United States of America the seventy MILLARD FILLMORE. By the President: W. HUNTER, Acting Secretary of State.

A German boy, 17 years of age, died in Boston, on Friday, while inhaling Chloric ether, administered by a physician, previous to a surgical operation, for removing a finger which had been crushed by machinery. Dr Foit, the physician, said, before the Corener that the largest part of the preparation we ether, and that he applied it with a moisten ed sponge upon the nose and mouth al four minutes. The boy became in and then the physician commenced the ration upon his finger, when the lad showed signs of pain and vomited. The sponge was replecished and again applied. The boy was sensible, and complained of a smarting produced by the ether. The sponge we continued to be applied for five minutes when the operation was again com but suddenly the patient's countenance turn ed a ghostly hue and his pulse stopped beating. Restoratives of various kinds were applied, but in vain. The quantity of other and chloroform administered to this patient was a little over two opness. Physician testified before the Coroner that the no performed by Dr. Folt were prudent and skill-ful, and the quantity of ether administered W Stock of Crockery, per barque Muskingum, less than had been given in cases which were from Liverpool, and are now prepared to fill orders followed by no unfavorable result. The ether, in this case, seems to have acted a sedative narcotic, paralyzing the functions of the nervous system, and producing death.— The nature of this remarkable and useful
