THE COMMERCIAL. WILMINGTON, N. C. THURSDAY DECEMBER 30, 1852.

COMMERCIAL REPORT.

We are indubted for the interesting Report which openis under our Commercial Head, to an intelerchant of this place, now retired from ness. The remarks accompanying the Report are from the same source.

NEW MUSIC.

We have received the "Adoni Polks "-also "The Cornelia Waltz" as performed with great applause by the Wilmington Amsteur Brass Band. Both pleces are composed by Mr. Hermann L. Schreiner, of this town, who has, on various occasions, furnished a good deal of original Music, which has been much admired by the lovers of the Art.

NORTH CAROLINA SENATOR.

The failure of the Legislature to elect a Sena tor is not so important a matter as some suppose The Constitution of North Carolina makes provision for the contingency in the 20th Section, as fullows :

Sec. 20. That in every case where any officer the right of whose appointment is, by this Con-stitution, vested in the General Assembly, shall, during their recess, die, or his office by other means become vacant, the Governor shall have power, with the advice of the Council of State, to all up such vacancy, by granting a temporary commission, which shall expire at the end of the next session of the General Assembly.

The vacancy will not occur till after the 4th of March, and the appointing power is as clearly with the Governor and Connell, as any duty connected with their offices. Even if the vacancy existed during the session of the Legislature, and that body failed to elect, the Governor and Council might still appoint, as the failure of the Legislature would be classed among those "other means" by which the office of Senator became Ta ant.

It is true that the right of electing Senator is not, in so many words, given by the Constitution to the General Assembly, yet the 37th section gives the power of electing Delegates to the Continental Congress to that body, subject to future legislation-and it is no forced construction, we think, to give the power over an office created by the Federal Constitution, who is a Delegate from the State. If there is any objection to the constitution, it must arise on a play of words, and not on the generally accepted meaning of law.

We dare say the Governor and Council will make quite as good an appointment as the Legislature would have done-and the Senator will hold his office for two years, unless the Legislature should meet before the regular time in special ession, which is not probable.

CONGRESSIONAL DISTRICTS. The State is entitled to eight members of Con-

gress under the new Census. The Districts were laid off by the Legislature, as follows :

First District, composed of Currituck, Camden, asquotank, Gates, Chowan, Hertford, Northampm, Halifax, Martin, Bertie, Washington and Tyr-

cond District-Hyde, Beaufort, Pitt, Craven Jones, Lenoir, Wayne, Greene, Edgecombe, Ons-

Third District-New Hanover, Brunswick, Co-

THE METHODIST PULPIT. We leave from the December number of the boys work, that it will be discontinued. Mr. Durses, the highly gifted and intelligent Edito takes an affectionate leave of his renders, and promises that his " pen shall not sleep or die till he has no more power to wield is "---as he will continue to write for other periodicals.

SPIRIT RAPPINGS.

Mr. Bishop Peabody, hung himself in a barn in Grafton, Lacrain county, Ohlo, a short time since. He was an amiable, intelligent and respected roung man, but became so absorbed in spirit rappings, when that delusion appeared in his neigh-borhood as to completely unbalance his mind.

A RECOMMENDATION.

In a letter written in reply to the Whigs of Masachusetts, who lately presented him with a silver Pitcher, in testimony of their admiration of his electioncering services, Mr. Botts, of Virginia, exhorts the Whigs to hold together; "to forget and forgive all party differences and wrongs; to lay aside all heartburnings and jealousies; for the sake of the common county to harmonize, and restore confidence and good fellowship among themselves." He wants the Clay Whigs, and Taylor Whigs, Scott Whigs, Fillmore Whigs, Webster Whigs, and all other sorts of Whigs, to stand together united, though quiet and inactive for the present.

In fact he wants troops, as he says "his voice is still for war." We hardly knew that there were so many different titles in the family, and among the multitude, all good, of course, it is hard to make a preference. We believe we like these "all sorts of Whigs" the best-because the application embraces so wide a range-"all sorts" meaning any sort you like.

If Mr. Botts will have war, he must get up some issues, and that right speedily. Being "quiet and inactive" too long, will make the people get out of the notion of drill, and this sort of "masterly inactivity" will kill the chances of politicians. Get up something for us to quarrel about. Mr. Botts, if it is only a "Virginia abstraction."

CONGRESSIONAL.

There has been nothing done in Congress worthy of much attention. The bill creating the title of Lieutenant General bas passed the Senate. Congress will do nothing during the holidays.

THE TROUBLES ON THE RIO GRANDE. The New Orleans Crescent. in announcing that Carvajal, with four hundred Texas Rangers, had crossed the Rio Grande, and was on his march for J. & D. McRae & Co.

Monterey, says: "It was generally supposed that this movement Fayetteville, by E. J. Lutterloh. on the part of Carvajal was at the invitation of

the State of Tamaulipas, and further, that Gen. Cruz, the military commandant at Camargo, was indirectly aiding it. The force under Carvajal's command is said to be composed almost entirely of the rangers called out by the Governor of Texas for the defence of the frontier against the Indians, and which the Government of the United States refused to pay or receive into service.— The friends of the movement feel confident that by this time Carvajal is in command of the whole BEEF, per bbl. BEEF, per bbl. Sierra Madre, and that his success is certain."

AUSTRIA. However pacific the intentions of Louis Napo con may be, the papers at Vienna are sou the old alarm, that a deeply-laid plot has been Rio, formed for a revolution in Savoy-of course with Laguayra, the object of annexing that coveted territory to $\begin{bmatrix} Cuba, \\ Java, \end{bmatrix}$ the object of annexing that covered territory to Java, France. The Austrian Ministerial organs go fur-Corn, per lb. 84 a 94 Sperm, Corn, per bush 624 a ther, and declare that even in Piedmont a very strong French party exists, which would be glad to form a more close union with France. The ar- Adamantine, 23 a 30 ticles are exceedingly warlike. They declare that

ALALADADE W. W. HARRISS

The Mustany Liniment w evidences of the value of this ne reaches the ears of the public, Editor's, a contractor on the Pacic Reilroad, told him the other day that he would not be without is on his section on any according to the section of any according to the section of the section ong his hands. The great value of this article has indu-ced many worthless imitations under different, but similar names, but the persons who once use Bragg & Co's Liniment will not be deceived by any vile and rascally cheat who would palm off a spurious preparation on them. See advertisement in another column.

In this town, on the morning of the 25th, CHARLES FREDERICK, infaut son of Wm. A. Wright. Esq., aged 10 months.

PORT OF WILMINGTON, DEC. 30.

Exports at a gla competent and reliable person be obtained mainty to be raised by contribution, for this pur-pose. The private transactions of individuals are not sought after nor can they be made public by the exhibit of these books. The object is simply to present in a convenient form for refer-ence the articles, packages, quantities. &c., &c., and thus obviate the labor of a periodical jour-ney to the Custom House, and along the wharves in every merchant's and shipper's office, gather-ing together the scattered items. The idea seems to us a good oue, and a small amount of money, yearly, for this purpose, would be well spent.

SMITHVILLE MALE AND FEMALE ACADEMY

W ILL commence its fourth session in the new building, 15th of February and close its scholas-tic year 15th Dec 1853. Organization and charges as heretofore. Alamance and Randolph; 32nd, Chatham; Moore and Montgomery; Sith, Richmond Roberon; 35th, Anson and Union; 36th, rd ; 37th, Caswell ; 38th, Rockingham ; 39th, kleuburg; 40th, Stanly and Cabarrus; 41st, an and Davie; 42nd, Davidson; 43rd, Stokes and Forsyth; 44th, Ashe, Surry, Watauga and Yadkin; 45th, Wilkes, Iredell and Alexander; 46th, Burke, McDowell and Caldwell; 47th, Lin-Jaston and Catawba ; 48th, Rutherford and Cleaveland; 49th. Buncombe, Henderson, Yancy and Madison; 50th, Haywood, Macon, Cherokee and Jackson. 1000

A FUSS IN PERSPECTIVE.

The Washington Correspondent of the Baltimore Sun, holds out the prospect of difficulty between the Federal Government and the State of Virginia. He says : "Public attention will soon be called to the remarkable conflict between the United States Supreme Court and the legislative branch of the government, in the Wheeling bridge ase. The Court, by a decree at its late session after a rehearing of the case, decreed that the bridge should be removed as an obstruction to navigation, or elevated to a certain height, and they allow a certain time within which the bridge company should comply with the terms of the decree. Congress, at the late session, and after the adjournment of the Court, constituted the bridge a post road, with a view to save the bridge and evade the decree. They undertake to legalize what the judiciary has decided to be a nuis-

"In February, the U.S. Marshal will proceed to execute the decree, and summon a possee, and, if eed bo, call upon the President for military aid. The Governor of Virginia, on the other hand, will resist the execution of the decree and employ the ollitis for that purpose. There is a clash of anthority between co-ordinate branches of the govmount and in which States are deeply interested on one side and the other. Whether Congress or the Court is to yield is the question."

COLONIAL MOVEMENT.

eting was to be held at St. John, N. B., on the 23d just, on the subject of the Fishery Ques tion, and to consider the propriety of memoriali-ning the Queen, and to protest against any nego-tiations being completed with the United States without the concurrence and approval of the colmies. The Queen's Government will bardly lister ition of this sort. It is important that should be settled by the proper auheat the aid of "fillbesters" of either

HAYTI.

The yellow fever is raging at Port an Prince to an extent not known before for thirty years; upwards of fifty Americans have died of the fever within a few months past.

FLOODS IN OHIO.

Very destructive floods have occurreed in both the great and Little Miami rivers. The Little Miama and Cincinnati, Hamilton and Dayton Rail Roads have been considerably damaged. On the latter several bridges have been washed away. A large amount of property has been damaged in the vicinity of the several streams, and some lives have been lost

THE RIGHT SPIRIT.

We are glad to learn that Senator Mason of Virginia and Senator Cass of Michigan, have come out in the Senate and denounced filibusterism in all its aspects. Though both desire the acquisition of Cuba, they denounce any attempt, by vio. lence in any form, to wrest from Spain any part of her possessions. We believe this noble conduct of Senators foreshadows the position of the incoming administration in regard to our Foreign relations. Our readers know that we have continually expressed our confidence in Mr. Pierce, in this important matter.

We are authorized to announce JOHN McAUS-LAN, Esqr., as a candidate for the office of Special Magistrate for the town of Wilmington, at the ensuing election. Dec. 23.

We are authorized to announce JOHN C. BOW-DEN, Esq, as a candidate for the office of Special Magistrate for the town of Wilmington.

We are authorized to announce the name of JOHN COWAN, Esq., as a candidate for the Office To NEW YORK of Special Magistrate for the Town of Wilmington, at the ensuing election.

We are authorized to announce JERENICHOLS, Esq. as a candidate for the office of Special Magistrate for the town of Wilmidgton. Dec 9.

OXYGENATED BITTERS. ANOTHER CERTIFICATE FROM CONN MERIDEN. July 26, 1851. Messis. Reed, Bates & Austin-Gentlemen-I

take the liberty to express my gratitude to you, for the good effects produced on me by the use of the Oxygenated Bitters.

My constitution has been greatly impaired, by Typhus and Billious Fevers; and, for four years past, I have been troubled with a severe cough. and discharged greatly from the lungs, my breathing very laborious, and much distressed on my left side, near, and around the heart, so much so, that the noise and whistling in my chest, would wake me out of a sound sleep, the difficulty still 825 bbls at \$3,85 per bbl for Soft and \$1,67; per increasing ppon me, when my breath almost whol-

I was carried in a chair from my business to the house, and no one who saw me thought I could long survive. I tried a bottle of the Oxygenated bong survive. I tried a bottle of the Oxygenated Bitters, recommended by a friend and in five or six days, it greatly relieved my cough and hard breathing. I sm not well, but able to attend to my small business, and as thonsands are suffering from similar complaints, I therefore recommend it to the public as a valuable medicine,

Respectfully yours, ABEL D. OLARKE. REED, BATES & AUSTIN, Wholesale Drug ints, No. 26 Merchants' Row, Boston, Genera C. DuPre, Agent for Wilmington. S1 per botper bushel.

about 41 millions do. There are 10 Distilleries working about 25 50

stills, capital invested probably \$100.000. These use in the course of a year about 150,000 bbls Turpentine The Banking Capital employed here is \$1.150.-

000. The Commercial has sought an increase of capital, and a charter for a new Bank is asked of the Legislature. One or the other of these objects should be attained. The Wilmington & Raleigh Rail Road cost over

\$2,500,000. The capital invested by the people of this town is about \$500,000. It is in excellent condition, equal to any Road in the country, the great highway for the travel, North and South and for the last two years has declared a dividend of six per cent.

The Wilmington & Manchester Road will cost \$1,800,000, capital invested by Wilmintgon \$500, 000. It is in course (f rapid construction, and when completed will largely add to the trade and prosperity of this place.

Our citizens have likewise invested \$138,000 in the capital stock of the North Carolina Rail Road which is being pressed forward to completion and which it is expected will likewise contribute to the growing trade and importance of this town by emptying into its limits a portion of the resources of our Western Counties.

The Deep River Improvement has a capital of \$320,000 of which \$30,000 are owned by citizens of our town. The Legislature has recently appropriated \$80,000 for the relief of this enterprise, and its early and thorough completion is ooked forward to with anxiety. Should this improvement meet the confident anticipations of its friends a new impulse will be added to our commercial operations. It is expected that the vast deposits of our coal regions, ascertained to be inexhaustable and of all qualities, will, by means of the navigation of the Cape Fear and Deep Rivers, find an outlet here, thus opening a new source of wealth, the future results of which cannot lightly be estimated.

There is a Plank Road in course of construction from this town Eastwardly towards Onslow. bales There are 9 Steam and 20 Tow Boats plying be tween Fayetteville and Wilmington, absorbing a capital of \$110,000. Two new steamers have been contracted for at a cost of \$32,000 one of which (a passenger boat) has recently arrived .-There are in addition to these 4 steamers carrying the U.S. Mail daily to and from Charleston and this place. 2 steamboats of light capacity, 2 tow boats for carrying vessels to sea, and 1 additional nearly completed, making on the River in all 19 steam boats. There are three Rice Mills, one extensive, steam,

and 2 propelled by water. We have 2 Marine Rail Ways of ample power.

The average Rice Crop, yearly, is about 180,-000 bushels, worth 80 cts per bushel. The vice is said to be the best in the world.

The population of this town exceeds, it is esti-mated, 9,000 persons. 10,000

An idea of the business of our town can be 10,900 gathered from these particulors. It would be gratifying to contrast our present trade with the experience of by-gone years, showing the increase in one department and the falling off in another. but from the scattered nature of the details, this is impracticable. In the article of Tobacco, for instance, there has been a wonderful falling off. The time was, when immenso quantities were received here from the up country, and the ware houses were stocked; now it finds its way into Feathers. 4,000 lbs. Virginia and elsewhere and our receipts are but small. Large quantities of Cotton likewise formerly oppressed our wharves, now it is jused for manufacturing purposes above us, and our supplies are slim. We notice, however, an improve ment in this particular during the past year, the receipts being slightly augmented." In the Ground Pea crop we have largely advanc-ed. The time was when 5 or 10,000 bushels year-ly, was an average crop; now it is nearly 100,000 bushels, worth from 95 cts to \$1,25 per bushel as

in quality. The difficulty experienced in preparing these statistics suggests the adoption of a plan by
