

THE FAMILY SCHOOL.

We beg leave to invite the attention of our readers to the school, at Littleton Depot, of which Mr. J. D. Hooten has now become principal.

THE JEFFERSONIAN.

We learn that the Mecklenburg Jeffersonian, printed at Charlotte in this State, has been discontinued.

BAD POLICY.

We have often spoken of the manner in which the complaints of South Carolina are treated, by the application of insulting epithets, and the use of language calculated to irritate, and excite still more the already too much excited people of our sister State.

To say nothing of the injustice or unkindness of such a course, we would draw the attention of Whig Editors to its bad policy. A Union party can never be built up in the Southern States under this noxious influence.

At the present time, especially, is it bad policy to irritate the complainants, because there is evidently a disposition among them to pause, and ponder the affairs of the present crisis.

Abuse and insult from the free States has become a matter of habit. When this is confined to the mean and degraded wretches who lead in abolition societies and others of a like disorganizing character, there is nothing that requires a more important feeling than that of contempt from the South.

To the north, to the north, are the eyes of all reflecting men directed, where alone exists the power of justification, from whence alone can arise the appliances that may still the raging of the political waters.

We like the language of our friend HOLDEN of the Standard, on this point. In his paper of Saturday last he says:

And now what is the remedy? What will save this Union? Let the people of those States whose Legislatures have passed laws in palpable violation of the Constitution so far as fugitive slaves are concerned, rise up in a spirit of justice and conciliation, convene their Legislatures, and direct them at once to repeal these laws; and let the people of all the free States see to it by their personal presence and exertions, that the fugitive slave law is fairly and honestly enforced, without the aid of Federal bayonets.

FROM HAVANA.

The Isabel arrived at Charleston on Sunday last, which port she left on Thursday evening last, and arrived at Key West on the following morning.

SECRETARY OF THE NAVY.

Mr. GRAHAM, who always speaks well, has made several first rate speeches during his late trip to the north. We copy a short extract from his speech at Syracuse:

Fellow-citizens, I rejoice to find that the deep seated affection for the Union of the States is bounded by no limits, North or South; and that, wherever we are, there is that loyalty and devotion to the Government which characterizes our people in an eminent degree.

The Secretary gives the following lively and pertinent hit at those politicians whose chief merits lie in their own self-esteem:

There are men who entertain the opinion that if they had been consulted at the creation, they would have made a vastly better world than this now is. For my part this is a good enough world.

FROM CALIFORNIA.

We published an account of the arrival of the Georgia, from San Francisco, at New Orleans, in the Commercial of Saturday last. We have since received the Bulletin and Delta, containing a variety of items, none of which are of very special interest.

Accounts from the mines have been of a mixed character. The recent abundant rains have been of immense service to those who threw up dirt from the beds and sides of dry creeks, last fall and winter.

Much suffering has been experienced very lately in the more northern mines, occasioned by the great fall of snow and the scarcity of, and the difficulty of obtaining supplies of provisions.

The papers have several accounts of murders, some of them unprovoked; with riots, assaults, &c. There is no doubt but the state of society in California is most deplorable.

The festival on the 4th of May had not met with much enthusiasm in the provinces. Great indifference was manifested to the display made by the Mayors and Prefets.

GERMANY.

Count Bille Brabe has been appointed to the presidency of the Schleswig Holstein and Denmark Assembly.

AUSTRIA.

The English government has signified its intention to regard the admission of all the Austrian Provinces into the Germanic Confederation as a German question, provided the other German governments consent. This is regarded as tantamount to a withdrawal of the English protest.

PRUSSIA.

The journey to Poland of the King of Prussia is definitely fixed. He will enter Warsaw on the 15th instant.

GREECE.

Athens journals contain nothing in the shape of political news. Brigands had assembled in considerable numbers in the different provinces. In Arcadia a band of fifty men had given battle to an armed force, and the Mayor and five frontier guards were killed.

Sir Henry Smith had been compelled to fall back upon King Williamstown, his force being inadequate to undertake anything like a comprehensive military scheme. The defeat of the Kafirs by Col. Somerset only incited the various tribes to fresh hostilities.

Note Addressed to the English, Americans, French and Sardinian Ambassadors at Constantinople.

The following document has been transmitted to the London Daily news by a highly respectable gentleman, who vouches for its authenticity.

We fulfill a sacred duty in bringing under your notice a recital of facts which demanded the attention of your Excellency.

For some time rumors of poisoning have been spread in several towns of the Ottoman Empire. Mention has even been made of an innumerable number of deaths, which are said to have taken place in Smyrna and Ismith.

On the 27th of March two highly respectable men, one of them a merchant, the other a Dravish, died after eating sugared kaimak; the sugar and the remains of the kaimak were found mixed with arsenic.

Are those misfortunes occasioned by the carelessness of the merchants, who sell indifferently to every purchaser sugar, pepper, arsenic salt, opium, and coffee using the same spoon and scales for each article? The population of Kuthahia declare that everything is poisoned—that the public safety is compromised—that it is a maneuver of secret enemies.

The Government Agents have closed all the retail shops. We applauded these precautions and the measures taken—but these are sad truths for us. We are obliged to tremble every instant for the lives of our brothers.

We trust that your Excellency will intervene with the Government of the Sublime Porte, in order to put an end to a state of things so full of danger to our brethren.

From the New York Observer. A VOICE FROM A MISSIONARY. A Clergyman in the Southwest writes to us as a postscript to a business letter.

Please say to the Abolitionists at the North, and those who advise the fugitive slaves to resist, that, in the opinion of one who has been a missionary for more than fifteen years in the State of Mississippi, one-half of my time being devoted to the instruction of the colored people, they are

doing more to perpetuate slavery, and more damage to the slaves at the South, than all the world beside, and that I do regard them as the worst enemies the slave has upon earth. Will they think of this?"

COMMERCIAL.

REMARKS ON MARKET. TURPENTINE.—Since Tuesday morning last, some 5 to 600 barrels of Turpentine have been disposed of at \$24 per bbl. for Yellow Dip, \$1.90 per bbl. for Hard, and \$2.80 per bbl. for Virgin.

ROBIN.—31 offered for No. 1. No. 3, last sales 95 cts. per bbl. TAR.—None in market, that we are apprised of.

NEW YORK MONEY MARKET. May 26.—The market without being depressed, is very dull. There is less disposition to loan money where there seems to be any connection with speculations in cotton, but for all other securities there is a fair demand.

NORTHERN MARKETS. The foreign news has unsettled the northern markets, especially for Cotton—no operations worthy of reporting.

THE MARKETS PER STEAMER BALTIC. Liverpool, May 14. Cotton.—Since the sailing of the last steamer Cotton has declined from 3 1/2 to 4d per lb. The sales yesterday were 3,000 bales.

THE MARKETS PER STEAMER CANADA. Liverpool Cotton Market.—On the 16th the demand being large and the quantity offered reduced, prices recovered 1/4 to 1/2d per lb. The lowest point of depression is probably past and business will doubtless resume its regular course.
