

The U. S. mail steamer Georgia, from Aspinwall, Navy Bay, October 20, and Kingston, Jamaica, October 22, arrived at New York at 10 o'clock Friday night. The Georgia brings \$2,300,000 gold dust on freight, and \$300,000 in the hands of passengers. She also brings the California mails to October 1st, being to the same date as the advices by the Falcon, at New Orleans, and which were briefly given by telegraph in Friday's Sun. The steamer Winfield Scott was at Tobago, waiting for engines, before she could proceed on her voyage.

The health of the Isthmus is good—very few cases of fever, and no cholera. A military force has been organized under the direction of Gen. Paetz, which is of great benefit to passengers crossing the Isthmus. The natives are not allowed to carry arms of any description. Gen. Paetz and his officers deserve great credit for their vigilance and promptness in suppressing murders and robberies.

There had been some serious disturbances between the boatmen on the Chagres river, and the laborers on the Panama railroad. Attempts had been made to burn the bridge at Gatun, and some property was destroyed. In another difficulty, the rioters took possession of Barrocas, and declared that the construction of the road should not be further carried on. A posse of soldiers had been sent after them.

The Panama railroad is in good order, and the cars run twice a day to Barrocas. Kingston is quite healthy—no epidemic prevailing. Died on the passage, and buried at sea, James Blakely, aged 59, passenger, and Francis Hunt, 4th assistant engineer, aged 35. The Tennessee, which sailed from San Francisco Oct. 1st, took \$2,272,560 in gold dust, most of which has been brought by the Georgia.

SUMMARY OF NEWS.
[From the San Francisco Whig, Oct. 1.] Since the sailing of the last steamer, nothing of importance has occurred. The news from the interior relating to mining affairs is somewhat uninteresting, owing to the scarcity of water. Large numbers of miners, however, are in the expectation of doing a good winter's business, dating from the rainy season.

On agricultural affairs, the returns from the interior are interesting and encouraging. The annual Agricultural and Horticultural Fair at Sacramento is now being held. Among the prizes to be awarded are eighty silver cups and goblets, and to those accustomed to American and European standards, the weight and dimensions of some of the vegetable specimens are almost incredible. We have no space to refer to these at length. Among the most attractive features of the Fair is a grand ploughing match, at which many of the prominent farmers of that section will take part. The health of our city continues to be good. Comparatively few deaths have taken place, and the few cases of cholera have readily yielded to medical treatment.

The two theatres are well patronized. At the Adelphi, the elder Booth has been engaged for four nights only, previous to the sailing of the steamer. He sails in the Tennessee for home, bidding a last farewell to his California friends.

Bisaccioni and the Alleghenians are singing in the mountains. The United States Land Commissioners are in session at Los Angeles. Among other important claims before them is that of Col. Fremont.

The village of White Rock, near Placerville, was destroyed by fire on the 15th inst. John Chetwood, Esq., expired at the residence of Mr. Leland, on the 17th inst. Mr. Chetwood had just been nominated to fill the vacancy occurring on the whig ticket by the resignation of J. M. Huntington, Esq., as one of the candidates for the Supreme Bench. He was from New Jersey, where his father's family resides.

E. W. F. Sloan, Esq., of this city, has been nominated by the State Central Committee to fill the vacancy by his death. The immigration is fast coming in, and the reports of the sickness and privation on the plains are heart-rending in the extreme. The relief train sent out by the State to their assistance have been guilty of the meanness of selling them food and water.

The health in some portions of the mines is bad. At Burton's Bar, Park's Bar, and Quiley's Bar, several cases of sporadic cholera have occurred, which have proved fatal. A company of the First Regiment of Cavalry, numbering 100, under the command of Major Fitzgerald, have left this city for Shasta.

More interest is manifested in political affairs than ever before in the history of our State. The whigs are at work in every section with an earnest determination. Mass meetings have been held in all the large towns and villages. Many sterling whigs are stumpng the State for Scott and Graham. The clippers Union, N. B. Palmer and S. S. Bishop, and the ship John Jay have arrived.

The North Carolina has arrived from China, bringing news as late as July 20. Captain Land, of the American clipper Challenge, died at Whampoa on the 26th of June. Upon opening his body several rusty nails were found in him, one of which had passed through the left lobe of his lung. It is thought that he must have swallowed them when a boy.

The latest dates from Oregon are to the 15th inst. A newspaper has been started at Peget Sound called The Columbian. Coal has been discovered in large quantities at Peget Sound.

We add the following further intelligence: **INDIAN NEWS.** The Stockton Republican learns from the Sheriff of Tulare county that the Indians are quiet, and no alarms are entertained by the settlers. Large numbers of emigrants are settling down on the fertile plains with their families. There is every prospect of that portion of the country being thickly settled.

MINING NEWS. The Sacramento Union says there is an exhibition at the bustling house of Mills, Townsend & Co., a lump of gold recently taken out at Downsville, which is one of the largest and handiest ever found in California. This splendid specimen is nearly pure, and weighs two hundred and four ounces and three dollars! The same firm has also another lump, perfectly pure, which weighs 3500 dug near the same spot as the above.

The Grass Valley correspondent of the Sacramento Herald says of quartz mining establishments, that the quartz mills, repeated several times, from passing to chemical analysis, in certain a paying amount of gold, and a process of amalgama-

tion can be applied adequate to secure it.—The party, or company alluded to, have purchased a dam and water mill built on Wolf creek, some 18 months ago, which is fitted to a depth of four to eight feet with auriferous quartz sands or tailings. If the experiments already made can be taken as a criterion of the yield of these "tailings," the individuals have secured as valuable a "lead" as any in the region.

CALIFORNIA MARKETS.
The amount of general business transacted during the past fortnight has not been large; the market is quite bare of several leading articles, and dealers seem disposed to wait the arrival of the numerous ships now due.

In several leading articles there has been a very material improvement. During the month of September there have been but nine arrivals from eastern domestic and seven from European ports. There are now fifty-five vessels on the way from eastern domestic ports, more than one hundred days out, and some forty-two over one hundred and twenty days. Of the three vessels arrived from eastern ports within the fortnight, one came in ballast, one brought chiefly passengers, and only one, the Union, had a cargo of general merchandise.

Money continues to command 3 per cent. per month, with a very good demand. Investments in permanent improvements are rapidly going forward, to be in time for occupying the brick buildings before the rainy season comes on. Investments in outside city lots are in favor at present and that description of property seems inclining upward in price.

The demand for Exchange for this steamer is limited, owing to the non-arrival of the clipper ships now due from the Atlantic States, the remitting of whose freight money forms an important item in the amount of Exchange and Dust going home. Exchange may be quoted as follows:—Sight Exchange on the principal Atlantic cities, 3 per cent.; 30 days 1 1/4 per cent.; 60 days 1 1/2 per cent.; 90 days, 1 1/4 per cent.

Dust may be quoted as abundant, for the same reason which limits the amount of Exchange, namely, a falling off in the demand for remittances, viz:—At \$17 25 a 17 40—Certain descriptions of Coin continue to demand high premiums; Mexican Dollars, 6 a 7 per cent.; Peruvian 2 a 3 per cent.; Coined Ounces, Patriot, 4 per cent.

TRYING THE OTHER END OF THE ROD.
The Minnesota Pioneer relates the following good anecdote:—Everybody knows M—, clerk of the Doctor Franklin, No. 2, and one of the severest practical jokers that ever ran upon the river, or that ever ran saws upon green-horns.—The past season as one of his instruments of waggery, he took along a couple of reeds, (Indian flutes) one of which was charged with flour, so that when the flute was blown, a perfect cloud of flour was discharged into the face and eyes of the person blowing it.—When M— found any passenger, priest or layman, it was all the same to him, who manifested an interest in these Indian curiosities, he would produce the two flutes, and retaining the one that was not loaded with flour, would hand over the other to the verdant inquirer; and would then commence playing that plaintive, monotonous Dakota tune, with a variation of two notes, which is so familiar to the ear of every resident of St. Paul. Thus deceived, the possessor of the other flute was certain to follow M's example, and at the very first "toot" to blow a cloud of flour flew into his own face around, an outburst of merriment at his own expense.

On the last trip of the Franklin, but a few weeks since, M— had his Indian flute along as usual; and one of the passengers who was upon the old wag himself; so he took M's decoy flute away to the cook room, and charged it well with finely pulverized charcoal, and returned it without M's knowledge, to its place in the office, with the other flute, and after dinner, said in M's hearing, that "it would be pleasant to have some music."

"Certainly," says M—, "Did you ever see the flutes that the Sioux bands up the river play upon?" "No," replied the stranger, "I never did.—Do tell me if they have flutes?" This was enough for M—. His face, luminous as the sun behind a crimson cloud, was radiant with anticipated fun, as he brought out the two flutes and handed to the enquirer the one loaded with flour.

A large crowd, the most of whom understood the flour trick, several of them having been victimized, gathered around to see the sport. "Lu, me!" said the inquirer, "I should not—why I hav'nt the least idea—why how do you [trying to finger the holes] blow the darned thing, any way?" "Oh, simple, very simple," replied W—, "this is used by the inland loyer, in serenading his dusky sweet-heart. All he attempts is a plaintive, melancholy, pathetic air, to touch the heart of his mistress. The notes are very simple." [Here he went into a lengthy dissertation on Indian music, customs and habits.] "The air is simply this, [blows and fills his own face with powder charcoal, the whole crowd laughing and roaring, and fairly tumbling down with excessive mirth.]

M— stood for a moment, begrimed as an Ethiopian, then dropping the flute, exclaimed—"Caught in my own trap.—" After that, they had plenty of music on the Franklin; for that M— will have; but no more Indian flutes.

A SMART BOY.
A little boy, "well in his boots" for the first time, and very proud of them, said to his mother, after reading his customary chapter in the "Family Bible" in the morning:—"Mother, why didn't Moses wear boots?"—"Why, my son, what makes you ask that question? Perhaps he did wear boots, my dear; we don't know."—"No mother, he didn't, because the Bible says that the voice that came out of the burning bush told him, to take off his shoes." There was no rejoinder to his "slinger."

KAHNWEILER & BRO.
BEG LEAVE TO ANNOUNCE THEIR FIRST EXHIBITION
This Morning of French Dress Goods and Paris Cloaks &c.

COPARTNERSHIP.
THE subscribers have entered into Copartnership, under the name and style of SUTTON, SOUTHMADE & CO., for the purpose of building or repairing all kinds of Machinery, and carrying on a general Blacksmithing, Iron and Brass Foundry Business, in the town of Wilmington—We are desirous of business from their town or country friends, Mr. Sutton having recently returned from the north, where he has purchased an assortment of tools, which, in addition to those we now have will enable us to fill all orders with despatch.
Our charges shall compare favorably with those of any other establishment.
WM. SUTTON,
THOS. SOUTHMADE,
CHAS. SOUTHMADE.
March 2. Jour. and Her. 1 week. 149

TO THE PUBLIC.
THE Subscriber has leased for a term of years, of R. W. Brown, Esq., his fire-proof store, with his wharves, and is now in a condition to take especial care of Spirits Turpentine and other Naval Stores committed to his care. The Warehouse is well known to be the best and safest place in town for the storage of Bacon, Lard, Corn, Peas, &c.—The lower wharves have on them four large new sheds, where Spirits can be safely kept from the rain and sun. He is prepared to receive and ship, or sell, all kinds of produce sent to his care. He will also make advances when required.
He begs to refer to the following gentlemen:—R. W. Brown, John Dawson, O. G. Parsley, and Thos. H. Wright, Esqrs.
MILES COSTIN,
Brown's wharf Wilmington, N. C.
Sept. 17 77.

SURGICAL INSTITUT.
W. R. SOUTH FREDERICK STREET
BALTIMORE, MARYLAND.
DR. DOW has for many years devoted his whole attention to the treatment of Private Complaints, in all their varied and complicated forms. His great success in those long standing and difficult cases, such as were formerly considered incurable, is the chief recommendation to the public, and is worthy of the extensive patronage he has received. Within the last eight years, Dr. D. has treated more than 29,500 cases of Private Complaints, in their different forms and stages; a practice which no doubt exceeds that of all other physicians now advertising in Baltimore, no change of diet is necessary, and his dispositions were strictly followed, and medicines taken at reasonable time, without effecting a radical and permanent cure; therefore, persons afflicted with diseases of the above nature, "no matter how difficult or long standing the case may be," would do well to call on Dr. DOW, at his office, No. 16, South Frederick St., and if not effectually relieved, no remuneration will be required for his services. His medicines are free from Mercury and all mineral poisons; put up in a neat and compact form, and may be taken in a public or private house, or while travelling, without exposure or hindrance from business, and except in cases of violent inflammation, no change of diet is necessary. STRICTURES.—Dr. Dow has discovered a new method by which he can cure the worst form of stricture and that without pain or inconvenience to the patient. Irritation of the urethra, or prostatic gland, or neck of the bladder, is sometimes mistaken for stricture by general practitioners or charlatans, and others afflicted with Seminal Debility, which originates from a Certain Destructive Habit, or from any other cause, with train of bodily and mental evils which follow, when neglected, should make an early application, thereby avoiding much trouble and suffering, as well as expense. By his improved method of treatment, Dr. D. can safely guarantee a speedy and perfect cure in all cases of this complaint.

TO FEMALES.
All diseases peculiar to Females (as also Suppressions, Irregularities, &c.) speedily and effectually removed. The efficacy of his remedies, for the cure of the above affections, have been well tested in an extensive practice for the last twelve years. Persons at a distance may consult Dr. D. by a letter, post-paid, describing case, and have medicine securely put up and forwarded to any part of the United States, always accompanied with full and explicit directions for use. Communications considered strictly confidential. Office arranged with separate apartments, so that patients never see any one but the doctor himself. Attendance daily, from 9 in the morning till 9 at night.
N. B.—Persons afflicted with any of the above complaints, will do well to avoid the various NOSTRUMS AND SPECIFICS, advertised by Apothecaries and Druggists as a certain cure for any and every disease. They are put up to sell, but not to cure, and frequently do much more harm than good—therefore avoid them. A word to the wise is sufficient. Address
DR. J. DOW, 16 South Frederick st., Baltimore, Md. 75-1y-6

\$500 CHALLENGE.
WHATSOEVER concerns the health and happiness of a people is at all times the most valuable importance. I take it for granted that every person will do all in their power, to save the lives of their children, and always benefits and cures, as thousands of voluntary certificates from the best authorities testify. Prepared by
C. MORSE & CO., 21 Maiden-Lane, N. Y.
Sold by Druggists and others throughout this and other countries. S. B. & J. A. EVANS, Agents, Wilmington, N. C. 85-1y-6

HOEBSACK'S WORM SYRUP.
An article founded upon Scientific Principles, compounded with purely vegetable substances, being perfectly safe; when taken, and can be given to the most tender Infant with decided beneficial effect where *Bowel Complaints and Diarrhoea* have made them weak and debilitated. The Tonic properties of my Worm Syrup are such, that it stands without an equal in the catalogue of medicines, in giving tone and strength to the Stomach, and Picking at the Nose, Hardness and Fullness of the Belly, Dry Cough, Slow Fever, Pulse Irregular—remedy that all these denote WORMS, and you should at once apply the remedy.—

TO FEMALES.
You will find these Pills an invaluable medicine in many complaints which vary in nature, in obstructions either total or partial, they have been found of inestimable benefit, restoring their functional arrangements to a healthy action, purifying the blood and other fluids so effectually to put to flight all complaints which may arise from female irregularities, as headache, giddiness, dimness of sight, pain in the side, back, and stomach, &c. None genuine unless signed J. N. Hoebsack, all others being base imitations.
Agents wishing new supplies, and Store Keepers desirous of becoming Agents must address the Proprietor, J. N. Hoebsack, Philadelphia, Pa. For sale by C. DePRE and WM. H. LIPPITT, Wilmington, and by every Merchant and Druggist in the County and State. Price each 25 cents. July 29. 12m 57.

DR. MARCHISS' UTERINE CATHOLICON.
THE discovery of the above preparation has established a new era in the history of the healing art; it is, in truth, one of the greatest Medical Discoveries of the age, because it will cure more than nine-tenths of a class of distressing diseases incidental to females in every stage of their life, which have heretofore resisted the best efforts of the Medical profession in all countries, to a degree beyond that of almost every other malady to which any portion of the human family is heir. The diseases to which we refer are usually known by the term **FEMALE COMPLAINTS**, and comprise all the derangements to which females are liable by the peculiarities of their organization. Among these are *Protrusion Uteri*, or falling of the Womb; *Chronic Inflammation and Ulceration of the Womb*; *Incidental Hemorrhages*, or *Fluor Albus*, or *Whites*; *Chlorosis*; *Painful Periods*; *Irregular Menstruation*, (Canx excepted), and of their accompanying evils. (Canx excepted), all these complaints can be pleasantly, safely, and certainly remedied by this preparation.

SHIPPING ARTICLES.
FOR SALE at The Commercial Office, an elegant assortment of Shipping Articles, embracing all the laws of Congress relative to the Merchant's Service.
NORTH CAROLINA MANUFACTURES.
BATTLE & SON are still manufacturing, at the Rocky Mount Mills, about 300,000 lbs. CONSIGNMENT of 25,000 bushel Gunny Bags, for sale, in lots to suit, by
MILES COSTIN, Brown's wharf.
Sept. 14. 85-1y-6

MOEBSACK'S WORM SYRUP.
This is a Purely Vegetable Compound, scientifically prepared from the best Roots and Herbs of the Materia Medica, and has long enjoyed an established reputation for the following evils, viz:—
PURIFYING THE BLOOD,
and thus curing all Humors, Sores, Ulcers, Cutaneous Eruptions, Cancer, Scald Head, &c.
Regulating and Cleansing the Stomach & Bowels, thus it cures Dyspepsia, Indigestion, Costiveness, Pleas, &c.
Strengthening the Digestive Organs, thus causing the food to nourish and support every part.

REGULATING THE SECRETARY ORGANS, and, by enabling them to perform their proper functions, preventing and curing Bilious and other painful diseases.
Strengthening and Quieting the Nervous System, thus allaying Nervous Irritation, and curing all diseases of the Nerves.
It is unrivaled in the cure of all **FEMALE DISEASES,** as Weakness, Irregularity, Obstructions, &c. It is pleasant to take, and safe in all cases; acting in harmony with the restoring powers of nature, it never injures but always benefits and cures, as thousands of voluntary certificates from the best authorities testify. THE GREAT CURE FOR BALDNESS, GREY HAIR, SCURF & DANDRUFF. SAUNDERS' MEDICATED HAIR RESTORATIVE.
IS now acknowledged by thousands, who use it daily, to be the only remedy to prevent Baldness and to restore the Hair that has fallen off or become thin, to prevent Gray Hair; to cure and remove every appearance of Scurf and Dandruff from the Hair, and to keep it in the most healthy soft, and glossy state, and free from all oily and greasy appearance.
The Restorative is wholly different in its composition from all other articles of the same name, or for a similar purpose. It is intended to act through the skin upon the nerves, blood-vessels and absorbents connected with the root or bulb of the hair, to rouse and sustain the vitality of the hair, and thus produce a new and healthy growth. It will prevent gray hair, entirely eradicate scurf and dandruff and all other accidental impurities of the skin. By its use the hair will, under all circumstances, be kept luxuriant, healthy, and in its natural color to the latest period of life.
THE REV. SETH MORGAN'S TESTIMONY.
I do hereby certify that I have used your celebrated HAIR RESTORATIVE, for the purpose of preventing my hair from falling off, and found it to have the desired effect, not only in preventing the hair from coming out, but the producing of a very fine growth of young hair, where the head was almost entirely bald. I have used only two bottles, and have already seen the effect, that by the use of as many more, I will have a full crop of hair. I therefore cheerfully recommend it to the public as worthy their best confidence.
SETH MORGAN.
Elizabeth City, N. C., April 16th, 1882.

DR. MARCHISS' UTERINE CATHOLICON.
THE discovery of the above preparation has established a new era in the history of the healing art; it is, in truth, one of the greatest Medical Discoveries of the age, because it will cure more than nine-tenths of a class of distressing diseases incidental to females in every stage of their life, which have heretofore resisted the best efforts of the Medical profession in all countries, to a degree beyond that of almost every other malady to which any portion of the human family is heir. The diseases to which we refer are usually known by the term **FEMALE COMPLAINTS**, and comprise all the derangements to which females are liable by the peculiarities of their organization. Among these are *Protrusion Uteri*, or falling of the Womb; *Chronic Inflammation and Ulceration of the Womb*; *Incidental Hemorrhages*, or *Fluor Albus*, or *Whites*; *Chlorosis*; *Painful Periods*; *Irregular Menstruation*, (Canx excepted), and of their accompanying evils. (Canx excepted), all these complaints can be pleasantly, safely, and certainly remedied by this preparation.

THE CLAIMS OF THIS MEDICINE TO THE CONFIDENCE OF THE PUBLIC ARE STRENGTHENED BY THE FACT OF ITS HAVING RECEIVED THE APPROBATION AND PUBLIC PATRONAGE OF MANY PROMINENT MEMBERS OF THE MEDICAL FACULTY IN THE UNITED STATES, SOME OF WHOM HAVE VOLUNTARILY GIVEN LETTERS OF COMMENDATION, (see pamphlet), sustaining all that is claimed for the Catholicon as a curative agent.
Pamphlets containing much useful information touching the nature and symptoms of the above diseases, together with testimonials from Ladies of the highest respectability, as certified by the most satisfactory authority in the pamphlet, to which all the attention of Ladies and Practitioners is respectfully invited, can be had gratis at the store of
