BATTLESHIPS TO BE SOLD AS JUNK

Now Considered Obsolete Fighting Units Though Once They Did Valiant Service For The American Navy

Philadelphia, Pa., Oct. 5 (By The Associated Press)—Three obsolete battleships, a cruiser and two monitors, will be sold as junk at the Philadelphia Navy Yard.

The vessels are the battleships Maine, Missouri and Wisconsin, the cruiser Columbia and the monitors Ozark and Tonopah. They represent an aggregate tonnage of 53,000. All stores and machinery worth salvaging will be removed before the sale. The battleships and monitors carried main batteries of twelve inch guns now declared obsolete as effective fighting units, though they all served on active duty during the war as station or training ships. The cruiser Columbia, one of the fastest warships in the Spanish-American war, was used on patrol and convoy duty.

The Maine and Missouri were commissioned in 1901. The Maine replaced the old Maine blown up in Havana harbor in 1898.

The Wisconsin went into commission in 1907 with the North Pacific squadron. She was turned out by the Union Iron Works on the Pacific coast.

The monitors Tonopah and Ozark went into commission in 1900.

Today's Crowd Is Biggest Yet

Visitors Pleased With Excellence Of Exhibits And Number And Class Of Free Attractions Are Thronging Fair Grounds

Thursday, the third day of the 1921 District Fair, drew the best morning crowds yet recorded, and by noon the number of Fair visitors already on hand for the day's doings gave indication that the attendance would be the largest thus far.

Comments on the excellence of this year's Fair could be heard on every side, and the number and variety of the exhibits in all departments drew favorable remarks from many of the spectators.

In the Farm Exhibits Department, displays of exceptionally fine white corn, raised on the W. H. Jennette farms at New Holland, Hyde County, attracted much attention. Buds of corn in these exhibits measure twelve and thirteen inches long, and surpass in size any ever seen at a local fair. Huge sunflower heads the diameter of a bushel measure were exhibited by D. W. Morgan and others, and excellent potatoes and yams of monster size vied with huge yellow pumpkins and luscious clusters of black grapes in the display. Native-grown pecans and other nuts in a wide variety of native-grown kinds and carrots, beets, cotton, soy beans, and other field and garden products were to be seen in this department, which doubles in size last year's District Fair farm exhibit.

The largest and best exhibit of cakes, pies, muffins, bread, biscuits, butter and other excellently cooked eatables ever seen at a Fair here attracted many visitors to the Home Department at the end of the Exhibition Hall, and Miss Marie Albertson's club girls were well represented with canned fruits, jellies, vegetables and the like, as well as by numerous bits of dainty fancywork, bed spreads, table covers and other beautifully-made things to wear and to adorn the home.

Perhaps the most interesting exhibit in the Main Exhibition Hall is the fish and fish products of the North Carolina Fish Commission, Commissioner T. S. Meekins, of Manteo, arranged this exhibit, which includes oysters, young and old, a big sea turtle caught at New Inlet, clams, crabs and practically every species of fish found in the waters of North Carolina, as well as canned herring roe and drum fish from the cannery of A. W. Midgett, of Manteo; canned shrimp from the Ocean Sea Food and Canning Company, of Southport, N. C.; menhaden fish oil, used in the preparation of paint, and in leather tanning, sent by the Wallace Fisheries Company, of Morehead City; and a vial of oil taken from the jawbone of a porpoise near Hatteras, said to be worth \$40 a gallon. The Fish Commission exhibit will be taken to the State Fair at Raleigh week after next, by special request of the management.

A 725-pound Poland China male hog, exhibited by Zenas Jennings, of Elizabeth City, is the feature of this year's swine exhibit. The animal is two years old, and approximates in size a small horse. Fine Aberdeen-Angus cattle and hogs from the Foreman Stock Farms, and exceptionally attractive Percheron mules are exhibited by Flora & Garrett, and A. E.
