Lyon Heater

will keep your home warm and comfortable without radiators and pipes, with only one register. More satisfactory than either hot water or steam. Can be installed for one third the cost of hot water or steam, and saves one third of your coal bill.

With the present high price of coal, in choosing a heating plant it is very important to keep in mind the coal consumption as well as first cost.

The Lyon Onepipe Heater sends into the house ninety per cent of the heat units in every pound of coal consumed. This means less coal required and less coal means a lower coal bill.

Every heater guaranteed to heat satisfactorily — you assume no risk.

KIDDIE KAPERS By BILL BAILEY

I'm doing fine, I've got a job,
That really pays quite well
I'm making money, and, besides,
Some friends, who are real swell.
