July 19. SUPERIOR SODA WATER, A. C. EVANS & BROTHER'S THE DOMNICIAN REPUBLIC.

A writer in the New York Journal of Commerce furnishes the following interesting and important information; is relation to the Republic of St. Domingo in the Island of Ha, ti.

The island of St. Domingo formerly be langed, the eastern part to Spain, the western part to France. Under a low system of mornility, a considerable population of free people of color had sprung up in the Franch part of the Island, when the Franch revolution began. One of the early results of that revolution, was the decree of the Constituent Assembly of France, of the 15 of May 1791, declaring that men of mixed color, of all shades, born of free persons, should be admissible in the Colonial assemblies. This admission of free persons of color to a political equality with themselves, was resisted by the white inhabitants, who, rather than submit thereto, made proposale is Sir Adam Williamson, the Governor of Jamaica, to place the Island, or rather the French part of it, under British protection. Their propositions wer: accepted, and a British force sunt to occupy the post of Jeregi and St. Nichelian Mole. Shanthonax, the French Commissioner alarmed at the prospect of the colony fating into the hands of Great Britain, proclaimed the general emancipation of all the slaves. This was followed by a condition of the free people with the blacks to murder and drive out the white. The atrocities commissioners are supposed in the prospect of the colony fating into the hands of Great Britain. the tree people with the blacks to murder and drive out the whites. The atrocities committed on tottering age, helpless infancy, and feeble womanhood, have given to the Island a

terrible interest. The people of color, who united with and encouraged the blacks in these atrocities have since met with their merited punishment, in the oppression, banishment, and massacre of which they have in turn become the victime. It is a great error, into which many have fallen, to suppose that the inhabitants of the eastern or Spanish part of the Island, had any part in those seemes of vice and crime.

any part in those scenes of vice and crime, and which have rendered infamous the very name of that beautiful Island. These excesses were confined entirely to the French part. The Spanish part of the Island re-mained undisturbed, and until 1812, in quiet submission to Spain, of whose colonies it was in climate, soil, and mineral productions per-haps the most valuable, though most neglec-ted. Overlooked and neglected by the cabi-In offering to the community this justly celebra ted remedy for diseases of the throat and lungs, it is not our wish to trifle with the lives or health of the afflicted, but frankly to be y before them the opinions of distinguished men and some of the evidences of its success, from which they can judge for them Republic was at that/time too much engaged in the organization of its own government and affairs at home to attend to the applica-

tion of the Domnicians. Spain enunged with her other colonies, left the Dominician revolutionists to themselves. Boyer, then President of Hayti, took possession of the country. The Domnicians few in number and unprepared for resistance, were compelled to submit, and found that they exchanges the neglect and the restrictive commercia policy of Spain for the far more oppressive tyranny of the blacks. Under this yoke they suffered till 1843. In that year driven by desperation, a few persons, not over a hundred, rose in the night ond took possession of the principal gates of the city of St. Domingo. By the influence of some of the foreign residents whose sympathics were with them, and who went between them and the Haytien garrison in the citadel, exaggerating their number and strength, the garrison was induced to surrender before morning came to disclose the weakness of the movement. As fast as the unexpected news spread through the country, the Domnicians flocked to the standard of independence, drove out the Haytiens, and established a republican form of government. policy of Spain for the far

government,
The Domnician Republic contains from 150,000 to 200,000 souls. The Haytiens number from 800,000 to 1,000,000. The Janumber from 800,000 to 1,000,000. The latter admit no white person to hold any real estate, or enjoy any of the privileges of a citizen. The former is essentially a white government, with about the same intermixture of other blood as in the Spanish Main and Brazil. The government always has been and still is in the hands of the whites. The immigration of blacks is prohibited, and white colonists assulpyited by grants of lards, the government paying their expenses and subsistence till established in their new homes. The Domnicians have made repeated applications to the United States to interfere to put an end to the invasions of the blacks Learning that each an application had, beginned, the English to anticipate the tardy action of our slawer moving Governments suspicious, of the negrophily of England, here
