Pull with us for the 10 cents bus.

Times were seldom so good for the American laborer, but still the American farmer gets it in the neck.

The way Mr. Harding is practicing on running trains and sich, maybe he's got a notion he isn't going to be running the White House much longer.

The finding of a stolen mailbag in a field is bound to cause dark suspicion in the mind of a man whose mail on a number of occasions recently has reached him a week late.

Who says the Associated Press ain't got no pep? If you don't believe it's pep every step, read the boxed story of the disastrous ending of a game of African golf in Steubenville, Ohio, in The Advance today.

Lots of us who haven't been to a baseball game this season would find an excuse to attend a game if we happened to hear that Bill Poyner of Poplar Branch was going to pitch again.

A woman suffrage paper has a cartoon depicting "Bridge and Gossip" on the one hand, with "Brains and Government" on the other. Wonder how "Babies and Husbands" would do. Anyway, they didn't seem to consider this suggestion. Maybe it was because we hadn't made it then.

The opening of the new road through Tadmore, The Advance hopes, will make us not only better acquainted with Gates County and the rest of the State, but with our own County as well. No part of the County is so little known in Elizabeth City as Tadmore. Indeed, most folks here are better acquainted with Camden, Currituck or Perquimans than with this fertile section of our own County.

A Needless Tip

This from the Raleigh Times: "The Baker heirs we wish well and hope they will get all fifty of the millions of dollars supposed to constitute the estate of a North Carolinian who went to California in 1849; but since the Associated Press has never been able to find a record of the Baker in question or his estate, we have a notion that they'd get more money out of a fall crop of turnips."

For the benefit of Os Coffin, The Advance wants to say that the two Baker heirs of this section are letting their lawyer do the work of trying to locate the Baker fortune and are both busy growing a crop. Mr. Baker of Pasquotank is the man who's been growing a good part of the truck that C. O. Robinson of this city has sold at such fancy prices.

NATURE PUT IRON FOR YOUR BLOOD

In the husks of grains and the peels and skins of fruits and vegetables but modern methods of cookery throw all these things away—hence the alarming increase in anaemia—iron starvation of the blood, with its never ending trend of symptoms of nervous irritability, general weakness, fatigue, disturbed digestion, headaches, pains across the back, etc.

Either go back to nature or take organic iron—Nuxated Iron—to help enrich your blood and revitalize your worn-out exhausted nerves. Over 4,000,000 people annually are using it. Nuxated Iron is sold by all druggists.
