If, as suggested, Dawes' failure to line up with the great mass of Americans as a "lodge member" was due to his alleged aversion to keeping accrets rather than his retinctance to taking an eath then. Coolidge's non-participation may be explained by the reverse formula: that while Coolidge could keep all the secrets—that is oney, the best things Cal does—he soesn't like to swear to do so. The eath of office is declared to be the only cash ever indulged in by the president.
