

### Baseball Passing in the Philippines

Philippines Keen for Game, But Have Little Encouragement from Americans

Manilla, P. I., July 30.—Baseball, the American national pastime which was expected to replace cock-fighting here, is dying out in the Philippine Islands, and the Department of Public Instruction, by its lack of interest, is blamed for the failure by a sporting writer in a local newspaper. The Manila league is said to be the only baseball organization in the islands in a flourishing condition today. During the last five years, sporting authorities say, the Department of Public Instruction has given no encouragement to baseball through the bureau of education. Prior to that time, it is said, the bureau of education was actively engaged in fostering the national game in the islands, with a view to eliminating the island sport of cock-fighting. Teachers brought here from the United States, it is charged, do not play baseball and have little, if any, knowledge of the game or of athletics in general.

The Philippines Amateur Athletic Federation, according to dyed-in-the-wool baseball fans, is favoring indoor baseball over the outdoor game. It is pointed out that in the new P. A. A. F. athletic annual only three pages are devoted to baseball out of a total of 384 pages. Eleven pages are devoted to the rules of indoor baseball, while many additional pages are used for general information of the indoor game.

Philippinos, it is agreed, are as keen today as they ever were in regards to baseball. The players have developed into crack moundsmen, backstops, in and outfielders, and while their hitting is weak, compared with American big league standards, they are fast developing their stick work.

### Riley's Poem Forms Basis for Movie Show

James Whitcomb Riley's "An Old Sweetheart of Mine," which is today at the Alkrama Theater, has a particular strong appeal for Elliott Dexter, who plays the leading male, because, he admits, he once tried to enact the part of the poem in real life.

"When I was a little shaver," Mr. Dexter related recently, "there was a little girl who struck my fancy. I liked her and wanted to tell her so, but I couldn't quite bring myself to do it."

"Then, one rainy day when I was browsing among some books at home I came across 'An Old Sweetheart of Mine.' I was captivated. And immediately I had an idea. I memorized it, and the next Friday afternoon when we had to 'speak pieces' at school, mounted the platform with great confidence. I aimed my recitation right at little Mary, who played with her pigtails, and tried to appear nonchalant. But I knew she knew."

### Will Send Warriors Against Strong Teams

Tuscaloosa, Ala., July 30.—University of Alabama will send her crimson clad football warriors on the field of battle in 1923 against seven of the strongest combinations in Southern football. Coach Wallace Wade, directing the football destinies of the Crimson for the first time, is optimistic over the outlook and his assistants express a similar attitude. Coaches Crisp, Van de Graaf and Cohen will assist Wade.

The first of Alabama's major battles will be on October 13 when the Tide will invade the state of New York for a tilt with Syracuse University's mountaineers. On the following week-end, the Sewanee Tiger will face the crimson in their annual battle in Birmingham.

On November 3, the Golden Tornado of Georgia Tech appears for an Atlanta engagement. The complete schedule follows: October 7, Union University at Tuscaloosa, Ala. October 13, Syracuse University at Syracuse, New York. October 27, Sewanee at Birmingham. October — Springfield College at Mobile.

November 3, Georgia Tech at Atlanta. November 10, Kentucky at Tuscaloosa. November 17, Louisiana State University (place pending). November 24, Georgia at Montgomery. November 29, Florida at Birmingham.

## You know the full pleasure of motoring when you use Balanced Gasoline

If all you needed in a gasoline was quick starting—or if you were always just accelerating—or always on a hill or always out in broad open country, it would not be so difficult to produce a gasoline that would exactly meet your needs.

But in driving you are frequently changing pace—starting, accelerating, running idle, starting again, taking a hill, coasting or passing somebody. This need for easily changing pace has been one of the motor designer's great problems—and a problem for the oil refiner.

"Standard", the Balanced Gasoline, does everything that a motor fuel should do—naturally and easily. It is harder to make than a one-sided, unbalanced gasoline, yet it costs you no more. You can get it conveniently anywhere from those red pumps with the S. O. sign.

Made right here in the Carolinas at Charleston. Sold at pumps that bear this mark.
