

# This is the House the Ads Build

Just a few minutes of your time—and an opportunity to win one of the three prizes offered in the upper right corner. In each of the 12 individual ads below are units of the "House the Ads Build." Pieced together properly they make the completed house, an outline of which is shown at the right, and over which we suggest you paste the 12 units. It's simple as A, B, C. Try it yourself, and put the children at work. Accuracy will be the first consideration, and then neatness.

## LIST OF PRIZES

- 1st Prize — \$5.00
- 2nd Prize — \$3.00
- 3rd Prize — \$1.00
