Miss Minnie Albertson Teaches a Happy Variety of Interesting Things to Classes of Children and of Teachers in Her New Studio on Church St.

One of the prettiest little spots to be found in town is the studio of Miss Minnie Albertson who is this season teaching classes of drawing for children and for public school teachers at her home on West Church street.

Miss Albertson this summer took a special art course at the summer school at Chapel Hill and when she came home went about fitting up her studio. She had taught before, from time to time, but this summer with the many delightful new things learned, she gained a new enthusiasm which simply had to express itself. The studio is the delightful result.

It was made, of course, as all studios properly are, from a part of the attic. There are casement windows, and creamy walls, with draperies in rich brown tones; there are pictures, and tables and chairs, and all sorts of pleasant things that go to make the right sort of atmosphere for a studio.

Miss Albertson has some very attractive designs for wall papers and fabrics which she made at the summer school, as well as other drawings and some striking posters in cut paper work. Besides the unmistakable evidence of talent, there is in addition fine workmanship in all that she does.

When Miss Albertson is not teaching or doing some of the many tasks for which she is called upon by her community and church, she works at the interesting feat of restoring old painted furniture or in decorating furniture after the fashion of the old painted variety that was such a delight to the eye. Some of this work is to be seen in her studio, and altogether, this little room high up in the trees is such a joy that the visitor fortunate enough to gain entrance is altogether loath to leave.

Miss Minnie is the home staying person of this trio of sisters, the Misses Albertson. She keeps the home fires burning while Miss Marie is going over Pasquotank County day after day on her job as Home Demonstration Agent, and Miss Catherine is going over North Carolina as Field Secretary of the State Parent-Teachers Association with her headquarters at the Greensboro College for Women.

Living together in the very attractive home which they planned and built several years ago and which they have continued to beautify and make more home-like each year, it is always a pleasure to talk to them individually or

together, and their friends have a habit of disputing whether Miss Minnie, Miss Marie, or Miss Catherine is the most capable. The question will probably never be settled, for Miss Catherine's interest in literature, schools, and in Parent-Teacher work, while Miss Marie's turn is toward home-making in all its phases and her heart is wrapped up in her work as Home Demonstration Agent of Pasquotank County. Miss Minnie, besides her talent for art, is an exceptionally fine Bible student and church worker, as well as a good housekeeper. Besides these specialties, they each have tastes in common that make them entirely congenial, and they are so devoted to each other that they are always in honor preferring one another, and each one, effacing self completely, is glad to tell you of the fine qualities of the other two.

## Mrs. Housewife! Do You Favor Food Law Enforcement?

You appreciate the vital importance of pure and fresh drugs—drugs that are prepared and packed under fixed government regulations.

How about foods? Aren't they just as important? Take baking powder, for instance—it is useful only when it produces its maximum of leavening strength in the breadstuffs—bakings that are easily digested, which in strength means flat and soggy bakings which are surely indigestible.

The pure food laws of our country have standardized baking powder—they require that it contain 12% leavening gas at the time of sale to the consumer. Why is it that these laws have not been applied to baking powder mixed with flour, and sold in cakes as self rising flour?

Thousands of barrels of self rising flour are annually sold in our southern states without any regulation by pure food measures, except in Texas.

Any grade of flour and any quality or strength of baking powder can be used in making self rising flour and sold to the unthinking public without official criticism.

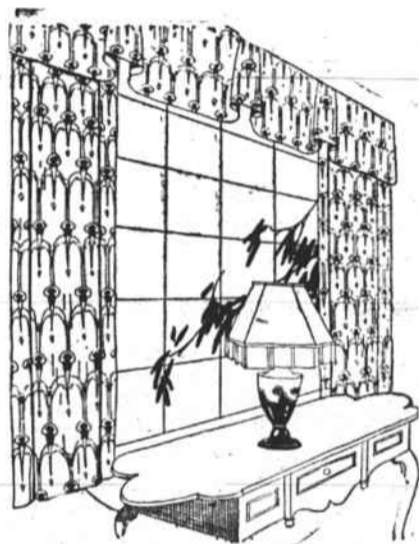

Numerous baking and laboratory experiments have been conducted by state chemists and other investigators. They found a surprising amount of this self rising flour to be so deteriorated as to be productive only of heavy, soggy bakings.

Do you want to eat foods made from self rising flours that do not contain the necessary leavening strength? Do you want the law to protect you in this instance as it protects the user of medicine? It is for you and others interested in public health to decide.

Remember Calumet Baking Powder meets every requirement of the law—that it retains its great leavening strength to the last spoonful.

Packed in tin—keeps the strength in.

## Men! Don't Come Home Fagged Out by Hard Work

Doctors say that in an enormous number of cases when men come home physically and mentally "all in," nervous and cranky, the real cause is not hard work, but thin, pale, watery blood, deficient in strength-giving iron. Once this iron is restored to the blood it is often astonishing how quickly these men gain new strength, nerve force and endurance.

But be sure the iron you take is organic iron—Nuxated Iron—and not the old-fashioned Heild medicines and pills made by the action of powerful acids on ordinary mineral iron. Nuxated Iron is a natural organic iron, like the iron in your own blood, and like that in spinach and lentils. Does not injure teeth or disturb the stomach. So remarkable are the effects of Nuxated Iron that thousands of weak, nervous, fagged out men and women have often increased their strength, energy, and endurance in only two weeks' time.

Try Nuxated Iron just two weeks—Money-back-if-not-delighted. But we are certain you get genuine guaranteed Nuxated iron tablets with the letters N I on every tablet. At all good druggists.
