BOARD AWARDS WAGE INCREASES

Totalling Six Hundred Millions or Approximately Twenty-One Per Cent of Present Wage Scale.

Chicago, July 20.—The United States Railway Labor Board today awarded nearly two million organized railway workers wage increases totaling six hundred millions. The increase amounts to approximately twenty-one per cent of the present wage scale.

The award is retroactive to May 1st of this year.

The decision grants workers approximately sixty per cent of the billion dollars increase they sought.

The presidents of all leading brotherhoods and representatives of railroad managers were present when the decision was made public.

Washington, July 20.—Immediately on receipt of the labor board's announcement railway executives here went into a conference to frame recommendations for the interstate commerce commission for rate advances to meet the added expense.

The commission now has under consideration applications for rate increases to provide an adequate income of \$1,197,600,000 annually, but these have not yet been recommended.

Railroad executives said today they would ask the commission to permit the increase to be expressed by the award upon both freight and passenger rates, but the proposition has not been determined.

Washington, July 20.—Demand for additional wage increases for 1920 all classes of the 2,000,000 railroad employees have been pending since late last summer. These demands, first presented at different times to the Railroad Administration's Board on Wages and Working Conditions, were unsettled when government operation of the railroads was ended, and in turn were referred to the Railroad Labor Board, which was created under the Transportation Act.

Some few of the classes of organized employees have not pressed formal demands but have insisted that their wages be increased if advances were granted other related classes of workers. The principal demands of the leading unions follow:

Brotherhood of Railroad Trainmen: Passenger brakemen be increased from \$120 a 20-day month to \$150 for 26-day month; baggage men be increased from \$124.80 for 20-day month to \$160 for 26-day month; assistant conductors be increased from \$144 for 20-day month to \$179 for 26-day month; freight brakemen in valley territory be increased from \$4.08 to \$5.88 a day with ten per cent increase over these rates wherever the grade exceeds 1.8 per cent; yard foremen or conductors be increased from \$5.32 to \$7.20 a day; yard helpers or brakemen be increased from \$3.50 to \$6.20 a day; switch tenders be increased from \$4 to \$5.90 a day; also time and one-half for all Sunday and holiday service and guaranty of 26 days a month for regular employees in all classes of service.

Order of Railway Conductors: Passenger conductors be increased from \$180 for 20-day month to \$225 for 26-day month; through freight conductors be increased from \$5.40 to \$7.65 a day in valley territory, with increases in the mountain rates from \$5.81 to \$8.37 a day; local freight conductors be increased from \$5.92 to \$8.38 a day in valley territory, with increase in mountain rates from \$6.26 to \$9.13 a day.
