Algonquin, th' little daughter o' Mr. and Mrs. Artie Small, is named after their favorite Pullman car. Ever notice how a lady killer fades after he gets married?

How It Happens

If you take the Greensboro News you may have observed an announcement on the front page of a recent issue that, beginning the week of February 25, the News would present daily a chapter of "The True Story of Woodrow Wilson," a book by David Lawrence of which the George H. Doran Company are the publishers.

The Greensboro News is a mighty good newspaper. We have heard it called the best in North Carolina, and that would mean the best in a number of other states also.

Advance editorials, of course, can't march alongside those of the Greensboro News, and it will be many a day, we fear, before we can make The Advance a newspaper of the general excellence of the News in other respects.

How does it happen that The Advance, alone of the small-town dailies in the State, can obtain features usually seen only in the big city newspapers with a state-wide circulation? That question, which may occur now and then to some of our readers, is one that we hardly know how to answer ourselves in any other way than to say that The Advance was started as a daily on sheer nerve in the first place and has grown largely on the same principle.

Some newspapers are run on the principle of spending no more than they have to in order to get by. The Advance is continually venturing some added expense or equipment to see how far it can go and still be able to meet its growing expenses.

shape our course to a farther and still more difficult goal. Sometimes our progress is painfully slow, but we're Advancing just the same.

Lady Voter Stumbles

A woman reader of The Advance sends us a communication to the effect that she will not vote for Mr. F. P. Latham for Commissioner of Agriculture because she had read in his announcement of his candidacy that he favored "increasing the farmer's revenue."

The Standard Dictionary defines revenue as "the total current income of a government," "income from any form of property," "a return, or a reward."

If Labor can bring Europe to acknowledge the League of Nations and thus restore British prestige on the continent, Labor will win the credit of setting up the first courageous and

effectual government that has directed the affairs of an English speaking people since the World War.

The Advance could not fail to make due acknowledgement of the generous apology in this week's Independent for the dig at The Advance in last week's issue of that newspaper. We do not mean to be over sensitive, and are willing to stand the gaff of friendly chaffing as far as the next fellow—if only our subscribers and we and the public generally may understand that it is not intended as a serious effort to discredit this newspaper.

The only trouble with Hyde is that the folks are Hyde-

Personal Health Service
By WILLIAM BRADY, M. D.
Noted Physician and Author

Signed letters pertaining to personal health and hygiene, not to disease diagnosis or treatment, will be answered by Dr. Brady if a stamped, self addressed envelope is enclosed. Letters should be brief and written in ink. Owing to the large number of letters received, only a few can be answered here.

Treatment of Gallstone Disease

The time to treat gallstone disease or inflammation of the gall-sac is in the stage when it is uncertain whether the symptoms are really due to gall-sac trouble.

The gallstones come high, we don't have to have them. Why are the great majority of cases in women, 90 per cent of them in women who have had children?

Both as prevention and as treatment of a suspected case of gall-sac trouble, the following measures are valuable:
1. A diet containing a minimum of meat and a maximum of fresh fruits.

2. At least three pints of water each day, besides the liquid in or with regular food. One can scarcely drink too much.
3. If constipation is not prevented by the two measures just mentioned, a few doses of paraffin oil (liquid petrolatum, U. S. P.) should be taken each day as an intestinal lubricant, instead of physics.

4. Either walking, room gymnastics, golf, tennis, bicycling or some other form of active exercise should be enjoyed every day, rain or shine. If not enjoyed, then taken. Unfortunately we have not yet perfected a form of exercise suitable for hypodermic administration.

bound. That's why this newspaper hopes a way may be found to establish a ferry across Albarle Sound and give them a chance to get to Elizabeth City.

Now is the time for all good and true Bestcitians to sign up for the Chamber of Commerce.

North Carolina is a great furniture State, a great cotton producing and manufacturing State, and a great good roads State. We hear a great deal about these matters these days, but a thing that it would be profitable for us to give some consideration to is what are the respects in which North Carolina is not a great State?

We are most happy to observe that we had one whole week without a single issue of

less than eight pages.

In view of the fact that local advertising is winning favor as an accurate barometer of business conditions, the increase of Elizabeth City's daily from a four page to an eight page newspaper is a mighty good advertisement for the Old Home

PROBLEMS OF CONDUCT
By Professor Dick Calkins

What's Wrong Here? Study the picture before you read the answer. Answer—A gentleman upon inviting a lady to accompany him to the opera should make it a point to secure good seats for the entertainment, else he and his companion may be obliged to sit where they can neither see nor hear.
