WILMINGTON, N. C. SATURDAY OCTOBER 2, 1852,

FOR PRESIDENT DANIEL WEBSTER, OF MASSACHUSETTS.

FOR VICE PRESIDENT WILLIAM A. GRAHAM.

OF NORTH CAROLINA.

ENLARGEMENT OF THE COMMERCIAL. Advertising matter crowds upon us so much that we are compelled to enlarge our paper, by adding to the length of its columns, so as to add two and a half columns to our space. This will be done in a week or two, or as soon as the materials which have been ordered for this purpose, are received.

TO ADVERTISING FRIENDS.

We have several times stated that all advertisements should be handed in by 12 o'clock on the day preceding publication, to ensure their insertion-we will, however, as heretofore, insert them if we can, let them come at what hour they may. We mention this arrangement that our friends may not complain if their favors are omitted when sent later than the hour named.

We are compelled to confine yearly advertisers strictly within the limits contracted for, in order to accommodate others. Of course, all will be lar communication will again be had with Charsatisfied with this regulation.

DR. W. M. SHERWOOD.

By an Advertisement in another column it will be seen that Dr. Sherwood, favorably known to this community, has removed from Strickland's Depot, and will make Wilmington his place of residence for the purpose of practicing in his profession as a Deptist.

ENIGRANTS TO LIBERIA.

It will be perceived by an advertisement in another column, that an expedition will sail from this port about the first of next month, for Libe- will accuse these gentlemen of taking the stump ria. This is an opportunity that does not occur for electioneering purposes. But we do not see selves of an expedition starting from our own matter. Mr. Graham would, no doubt, have made

INTERESTING ARTICLE.

We have an interesting article on Mr. Badger's Letter, from one of the most distinguished Whigs in the country, which satisfactorily establishes the fact, that the Whig party at the north, as now constituted, is not safe for the South. If this be so, and we have not hesitated to declare our be-Hef that it is so, those of the South who are coworkers with them, are laying up for themselves a season of regret. Whatever may be the result of the Presidential Election, we fear our friends will find out, too late for any available purpose, that they have been the means of throwing the dertiny of the South into hostile hands. If there are any Whigs who have not made up

their minds as to the Presidential candidates, we beseech them to pause till they have read that communication.

The article alluded to will appear on Tuesday. AFFAIRS IN BUNCOMBE.

A letter was addressed to the Editor of the Asheville News, from a Committee in New York, asking to be informed of the condition of that was deeply afflicted that the people should get Congressional District, especially as regards its their clothes wet and their shoes muddy at Cleavepolitical organization, and the Editor's views of land-and it is very certain that the tender hearthe canvass. The Editor states that the "falling ted General would never consent to have the peoof from the nominees of the Whig Convention ple "baking in the sun," or "shivering in the cold" must be sufficiently great, as, in connection with to hear an electioneering speech from him. Conthe universal defection in other Districts, to give sequently he can never make such a speech, as a declaive blow to the prospect of the Scott and | there is no state of the weather, no possible ar-Seward ascendency in this State."

The Editor also remarks, as follows:

is a fact beyond dispute, that in this District, as scandal. through the country generally, there has never been a time when so much division existed in the Whig ranks as now,

mass of the party will undoubtedly, go for Scott—how large a majority, it is impossible now to estimate—but to these there are many exceptions; and among them, many gentlemen of high standing socially and politically, who will support Pierce and King.

Among those that remain, it is evident to all, the disaffection, or, to characterize it more precisely, a reckless pervading disgust, is deep and wide spread.

CHARLOTTE, N. C.

The Editor of the Charlotte, N. C Whig thinks the prosperity of Charlotte, Mecklenburg Co., will soon be placed upon a substantial foundation. The Rail Road connecting her with Columbia and Charleston is fast hastening to its completion, being now about seven miles, and coming at the rate of half a mile a day.

CHINA BERRIES. A negro child came to its death at Richmond on sunday last, by eating China berries, which had slows from an ornamental tree and were scattered about the yard.

WONDERFUL A Washington Correspondent of the New York Journal of Commerce, wrote, some time ago, as

"A gentleman of enlarged observation and great facilities for information, who is a resident, of Western Pennsylvania, and who was a prominent Webster Whig, and has with hesitation and reluctance consented to vote for Scott, informs me that in his judgment, Pennsylvania will go for Scott." All this isvery fine-in fact, very overwhelming especially as he was a prominent Webster Whig. We marvel that his name is not published, as it

would have added potency to the demonstration.

But this does not come up to what might be safely said of a man who is not a resident of Western Penusylvania, but of Buncombe in North Carolina-a man of large observation, and "great facilities of information"-who, in fact, once saw the General himself, in "full feather," as stated of his entrance into the Mexican Capitol-who has been to the Falls of Niagara, Nantucket, Squantum, and numberless other places-who was once at a Camp Meeting where the Rev. Mr. Quisbo, preached in favor of Scorr-this gentleman, we say, who, though not a Clergy man, has a high respect for the Christian Religion-who has other qualifications "too numerous to mention"-this man, when asked if he would vote for General Scott, first said yes, and then said no. "What do you think of that, master Brook ?"

SOUTH CAROLINA RAIL ROAD.

The Yorkville, S. C. "Remedy" of Saturday last says: "We are in hopes that before long a reguleston; and that merchants will be enabled to receive their Fall supplies of goods without paving tribute to the energies end public spirit of the boatmen of the Congarce."

MR. GRAHAM END GEN. SCOTT.

It is stated that Mr. GRAHAM was at Hillsboro Mass meeting and made a speech. We should not be surprised if it was quite as good, at least, as any of Scorr's speeches in the West, where he has gone for the purpose of attending to his public duties. We date say some of the "unterrified" often, and we trust all interested will avail them- how in the world they can take such a view of the a speech to his personal friends and neighbors, if he were not a candidate for the Vice Presidency. He has been a good while away from them, and as but few of them have been to Washington City. he had a great deal to tell them about the wonders of that celebrated Metropolis but heretofore written, said or sung.

As to Gen. Scorr, no apology is necessary and the assults of his political enemies cannot affect the heart or head of a man so tall as he is. In fact they cannot fire high enough to hit the elevation upon which either of the gentlemen standespecially as the policy of good military tacticians is to "fire low," and the "unterrified" will not fail to avail themselves of any thing that may render their efforts effective.

Gen. Scott electioneering, indeed! Get outdo you know who you are talking about? What the high-minded, honorable, brave, and so forth Gen. Scott stoop to electioneer on the stump, and ask the people for "their voices-their sweet voices?" No-the General would do no such thing, especially if it raised and the streets were muddy. We have his own words to prove that his heart rangment of the atmospherical elements, which would make it seasonable or perhaps reasonable.-With regard to the present canvass, however, it So the politicians may as well quit this sort of

FOREIGN MARKETS. Liverpool, Sept 18th.—The Canada's news had a

A moderate business had been done, and the only change in prices at the close was an advance of 1-16d in middling Orleans. Other qualities were firm. The sales of the week were 46,850 bales, of which speculators took 17,500 and exporters 3.050 bales. The stock at Liverpool was 566,000 bales.
