SATURDAY, SEPT. 13, 1924.

We wonder if there's the same respect for grey tompees as there is for a real crop? Ninety nine times out of a hundred the fellow who cries fraud is licked.

Among the cities observing Defense Day was Elizabeth City not.

Mighty glad to see a fine young chap like William McKinley settling down in the Old Home Town.

The Wills-Firpo match may have been a sorry fight, but Bobbie Small made it not him a good story.

The first word from David Lawrence on the political outlook is not exactly what we'd call cheering to the Democrats.

Well, please goes to the Senate and the country soon will know whether his seeming change of heart is sham or whether the man has really got religion.

That cartoon depicting Fighting Bob LaFollette as hiding under the bed while Roosevelt's essay to lead the progressive hosts of the country in 1912 is what we'd call a palpable hit.

Ten years ago Poplar Branch and South Mills were the only rural high schools in all Pasquotank and the counties to the north of it. Today there are Moyock, Shiloh, Weeksville and Newland to answer the roll call.

The Advance has for publication a statement from Senator P. H. Williams on the State port and terminals question for which we hope to find space the first of next week. The Advance is anxious to give its readers both sides of this as of any other question before the people.

"I read other newspapers for particular features only. To keep up with the general news I depend entirely on The Advance." The foregoing are among the kind words reaching us of late for which we are duly appreciative. When we get to eight pages again The Advance will be big enough but not too big.

DANCING IS TOO MUCH LIKE WORK.', 'JUST THINK OF WEARING ALL THEM THICK COWBOY SUITS AND PLUG HATS AND 'K LICK -', 'POOHEY!', 'BAH! IMAGINE HAVING A LOT OF SILLY FEMALES CHASIN' YOU ALL THE TIME!', 'FAWNCY! HOBNOBBING WITH THE HOI POLLOIN! THAT MANNNAH.', 'NOW! Notebook Of An Elizabeth City Bachelor. It's a wonder that a man isn't downright brutal to a girl like IRENE. I mean to say that IRENE is the sort of girl who gives a fellow cause at least a dozen times every evening to turn to her and say: "My dear child, how would you like to mind your own business for a change?" Do you happen to know a girl like that? Yes, I'll do you do, for this town is full of 'em. They want to know how much salary you get, why you wear green neckties, if your sister has ever been engaged, if you expect to go to the seashore or to the mountains next summer, and if you have paid the last installment on the car. It must have been a girl who invented the Spanish Inquisition. Talk about torture! Isn't a girl like that just built to make a man embark for the South Seas or the North Pole? I'll say so. A girl who has promised to love, honor and obey, (laughter!) has a right to know some things, but holy mackerel, there's a limit to the pale of decency and self-respect, hey, boys? -Tomorrow- Dora the Dizzy. Do You Teach the Youngsters to Face the Facts?

School bells ringing for the new term call tomorrow's men and women—the leaders and workers of a few years hence. Billions could not equal the wealth of this nation in its boys and girls. Added billions could not pay what school days will be worth to them.

Train them to meet each test as best they can, to cheer the comrade who passes them while each does the best he can. Teach them, too, that thrift and a knowledge of how to save are big stepping-stones to success.
