CAMDEN WOMEN STUDY SCHOOLS

Determined to be Well Informed and An Asset to the Community

Camden, April 24.—The Camden Woman's Club studied "Public School Laws" at the meeting held Wednesday afternoon.

The duties of the county board of education and the county superintendent of public instruction were especially stressed.

"If we are to remain in ignorance of our school government," said the leader, "some one else will become a liability to our community; but if we work for the public welfare, we will become an asset to our community."

"The first thing for us to do is to begin to study our school officers and the government of the schools."

A letter was read from Dr. Husman thanking the club for its cooperation in the movement to eradicate tuberculosis in cattle. It is believed that the Camden County commissioners will set aside \$300 for this work at their May meeting.

MOMMY POP
The Blow Up By TAYLOR

Now you Matilda, be sensible—I only meant to get Mom away from home for a little trip—I had no idea that you would object to doing the housework while she was away.

The doctor gave me strict orders not to attempt housework and then you put me in a position where I must disobey his orders and run the risk of having a serious relapse.

I'm awfully sorry Cousin Matilda—I didn't.

Sorry nothing—it was a put up job between you—but you can't impose on me and break down my health—I'm leaving your house at once and forever.

Now I'm in a nice mess—here I'd planned to stay for a three months visit—now I'll have to "take water"—the only thing I can do is to have a relapse.
