Pomp Marks Wedding of Prince Regent

Cameras were lined before the Tokio palace gates to film the Prince Regent and his bride, the Princess Nagato, following the recent wedding ceremony. Japanese evidently must be afraid of cameramen at close range, hence the distance between cameras and auto.

PRITCHARD WRONG — DECLARES BANKS

"Absolutely wrong" says T. N. Banks, 303 Harney street, referring to the view of H. M. Pritchard and others that a ferry from Newberry's Landing in Tyrrell to Listers Pier in Pasquotank, would be impracticable.

"I have been fishing in the sound off and on for the past fifty years," says Mr. Banks, "and the crossing of the sound between these two points presents no difficulties to the ordinary type of vessel operating in

"About 6 months ago my father was very sick with his stomach, which had been troubling him for several years. Three doctors said he had cancer and one said it was gall stones—all agreed an operation necessary, but on account of his age I was afraid to risk it. I took a friend about it who said his wife had been through the same trouble and had been cured by taking Mayr's Wonderful Remedy. I at once bought a bottle for father and he is now as strong as a bear and can eat more ham and cabbage than any 3 men." It removes the catarrhal mucus from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. "As to the matter of no pier's being able to stand at Listers Point," he says, "I know that one pier has already been built there and it stood for a number of years. In fact some of the piling of this pier are still there."

Take Salts If Stomach Isn't Acting Right

Says Indigestion Results from an Excess of Hydrochloric Acid.

Undigested food delayed in the stomach decays, or rather ferments, the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by Hyperacidity meaning there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten sours in the stomach much like garbage sours in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. Then we feel a heavy, lumpy misery in the chest; we belch up gas; we eructate sour food or have heartburn, flatulence, water-brash or nausea.

He tells us to lay aside all digestive aids and instead get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink it while it is effervescent, and furthermore, to continue this for a week. While relief often follows the first dose, it is important to help neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used for many stomach disorders with excellent results.
