has. For it is from these that the most lasting good and the strongest influence come.

Every year young Stuart Wood brings The Advance a share of his own garden stuff.

One year he had prize tomatoes and another year prize potatoes, and so on. This year its snap beans. He brought them in this morning, great big, green tender ones, just right. He said he picked three quarts today.

Besides beans, Stuart has beets, onions, potatoes, corn, lettuce, May peas, tomato plants and cabbage plants in his garden, and though everything is late on account of the late season, his garden truck is growing and prospering under his care.

Easy? I'll say it is!

You never saw anything in your life like Clean Easy for washing. You simply soak the clothes over night and boil them for ten minutes in 4 1/2 gallons of water and 1/2 bar of shredded Clean Easy Naphtholeine Wash Soap, dissolved. Punch with a stick, rinse, blue and dry—and the whole week's washing's done.

Sounds almost too good to be true, doesn't it? Just think of doing an average week's washing in ten minutes for only a few cents! Without rubbing, scrubbing or any mean work! No wonder thousands of women say that Clean Easy is the most wonderful helper a woman ever had.

Once you've seen Clean Easy work, you'll never, never break your back over a scrubbing board again. Clean Easy disinfects and cleans cleaner than you can, anyhow. It looks different from other soaps—and it is different, too! One trial will prove it. Order a bar of Clean Easy today, from your grocer's.
