16 A PERMANENT WAVE EVER WEEK

The Greensboro News has editorially remarked more than once that the President is a member of no church. In the News' right or due-out recognition play the very distinct and definite impression that the President has become a church member since he became an occupant of the White House?

“Pole rather drive,” said Mrs. Tipton But this morning, as she refused a front seat an’ climbed in behind. Tell Binkley is a regular soak. He started I drink for consumption an’ it made a hit with him.

The Advance hopes that the Amherst is well represented in the farmers convention at State College this week.

Now that we’ve got the Chamber of Commerce on its feet, let’s see that it doesn’t get off them any more.

Nobody in these parts, we imagine, will object if King Cotton, who has been doing some tall jumping of late, breaks the altitude record.

There’s at least one point in which we are like the Chicago public: we are willing to leave the fate of Leopold and Loeb in Judge Caverly’s hands.

The big league ball player who yearns for the bushes is but another example of a preference to be the biggest fish in a small pond rather than just an ordinary fish in a great lake.

Opportunity is not supposed to be particularly persistent, but the opportunity to join the Chamber of Commerce is still knocking at the door of any one who has not yet come across or signed up.

Day by day in every way the new press seems to work slicker.

and slicker. Again we invite our friends to come in and see it run and again we remind them that press hours are 11:30, 2:15 and 3:30.

It has always been high or low importance to compare each issue of The Advance with that of the same date a year ago. But the competition has never been so steadily encroaching as now.

The Advance naturally feels that it can do enough for the community that has made such progress possible.

Among those who have come in to see the new press run this week have been some of the youngsters, now for the most part grown to the full stature of manhood, who were carriers when the first issue of The Daily Advance, a two page 8 by 11 sheet, was distributed in the city. We hope they got some measure of the thrill that came to us when we saw the first copy come off the new Duplex.

Even if wealth is a burden, let it be more so.

Progress seems to consist of finding new things to worry about.

It once took nine tailors to make a gentleman, but now it takes nine months to pay one tailor off.

Autos and men are alike in that both go faster down hill.

A red nose is no longer a sign of drink. He may have a girl who uses too much rouge.

There’s nothing new under the sun, but a lot of strange things are happening under the moon.

The peanut crop is good, so maybe we won’t have to shell out so much for them.

A June bride tells me she stays broke because her husband gets up host.
