

Chose College Mate For Successor To Daugherty

Coolidge Confounded Wise Ones Who Predicted Attorney General Would Come from Middle West by Picking New England Man and Personal Friend

By DAVID LAWRENCE
(Copyright, 1924, By The Advance)

Washington, April 2.—President Coolidge has decided upon the type of man he wants for Attorney General. Unless present plans go awry, the man will be Harlan Fiske Stone, former dean of the law school of Columbia University, New York City.

The President has had a battle between political expediency and the dictates of his legal training. Knowing that the head of the Department of Justice should be the best available lawyer in the country, Mr. Coolidge has felt that he could not use the prospective appointment as a means of reconciling the two political factions of the Republican party.

The opportunity for an expression of his political friendship for the West will be given when the time comes to select a vice presidential candidate and there is no concealment of the fact that Mr. Coolidge would be highly pleased if Judge William S. Kenyon of Iowa were to be his running mate. The President gave an indication of how he feels toward the former Senator from Iowa when he asked him to be Secretary of the Navy recently.

The argument for the appointment of Kenyon for Attorney General has been strong and there is no doubt that the choice has been made between the Iowa Judge and Dean Stone. But the deciding influence has been legal ability and talent of administration. Some idea of Dean Stone's position in the legal world can be obtained when it is realized that he was recently offered an income of approximately \$125,000 a year if he would join a certain law firm in New York City.

Mr. Coolidge is a lawyer by profession and his investigation of the qualifications of Dean Stone has convinced him that he is one of the most capable men in the legal world. Dean Stone was born in Chesterfield, New Hampshire, 52 years ago. He is a graduate of Amherst College. Mr. Coolidge's alma mater, graduating in 1894 just a year ahead of the President. He has received many degrees since then from other universities and colleges. He became a professor and lecturer on law and finally dean of the law school at Columbia in 1910. He recently was offered an important connection with a law firm in New York, and has been a director in the Charlotte and Atlanta Air Line Railway and numerous other corporations.

Dean Stone resigned from Columbia University and now is on leave of absence. His resignation is to take effect on June 30th next. The question before him is whether he shall accept the lucrative offer made to him by a New York firm or enter the government service as Attorney General at a moment when the eyes of the country are fixed upon the President in his task of naming a successor to Harry M. Daugherty.

Those who are urging Dean Stone to accept insist that he will not lose by serving the Government at this juncture and that as a private lawyer his reputation would be considerably enhanced if he entered the Cabinet now. What Dean Stone's decision will be is at the moment unknown but he represents the type of man Mr. Coolidge wants—a man whom he personally trusts and at the same time stands before the country as one of its ablest lawyers.

INDIANTOWN BRIEFS

Indiantown, April 3 — Mr. and Mrs. R. M. Duncan of South Mills spent the week end with Mr. and Mrs. W. E. Gregory.

Miss Jannie Mercer of Norfolk is visiting Miss Nellie Forbes.

Clayton Forbes and Miss Veronica Williams of Riddle were the guests of Mrs. Pearl Gregory Sunday.

Mr. and Mrs. Vernon Duncan were in Elizabeth City Saturday shopping.

P. P. Gregory motored to Elizabeth City Monday on business.

Mr. and Mrs. W. S. Anderson motored to Elizabeth City Saturday.

which includes many figures of more than State-wide reputation.

There is Josephus Daniels, for instance, the only honorary member of the Raleigh Club, former Secretary of the Navy in President Wilson's Cabinet, and now prominently mentioned for the Democratic presidential nomination. Range along side of him, Frank Page, State Highway Commissioner, whose administration of sixty five million dollars in the building of a State Highway system has been the wonder of many states in its record of efficiency and the additional fact that not a whimper of scandal has assailed his big organization since he laid the ground work for it.

It should not be overlooked that the Raleigh club has three members, two of whom were formerly presidents of North Carolina State College of Agriculture and Engineering, and one of whom is now president. This last is Eugene C. Brooks, former State Superintendent of Public Instruction. The other two are Dr. D. H. Hill, whose present classification is historian, and Dr. W. C. Riddick whose classification is engineer.

E. L. Layfield, general chairman of the Conference Committee, is also a school man who is contributing no little to business efficiency in the conduct of Kings Business College, of Raleigh, of which he is the head. Another notable is U. B. Blalock, general manager of the North Caro-

lina Cotton Growers Association, who has demonstrated the value of co-operative marketing to the cotton farmers of North Carolina.

The farmers of the South are represented again in the Raleigh Club in the person of Dr. Clarence Poe, editor of the Progressive Farmer, a household necessity in thousands of farm homes in Dixie.

T. E. Brown, Director of Vocational Education of the North Carolina State Department of Education, could not be omitted from the list. He has received national recognition for his program of vocational training in the public schools of the State, a work in which North Carolina is leading.

All of these and more are turning aside a short time from their own work to make sure that no detail is left undone for the proper entertainment of Rotary guests in Raleigh.

Mr. and Mrs. Charles Early of Gatesville have returned to their home after a visit to Mrs. Early's sister, Mrs. Robert Taylor on Church street.

GALAXY NOTABLES IN RALEIGH CLUB

And Many Distinguished Raleigh Rotarians Will Add to Enjoyment of District Meet This Week.

Raleigh, April 3.—(Special)—The Raleigh Rotary Club today and tomorrow undertakes for the first time the entertainment of 40 Rotary clubs from North Carolina and Virginia making up the Thirty-Seventh Rotary District of which G. Franklin Lenz, of Newport News, is Governor. It is just another one of the big jobs that the Raleigh Club has shouldered, and from the incessant calls for committee meetings the Raleigh club has gone a long way toward putting it over.

In more than one respect the Raleigh Club, Rotary host, is unique in its membership. Located at the State capital, the center of educational life of the State, and with governmental departments functioning here, the Club has a membership

STUDEBAKER LIGHT-SIX TOURING CAR

\$1045

Mark This Example of what Studebaker alone can do

STUDEBAKER is the world's largest maker of quality cars. Our assets are \$90,000,000. We have \$50,000,000 in model plants.

Our sales have almost trebled in three years, because of our matchless values. Last year, 145,167 people paid \$201,000,000 for Studebaker cars.

Come and learn why

Come and see, before you buy a car, the reasons for this success. See this Light-Six Touring Car, for instance.

Built of the finest steels. Of the very same steels we use in the costliest of our cars. On some we pay makers 15% premium to get just the quality specified.

Built under an engineering department which costs us \$500,000 yearly.

Each car subjected in the building to 32,000 separate inspections.

Same steels, same workmanship as in the costliest Studebaker models.

Two great features

There are many features in this Light-Six found in no rival car. But we want to mention two in particular.

The motor is perfectly balanced. That means long life and freedom from vibration.

The reason is this: We machine all surfaces of our crankshafts and connecting rods by 61 operations. Just as was done in Liberty Airplane

Motors. This is done in no other car at our prices. Then we use more Timken bearings in this car than are used in any competitive car within \$1,500 of our price. And Timken bearings take up wear as no other bearings do.

Why this price?

This Light-Six Touring Car is priced at \$1,045. Built under ordinary conditions such a car would cost you from \$200 to \$400 more.

But we build 150,000 cars per year. We make our own parts. We build our own bodies in \$10,000,000 body plants. We have 12,500 up-to-date machines. Our major costs are divided by enormous output.

The result is a value no other maker even tries to match in a fine car of this size. Come see what it means to you.

Send for the Book

Mail us the coupon below. We will send you free our new book that will inform you on five simple things which reveal the value of a car. For instance—

It will enable you to look at any car and tell whether it's been cheapened to meet a price or offers true quality.

It will tell you why some cars rattle at 20,000 miles and others don't. It shows one single point in a closed car which measures whether you're getting top or medium quality. The book is free. Clip the coupon now.

How It Excels

Steels are identical with the steels in the costliest car we make.

More Timken bearings than in any competitive car within \$1,500 of its price.

Genuine leather cushions, 10 inches deep. Curled hair filling.

All-steel body.

One-piece windshield—rainproof.

Attractive cowl lights.

Quick-action cowl ventilator.

Non-skid cord tires.

Transmission and ignition locks.

Perfect motor balance.

The supreme car of its class.

Send coupon for book about it.

No remedy can cure all ailments of the human body, but an immense number of people suffer from aches, pains and distress symptoms when their real trouble is lack of iron in the blood. It is the iron in your blood that enables you to get the nourishment out of your food. Without iron your food merely passes through you without doing you any good; you don't get the strength out of it. There is one universally known tonic that has helped thousands because it contains iron like the iron in fish vegetables and like the iron in your blood.

NUXATED IRON

is an eminent physician's best blood prescription, standardized. It is recommended for all anemic and run-down conditions. It has helped thousands of others. It should help you. Ask for it at any drug store.
