THE DEMOCRATIC NOMINEES. We learn that Gen. Pierce, the democratic nomi-Baltimore Convention, received the achat event with supreme astonishment. eight to be astonished—everybody else y should be not participate in the emo-

while it is going the rounds. see from this time forth is a very great alifical wand from the brain setts and significances recei, merital and significances is stars that there is a process of ed uses of study and experience. The tions of the Roman Senate were only picaared to the modern process of inpress to the political circulating medium. In those days, men had to do something nce before they were placed among the gods. But in these days of progression, the decree goes forth, 'we say he is a god'-and don't question us about the material—any man is en-titled to rank as chiefest among the chiefs, who, is baptized with the expressed juice of democratic wisdom, brought out by six days' grinding and forty-nine turnings of the political screws. Fall down and worship, all ye faithful of the unterrified, or be east into the Den of execration, where you shall be well scratched for your desertion and

But we suppose it is none of our business if the Democrats choose to adopt a rule, by which the will of the people can always be defeated by a fac-tion. This contempt of the public voice took slace at the Convention which nominated Polk, and is now more palpably expressed in that of Pierce. If this is the way to manage party matters, it is not the mode in which the honor of the nity and the glory of the American name are be promoted and perpetuated,

As if to act out the sentiment of contempt for nts and services, expressed in the first noming, is put second to Pierceornament to the country and an rty. In these remarks we say, with ligence, we do not wish to "distleman who became the ntion for the first office." No, considerate to take from the can afford to spare some, quires his all to keep him ce the N. Y. WALOW ON CONGRESS.

cen anggested that the different de-light Christians pray for a revival of re-Mr. Brownlow, notorious for makes the following remarks: of the Recorder had been as much on as we have, when Congress was he would as soon think of sending a to Hell, to convert the Devil's Housebut few exceptions, "Old Master' has of Congress to hardness e has left them to their idols, the eight WHIGS ON SCOTT.

The Carolina Watchman says not a few Whige n that section have declared, that if the Whig Convention shall nominate Scott, or failing to nominate Fillmore, select any one else, Welster alone excepted, they will either not vote at all or vote the Democratic Ticket. That is the way the Whigs talk about here, also. But the Watchman thinks that the people of the South are reasonable men, and though a little given to ebullitions of passion, soon sober down and pursue the right

way. In fine, the Editor thinks they will vote for the Nominee of the Convention, let him be Scott, or any one else, provided he is "free from objections." This is very reasonable, certainlybut the freedom from objections is the most diffioult point to overcome.

IMPROVEMENT OF THE YADKIN. At a public meeting held in Greensboro', on the 21st of last month, the following, among other resolutions, was adopted:

Resolved, That the people of Guilford have witnessed with pleasure the efforts that are now be-ing made to render the Yadkin River navigable; and that they regard the enterprise as one that is well calculated to develope the resources of one of the most fertile and productive regions of North Carolina, and in connection with the Central Raild, to which it will be an important feeder, to open a chesp and speedy outlet to the markets of the world for the productions of that interesting

\* ROWDYISM.

We gave an account of rowdylsm in New York on Tuesday, and we have now to record something like it New Orleans. In the latter place the outrages are not so great as in the former city, where they amount to ruffianism. Speaking of the new Police the Delta of the 2d inst says: "From the rowdyism at the theatres and on the streets, night before last, we should think they would have a a plenty to do in the very commencement of their term. Decent people cannot safely walk our most public streets. Ladies on the streets, returning from church, concerts, or theatre, are continually annoyed by the impertinences, and vulgar and indecent semarks, in a loud tone, of certain young broadcloth rowdies, who hang about our corners and infest all public resorts."

The same paper complains that the Police make these rowdies their boon companions, but now and then pounce upon some poor ragged vagrant of less dangerous character.

We hope our New Orleans friends will reform the abuses before they assume a still more revolting form, as in northern towns. We look for better things in southern cities.

OFFICER DROWNED.

The San Francisco papers record the death, by lrowning, of Dr. E. J. Rutter, of the U. S. Navy. It appears he was ascending the side of the U.S. ship Vincennes, in that harbor, and missing his foothold, fell into the water, and before he could be rescued was drowned. Dr. Rutter was thirtytwo years of age, and was about to return home to rejoin his wife and family, after an absence of of two years and a half.

STEAMER DOUGLASS.

We paid a visit to this new Steamer, just put en thousand seven hundred and thirty francs. on the trade of the River by John Banks & BRO-THER. She is a fine looking craft, measures 97 tons, 116 feet long, 21 feet wide, and 5 feet deep, es, and the bitterest parti- with an engine of about 30 horse power. She is gis as President of the Council. y considers that this of very light draught and with 150 bbls on board will draw 21 inches, has a sharp stern, and looks and is, a quick boat. . the is a credit to the trade, n that that party ever was or and we wish the enterprising brothers much suc-

Gen. Pierce's Nomination-Public Receptions Declined.

Boston, June 6. Col. Barnes, late United States Marshal, a personal friend of Gen. Pierce, on hearing of his nomination, at once started with the tidings, and met the General at Cambridge. He manifested great surprise, and intimated that he thought it might be a hoax. About a hundred personal and political friends called at the Tremont, and congratulated the General during the evening; but there was no public demonstration, and in order not to be molested, the General gave all hands the slip by quietly taking up his quarters at Cambridge. For the present he declines meeting his fellow-citizens publicly. He has also declined a public reception at Concord, N. H., tendered him in a telegraphic despatch received to-day. Mrs. Pierce is with him, and in delicate health. He goes to Northampton on her account, where he will remain a few days.

and Excitement-100 Guns Fired.

New ORLEANS, June 7.
The news of the nomination of Franklin Pierce, for President, and Wm. R. King, for Vice President, by the National Democratic Convention, was received here on Saturday, by telegraph, and full proceedings of the Convention published in Sunday's Picayune.

The nominations have been well received by the democracy, and gave rise to much excitement and great rejoicings. A salute of one hundred guns has been fired in Jackson Square, in honor of the nominations.

The intelligence was also received in Mobile Montgomery, and other places, where similar demonstrations were made. All seem to respond with good cheer to the nominations.

AN UNGRATEFUL SON. The Trustces of the Alms-house of Portage county, Ohio, recently asked the Legislature of that State to pass a law to compel children, who are able, to take care of their helpless parents .-The request was made in consequence of an unnatural son, worth \$30,000, driving his mother out of the house, and sending his father, whose head was whitened with the snows of 91 years, to the Alms-house, to be supported at the public

At the sale of Marshal Soult's pictures, at Paris, the 'Conception of the Virgin," by Murillo, was bought for the Louvre; for \$117,000. Others by the same master, brought as high as \$30,000,-Agents for the Queen of Spain and the Emperor of Russia, were among the bidders.

IVAL OF THE

#### STEAMER HERMANN.

4 PAYS LATER FROM EUROPE. Kossulh's Mother and Pumily coming to America-English Politics-France Snubbed by the Austrian and Russian Emperors-Restrictions of the

Northern Powers upon Napoleon-Advance in

Cotton and Breadsluffs, de. de. New York, June 6.-The steamer Hermann with Bremen dates of the 21st, and Southampton of the 20th ult., has arrived. She brings 130 passengers, among whom are Madame Alboni and suite. The Niagara arrived out on the 24th ult.

ENGLAND. A company, with a capital of two millions five hundred thousands pounds, has been started at London, to establish a line of steamers between the Thames and New York, touching at Cork for

passengers. The mercantile firm of Sinclair & Boyd, at Belfast, had stopped payment. Their liabilities ex-

ceed \$120,000. Kossuth's mother and family had arrived in

London and would shortly leave for America. A new Austrian loan £2,250,000 bearing 5 per cent, interest, had been re-issued in London by the Rothschilds.

The principal feature of the political news is the address of Lord John Russell to the electors of the city of London. He announces himself a candidate for the city at the approaching election, which refutes his rumored appointment to the peerage. His address reviews the career of the late ministry, and bids high for popularity and

The liberal candidate has been returned from Windsor by a large majority.

The new Crystal Palace project excites great in terest, and double the number of shares required have been applid for.

FRANCE.

The mission of M. de Heckern to the Emperor of Austria and Russia has proved a complete failure-both of them having refused him audience. Accounts frem Paris chiefly relate to the speculations concerning a coalition formed against Napoleon by the Northern powers during the recent visit of the Czar. A correspondent of the London Times sends the substance of notes drawn up by the northern powers, who do not object to Napoleon becoming an elective Emperor, but announce their determination to resist any attempt on his part to found and perpetuate an imperial dynasty. In the event of Napoleon's becoming an elective | die. Emperor, the Northern powers would demand his assurance to observe existing treaties, to keep within the present territorial limits of France, and to explain the political doctrines of his Government. They profess to look upon Napoleon only as the temporary and provisional ruler, and recognise the House of Bourbon as the legitimate

sioned great chagrin to the Ronapartists. The sale of Marshal Soult's pictures has been concluded. The total proceeds of the sale amounted to one million four hundred and seventy-sev-

that the Government was about to revise the tariff, so far as relates to the duties upon articles of import,

ANOTHER "EILIBUSTER" EXCITEMENT. The New York Sun has again been seized with the "filibuster" fever, and its issue of Saturday contains what purports to be exciting news from Havana, announcing the expectation of another invasion and the arrest of fourteen young men on suspicion of being concerned in a revolutionary movement. The same steamer, however, which brought the Sun's news, also brought a letter to the Journal of Commerce, cautioning the public against statements manufactured at Havana and sent to New York to excite sympathy. The young men who were arrested, it is said, are relatives of some of those who were shot at Puerto Principe, during the late rebellion, and through revenge have been committing acts which induced the authorities to arrest them. Gen. Canedo, it is alleged, does not expect another invasion; but in case there should be, he has issued orders to give no quarter and to immediately punish all who harbor or aid the invaders. All citizens of 16 News of the Nomination-Great Rejoicings | years and upwards are ordered to be ready, on the instant, to repel invasion; and to burn any hamlet, village or dwelling which may impede the progress of the troops .- Baltimore Sun.

### DESTRUCTIVE HURRICANE.

A violent hurricane passed over a portion of Camden county, Mo., on the 13th ult., prostrating houses, fences, trees, &c The dwelling house, grist mill and carding machine of Mr. Thos. R. Lane, were all blown down, and the carding machine was carried to the distance of fifty yards. A wheat fan upon the premises was torn into small at the time, but all escaped. Passing on, the dwelling bonses of Fielding Clark, Edward Young, William Winds and John Hobbs, were destroyed; and upon Mr. Young's premises a large wagon was completely torn into pieces. Mr. Hobbs was seriously, though not dangerously, injured.

RAIL ROAD ACCIDENT.

A portion of the extra train from New York vas thrown off the track near Bordentown, on Friday, by which Mrs. Purdy of Hightstown, had her arm broken; Mr. Field, of Trenton, had his face considerably bruised, and several other passengers were more or less injured. It was a miracle that no lives were lost.

Joseph Stacey, the proprietor of Stacey's Hotel. at Zanesville, was killed on the 2d instant, by the cars running off the track, near Mount Vernon, Ohio. D. Derrick, the engineer, was also injured.

FIRE IN MONTREAL The city of Montreal is reported to have been nearly destroyed by fire a few days ago. The loss is estimated at one million of dollars.

SAILING OF EIGHT OCEAN STEAMERS.

New York, June 5. The steamship Humboldt sailed for Havre today, with 119 passengers and \$641,433 in specie. The Great Britain sailed with 135 passengers and some specie. The Cornella Grinnell, packet ship for London, sailed to-day, also, with \$100,000 in

The steamer Crescent City sailed for Aspinwall to-day with 850 passengers. The Northern Light described my feelings exactly." also sailed for San Juan with a full compliment of

passengers. The Benjamin Franklin, for New Orleans; Bo anoke, for Richmond; Union, for Charleston; and Florida, for Savannah, also sailed to-day, each with a good number of passengers. Of these noble ocean steamers, all but two are American built, with American owners.

SHOOTING CASE.

PHILADELPHIA, June 6. A shooting affair occurred last night at a tavern in Spruce street, in which George Mergent shot John Pearson through the lungs, causing a wound which will probably prove fatal. Pearson had seduced Mergent's sister, and afterwards marled her, but it has since been discovered that he has a wife and children in Ireland.

MORE MEXICAN ATROCITIES.

NEW ORLEANS, June 5. Advices from Brownsville to the 26th ult., state that more outrages had been committed by Mexicans on the American side of the Rio Grande, and the excitement of the Texan people was increasing rapidly. A border warfare is confidently expected.

BUGS ON MELONS.

Bugs may be kept from melons, cucumbers, and squashes, by setting boxes over them, six to ten nches high, and open at both ends. Bugs fly from vine to vine in a horizontal direction, hence the net drawn over them answer as good a purpose for forwarding early vegetation, as frames cover- described; the most delicate food distressed ed with glass.

GAPES IN CHICKENS.

Mix with their food every day a small quantity of vinegar, which has stood a few days in an iron vessel. Or, if you prefer it, vinegar in which iron filings have been dissolved. This is a certain preventive of a troublesome and often fatal discase. Young chickens should never be allowed to run out in wet or damp weather. If they are not kept dry and warm, many are almost sure to

SALE OF A TELEGRAPH LINE.

NEW YORK, June 7. The New York and Buffalo O'Reilly Telegraph ine, was sold at auction to-day for \$39,000. The capital stock was \$170,000, of which \$100,000 had been paid up in cash.

BOATS CAPSIZED AND TWO LIVES LOST.

PROVIDENCE, June 6. A boat containing Mr. Merrill Wheeler, papernanger, and one of his workmen, was capsized by a sudden squall on Saturday, and Mr. Wheeler was drowned. Another boat was also capsized by the same squall, and a colored man named Sam'l Tweedy, who was alone in the boat was also

Two Men Killed by the Premature Discharge of a Cannon.

Two men were killed at Steubenville, Ohio, on Saturday afternoon, by the premature discharge of a cannon, while loading for a salute in honor of the nomination of Pierce.

PUNCH ON MATRIMONY.

Punch says it is fearful how many persons rush nto matrimony totally unprepared for the awful change that awaits them. A man may take a wife at twenty-one, before he knows the difference between a chip and a leghorn. We would no more grant a marriage license to anybody simply because he was of age, than a license on that ground only to practice as an apothecary. Husbands ought to be educated. We would like to have the following questions put to young and inexperienced persons "about to marry," are you aware of the price of coals and candles? Do you know which is the most economical the aitch bone or the round? How far, young man, will a leg of mutton go in a small family? How much dearer now is silver than German-ware ? Declare if you can, rash youth, the sum per annum that bonnets. veils, caps, ribbons, flowers, pelerines, cardinals, cuffs, gloves, corsets, bustles, &c., would probably come to in a lump ? If unable to answer these inquiries, we would strongly advise you to "go back to school."

The Earthquake felt so sensibly at Wheeling, Pittsburg, Washington city and other places, was also felt at Gilliopolis, Ohio, and there caused thirty feet of the river bank, extending near half a square, to slide off.

KILLING WHALES BY ELECTRICITY. The New Bedford Mecury describes a process invented by Professors Somersburg and Buckston,

of Bremen, and brought forward at New Bedford pleces. Fourteen persons were in the dwelling by Mr. Helneken, an intelligent merchant of Bromen, for killing whales, at the moment of striking them with the harpoon, by means of electricity, The object of the expedient is to produce an immediate paralysis of the vital powers of the whale at the moment at which he is struck, so as to obviate the danger, the labor, and the hazard of loss from the struggles of the whale after he is struck The process is thus described by the Mercury. The electricity is conveyed to the body of the

whale from an electro-galvanic battery contained in the boat, by means of a metalic wire attached to the harpoon, and so arranged as to reconduct the electric current from the whale is simple and compact in construction, enclosed in a strong chest weighing about 350 pounds, and occupying a space in the boat three and a half feet long by two feet in width and the same in height. It is capable of throwing into the body of the whale tremendous shocks of electricity in a second, or nine hundred and fifty shocks in a minute, paralyzing in an instant the muscles of the whale, and depriving it of all power of motion, if not actual life."

"Madam," said a quack of Long Island to a yous old lady, "your case is a scruturutuary of

"Pray, doctor, what is that ?" "It is the dropping of the nerves, madam; the nerves havin' fallen in the pizarintum, the chest becomes morbeous, and the head goes tizarizen,

"Ah! Doctor," exclaimed the old lady, you have

A French gentleman, apprehending himself on his death bed, earnestly entreated his young wife not to marry an officer of whom he had been jealous. "My dear," said she, "do hot distress yourself; I have given my word to another a good while age."

Another great cure of Dyspepsia.

of New Hanover County.

March 11, 1851.

Astenishing success of the Oxygenated Bitters New Haven, November 28, 1851. Messrs. Roed, Bates and Austin, Gentlemen-1 feel that no sense of pride, or delicacy, should deter me from expressing publicly, my gratitude, for the astonishing power and efficacy of your Oxy-genated Bitters, in restoring me to health, after suffering more than six years from Dyspepsis, and Liver complaint, during which time, I had the best medical advice, with no benefit except temporary

Some three years ago, my case became more hopeless, from an attack of diarrhoea, which conboxes are generally an obstruction, and they pass fined me to my bed for eight weeks, causing great by them. It is said that these frames with milli- | prostration of the whole system. I obtained a little relief, but the diarrhon continued, and the constant pain and suffering I endured, can hardly be causing severe headache, flatulency, and acidity of the stomach: my spirits, too, at times, were so depressed from the disease, that I felt as if nothing could ever make me cheerful again; even the singing of birds, and music, of which I was always so fond, tended only to fill my soul with sadness, and render my spirits more gloomy and depressed.

About two months ago, I was so much reduced, that I could cat scarcely any food whatever, and was obliged to take my bed, in despair of ever getbetter, and feeling that my disease was beyond the power of medicine. At this time, I read some of the certificates of remarkable cures, by the Oxygenated Bitters, and obtained a bottle medicine. However surprising, it is nevertheless true, that I was almost immediately relieved of every symptom of my various complaints, and gained so rapidly, that I was a wonder to all who knew me, after using four or five bottles of the medicine I am now in better health than I have enjoyed for many years, and attribute my restoration, grace of God, to your invaluable medicine. I shall recommend to all who suffer from any similar complaints, to try this wonderful remedy.

Respectfully yours, MARY E. HANOVER
