## SERVICES AT THE CITY'S CHURCHES

### Thanksgiving Day Not to Be Given Over Wholly to Selfish Pleasures and Indulgence, It Is Hoped.

Thanksgiving Day will be observed in Elizabeth City this year by thanksgiving services in the churches either on Wednesday evening or at the 11 o'clock hour on Thursday morning.

The churches holding services Thursday morning are Christ Church, the First Methodist, Cann Memorial Presbyterian and Blackwell Memorial Baptist.

"With the President of our country, the Governor of our State, and the Mayor of our city calling on us, we will observe Thanksgiving as a day of thanksgiving and prayer, it seems that it would be a shame to make it a day given over entirely to pleasure and selfish enjoyment."

"Good Things from Above" will be the text of the Thanksgiving sermon to be preached by Dr. N. H. D. Wilson, pastor of the First Methodist Church.

"The Opulence of Life" will be the subject of Rev. Frank Scattergood, minister at Cann Memorial Presbyterian Church.

Rev. G. F. Hill, rector of Christ Church, and Dr. J. H. Thayer, pastor of Blackwell Memorial, have not announced their texts; but will, of course, speak on the general theme of thanksgiving.

At the churches not holding Thanksgiving Day service, the regular weekly prayer service will be made a service of thanksgiving.

## Malnutrition is By No Means Fad

First Essential in Getting Child Well is Removing Cause of Defects

Malnutrition is not a fad. It is a condition found in children usually of school age which if not corrected tends to produce serious consequences.

The term means badly nourished, and not lack of nourishment, as some suppose. The condition is found in well-to-do families as well as in families of meager circumstances.

Dr. William R. P. Emerson, child specialist, says that at least one-third of the children of school age and pre-school age are underweight or malnourished.

The main system of malnutrition in children is underweight and the chief causes that have been assigned to it are in the order of their importance: (1) physical defects and disease, (2) lack of home control, (3) over-fatigue, (4) improper diet, (5) faulty health habits.

Dr. Emerson says that the first essential of getting a child well of malnutrition is to remove the causes; that is to remove the physical defects, to establish home control, to prevent over-fatigue and the correction of food and health habits.

The nutrition class, which is a feature of the Modern Health Crusade work and which is being conducted in a large number of the schools of this State, has proved to be the most effective means for correcting malnutrition yet found.

The results have been that malnourished children have been made to gain in their usual environment at the rate of from two hundred per cent to eleven hundred per cent of the average rate of gain of a normal child.

For the reason that the child of underweight has less resistance to insidious diseases, particularly to tuberculosis, workers in the field of tuberculosis consider the prevention of this disease at this point probably the most effective means of prevention. By building up the child's weight and by safeguarding his health at other points his resistance is built up not only against tuberculosis but against many other diseases.

The nutrition crusade is featured throughout the United States by the National Tuberculosis Association, Sanatorium, N. C., the expense in both organizations being taken care of by the sale of Tuberculosis Christmas Seals.

## Babe Left Like Moses Only in Broomstraw

Concord, Nov. 28.—A story strikingly similar to that of the infant Moses is being told here today by police officers who tell of finding a tiny baby boy in a pitch of woods in No. 5 township Saturday. The hiding place of this modern child was not so different from that of the ancient babe, for although the deserters of the babe found this morning used broom straw and weeds to hide his resting place instead of bull rushes, they had wrapped him in swaddling clothes and had given him a basket for a crib.

The finding of the babe was reported by members of the family of Edmund Cook, who lives about six miles from Concord, in No. 5 township, on the old Salisbury road. As soon as the child was found the police officers were notified and they secured the boy and brought him to Concord.

The kind Providence that guarded the destiny of this babe must have been the same that watched over Moses, for the fact that the child was alive when found is nothing less than a miracle. Every fact established so far in the case proves almost conclusively that the child has been deserted a few hours after his birth and had lain for hours in the steady hard rain that fell Friday and Friday night. Although half frozen from his horrible exposure, the child was still living when found and so far as can be determined now, he will continue to live.

## STORE BROKEN INTO

Only a few apples so far as could be seen, rewarded the bad, bold robber who entered the grocery store of J. S. Jones Tuesday night by smashing a plate glass window of the store's front.

The robbery was not discovered until Wednesday morning, though the store is in a residence section.

This robbery, though the thief's haul was small, following so closely on the heels of one on South Dyer street last week, leads to the fear that another epidemic of petty robberies of the sort that Elizabeth City has had visited upon it from time to time in the past, may be getting under way, unless police can nip it by speedy work in locating the offender or offenders.
