**FAIR LAND IS
MADE DESOLATE**

Despite British Declaration Of Mar-
tial Law Outrages Continue
In India

Calcutta, India, Dec. 21 (By The
Associated Press)—Despite the de-
claration of British martial law, the
outrages of the Moplah uprising,
which began the last week in Aug-
ust, still continue. The fair land of
Malabar has been rendered desolate;
railroads have been torn up; bridges
destroyed; public and private build-
ings burned; government treasuries
and private houses looted. Men,
women and children have been slain
and wholesale conversions have been
made at the point of the bayonet.

The district magistrate has issued
the following communique: Informa-
tion has been received that many
forced conversions to Islam are be-
ing made in the eastern Amsoms of
Calicut, and that Mathumana Ilom
in Puthur Amsom is one of the
places where such conversions are
being made on a large scale.

"A refugee states that he saw 25
Hindus shaven in Moplah fashion
like himself and made to chant soft
verses. There are also about 20 wo-
men and children shut up in Ilom.
Women are also made to repeat
verses, and are made to wear Mop-
lah costumes.

The following statement, re-
corded from Pilathottathil Kelap-
pan, who escaped with many wounds,
shows the fate of those who refuse
to embrace Islam: "Two wounds on
the back of my neck were inflicted
with a sword last noon by a Mop-
lah. These wounds were given to me
in the jungle near Ilom. Several
Moplahs were present with the man
who cut my neck. About 50 per-
sons have been beheaded and thrown
into a well. I was also thrown above
them. I caught hold of a creeper
there, and got up, and slowly came
here. Hindus are beheaded thus be-
cause they refuse to become Mussul-
mans."

Mahatma K. Gandhi, Indian Na-
tionalist leader and non-participa-
tion advocate, refers in Young India
to the Moplah outrages, saying: "The
Mussalman must naturally feel the
shame and humiliation of the Mop-
lah conduct about forcible conver-
sions and looting, and they must
work away so silently and effectively
that such things might become im-
possible, even on the part of the
most fanatical among them. My be-
lief is that the Hindus as a body
have received the Moplah madness
with equanimity, and that the cul-
tured Mussalman are sincerely
sorry for the Moplah's perversion of
the teachings of the Prophet."

**General Wood
Will Economize**

Consolidating In Government Ac-
tivities To Provide Funds For
Care Of Lepers

Manila, P. I., Dec. 21 (By The As-
sociated Press)—Governor General
Wood has announced that he already
has begun work on plans to con-
solidate certain government activi-
ties on an economical basis, in or-
der to obtain sufficient funds for the
care of lepers and the insane, and
for education, public works and pub-
lic welfare work in general.

"This does not mean, however,"
said the Governor-general, "that the
services of certain officials or em-
ployees will have to be dispensed
with in the government. We want
all the officials we need, but we do
not want the unnecessary ones."

One of the first steps taken to-
ward pruning down the expenses of
the government is the announcement
of the merging of the mint bureau
with the insular treasury, the mint
becoming simply a division of the
treasury instead of a separate bu-
reau.

Blitzen Returns

Blitzen, the champ rat catcher of
the Hoboken piers, is back home
again. Blitzen looked over South
America but didn't think much of it.
Dock workers grieved when Blitzen
disappeared and were happy three
months later when R. Schultz, of-
ficer of the S. S. Huron, walked
ashore with the cat in his arms.
Blitzen boarded his ship at Rio,
Schultz said.
