

They're Busy Men Now

These are the men actually at work planning details of the Democratic National Convention to be held at Madison Square Garden, New York City. Left to right: Kenneth O'Brien, whose father, Morgan O'Brien, is head of the financial committee; Stanley J. Quinn, vice chairman of local executive committee; George F. Mara of Bridgeport, Conn., who is the man who will be largely in the public eye as chief of the committee; and John R. Young, manager convention bureau of Merchants Association.

Live At Home Plan Going To Be Tried

Farmers Write State College Appreciatively Of This Movement

Raleigh, Feb. 6 — Farmers throughout the South seemed to be interested in the "Live at Home" campaign which is conducted annually by the Extension Workers of the State College of North Carolina, according to a number of letters that have been received by the directors of the campaign from persons in various sections of the South. Director Kilgore has just received a letter from a man in Mississippi asking for information regarding how the campaign is conducted. The letter is addressed to the Director of Extension Work at the State College of Agriculture and reads:

"Dear Sir: I was told today that you gentlemen have a written pledge in your 1924 farm-program telling farmers what to try to do this year. Will you please mail me a copy to my address. Heaven knows we need it."

The letter is signed by a citizen of Waynesboro, Miss. He was sent a program by return mail.

The "Live-at-Home" campaign was conducted last year and several thousands of North Carolina's leading farmers signed the pledge. The campaign was responsible in a large measure for the people growing more of their own food and feed-stuff during that year than they had ever done before. The campaign will be conducted this year along the same lines as those of last year, it was said.

Farmers who sign the pledge and attempt to keep faith by complying with at least seven of the ten requests made, will be awarded a Certificate of Honor in 1925. The movement which will start on February 22, will be under the supervision of the Extension Division of the State College of Agriculture.

The ten things that the farmers are asked to agree to do are: Raise enough corn and hay to carry his needs through 1925; raise enough meat supply for his family for this year; to have a spring and fall garden; to provide milk and butter for the family for the entire year; to keep and average of 30 hens on the farm the year round; to improve his orchard this year by setting out peach, apple, cherry, pear, pecan and other trees, and to plant some small fruits and berries; to work for richer lands by planting velvet beans, soy beans or cowpeas in at least half of the corn planted and clover, rye, oats or vetch with half of the other crops; enroll one or more children in club work such as pig, corn, canning, poultry, home economist, add some convenience such as running water, electric lights, washing machines, oil stove etc.; and to beautify the homestead by painting the house, making base plantings of shrubs and to furnish proper setting for the home, flowers, trees and in general improve the place.

WEDDING UPSETS GREAT JACK PICKFORD FILM

Attaches of the Pickford-Fairbanks Studios, Hollywood, will never forget the final days of the filming of Jack Pickford's latest starring vehicle, "Garrison's Finish," which came to the Alkrama today. It all was due to the fact that Marilyn Miller, famous

star of the musical comedy triumph, "Sally," arrived in Los Angeles from New York and became the bride of Jack Pickford during the final "shooting" on this picture. Naturally, the visits of Miss Miller "on the set" were occasions for impromptu receptions in which the workmen entered with as much zeal and enthusiasm as the higher-ups. Few marriages in his theatrical

profession received as much publicity as the Miller-Pickford ceremony and the result was the most decided interest in every quarter. For two or three days prior to the wedding, scores of persons, curiosity bent, crowded around the entrance of the studio grounds just to get brief glimpses of the celebrated young couple. In fact, on the day before the marriage, the crowd grew to such proportions that the police department had to be called upon to assist in maintaining order.

FORD MOTOR COMPANY HAS NEW KIND OF TRUCK

Detroit, February 6 — The Ford Motor Company enters the new year with a new product, an all steel combination truck body and cab mounted on the standard Ford One Ton chassis to be sold as a complete unit. The new body is of the opera express type, so constructed that it may be readily converted into other body combinations by using stakes, side boards, canopy, top, screen sides, and the like.

"In fact," says the Ford statement, "the purpose in producing the new body was to place a low cost general utility truck, meeting both agricultural and commercial requirements at the disposal of ton truck users." The body is built of steel to with-

stand the most severe usage and presents a new development in construction. The steel sills are reinforced with wood in order to lessen vibration and road shocks, thus making for more durability and longer life.

The loading space is seven feet two inches in length by four feet in width and of convenient and practical depth. The end gate is strongly braced and secured by heavy chains which hold it in position when lowered.

The cab, also of steel construction is extra roomy. The seat is of artificial leather, well cushioned on four inch springs. Protection for the weather is afforded by close fitting door curtains, mounted on uprights and opening and closing with the door. An oblong window in the back of the cab gives ample facilities for rear vision, adding to the safety as well as the convenience of the driver.

Jack Baum, who has been spending some time at his home at Poplar Branch, on account of a hurt foot, returned to Elizabeth City to resume his position with the Foreman-Blades Lumber Company Monday, and is getting along nicely.

STOMACH FELT LIKE A WEIGHT

But John C. Beisswanger, of Reading, Says Paw Paw Rid Him of the Pain

"I was home, under the doctor's care, from December 19 to February 18, with severe stomach trouble," writes John C. Beisswanger, 608 Tulpehocken St., Reading, Pa.

"My stomach felt like a heavy weight, which moved as I moved my body. This caused a distressed feeling constantly and, after eating, would cause pain. On February 18, I purchased my first bottle of Munyon's Paw Paw Tonic. Today I can honestly say my stomach is as well as it ever was."

What Munyon's Paw Paw Tonic did for Mr. Beisswanger, it can do for YOU. Try it. It costs only \$1 a bottle at any good drug store. "There's a Munyon's Pill for Every Ill." Munyon's, Scranton, Pa.

Grocer Thankful

"I had been sick nearly 20 years with stomach trouble and was slowly starving to death as everything I ate caused terrible gas and pain and my food did not digest. I was reduced to 115 pounds. A friend advised me to take Mayr's Wonderful Remedy about 4 months ago, which I did and now weigh 151 lbs., and can eat anything. I am very thankful for Mayr's Wonderful Remedy. It removes the catarrhal mucus from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded at all druggists.

Take Salts If Rheumatism is Bothering You

Tells Rheumatism Sufferers to Take Salts to Get Rid of Toxic Acid.

Rheumatism is no respecter of age, sex, color or rank. If not the most dangerous of human afflictions it is one of the most painful. Those subject to rheumatism should eat no sweets for awhile, dress as warmly as possible, avoid any undue exposure and above all, drink lots of pure water.

Rheumatism is caused by uric acid or body waste matter, and is often generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this poison from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate this toxic acid, which keeps accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain, called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is helpful to neutralize acidity, remove waste and stimulate the kidneys, thus helping to rid the blood of these rheumatic poisons.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used with excellent results by thousands of folks who are subject to rheumatism.
