WHIG PHYSIC AT A DISCOUNT. We learn that our worthy neighbor Dr. HARRISS has been removed from the station of Port Physician. There is certainly no reason for this unless the physic the Dr. gives is suspected to be whig physic, the prescribing of which, cannot, of course, be tolerated under a Democratic Administration. We admonish the new incumbent, whoever he may be, not to buy of Whig Druggists, lest he be reported to Government. He had better put an advertisement in the papers, that "the powers that be" may see he intends to do the clean thing .-Said advertisement may run in this wise: "Wanic, for the cure of democratic chills and fevers, democratic pleurasy, democratic &c. &c. &c. to democratic Wilmington, in democratic vessels By thus doing the Government will see at that the appointment is in accordance with policy of the day, viz: "the best interests of whole country."

There are many sentences that rush into our mind, from the classics English and the classics Latin, applicable to the present occasion. The good Book says, "put not your trust in Princes," which may be written without sinful variation, "Put not your trust in Pierces." Well, we don'tbut who in contemplating this melancholy political dispensation can help exclaiming, "Sic transit gloria mundi!" Yes the glory has departed from the Commercial, and our neighbors of the Journal and the Free Press, are mutually quoting Shakspeare on this occasion, in the place wherein the Bard saith, "Come let me clutch thee." It is a pity that only one of these can get it, because the one that fails will be as mad as a Hornet, rampant, or "pisin sarpint" conchant. The matter cannot be shared and parcelled out to the parties in this as in the case of the patronage of neighbor Dobbin of the Navy Department, and others of our "illustrissimos,"

The ingratitude of Republies is "a circumstance," as every one knoweth. The President is not a bit of a party man-he goes for the country. Well, then ought he not to appreciate all who go for the country, or desire to do so, party or no party? Most certainly he ought. And yet would you believe it reader, Frank Pierce never sent us a Message, though Mr. Ashe came right from Washington, and fresh from the counsels and ceremonials of the new political creation. Alas, he is like one of old, "who remembered not Joseph, but forgat him."

Our case is a melancholy one, that's a fact, and we felt half inclined, in view of the "shadows, clouds and darkness" that rose to our pained sen- been sations to say: "Pity the sorrows of a poor old man." But we shan't do it. We will quote Shakspeare, just as we did when a boy. He has an article that meets our case, and thus it runn-

THE PRESIDENT.

It is said that President Pierce is attending vigorously to the performance of his official duties, and daily promenading the streets of Washington. We are pleased to hear of the improved health of the President. This lashing the official back of the Whiggery, with so much vigor, is a very pleasant and healthy exercise for His Excellency, it appears. The promenades, we dare say, afford an agreeable relaxation to the arm that so incessently whirls the political Cat. We guess, that after he has cut up the back aforesaid. some of those who are now "cheek by jowl" with His Excellency, will feel the power of his muscles told that three papers are devoted to the discus--sohe will not be deprived of the means of keeping his blood in circulation.

Arrival of Two Steamers with Nearly Three Millions in Gold, and the California Mails. New York, April 27th .- The steamer Georgia. with the California mail and \$2,234,000 in gold dust on freight, besides a large amount in the hands of passengers, has arrived from Chagres, via Kingston and Havana. She brings nothing later from California. The steamer Uncle Sam also arrived here to-day from Aspinwall. She brings 450 passengers and \$570,000 in gold, including \$220,000 on freight.

The Isthmus was healthy and the crossing re markably good. The Uncle Sam left Kingston on the 21st. The yellow fever was raging considerably, and several shipmasters had recently died. A Chinese Company, consisting of fifty perfor

mers, is among the passengers. The whole amount of gold on freight aboard the Georgia is \$2,000,000, whilst there is also a large amount in the hands of the passengers. The consignments in the largest amounts are to the American Exchange Bank, \$600,000; Duncan & Sherman, \$200,000; Burgoyne & Plume, \$200,000; Wells & Fargo, \$113,000.

The employers, regarding this series of "strikes," so rapid and audacious, as an imposition on justice, equality, and good nature, discharged every man. The places have been filled by off-duty seamen, residents of Salem.

LEABEY'S TRIAL.

The Portage City Republican contains a portion of the trial of Edward Leahey (better known as the Monk of Latrappe) for the murder, by shooting, of Bernard Manley. The trial is before Judge Larabee. Leahey plead 'not guilty' to the indictment. Francis Whiting testified that he saw the prisoner fire three shots, one at the deceased. which caused his death, and two at Abram Morton. The pistol was a revolver and two charges were left in it. Leahey stated to the witness that the murder was just, and that the Lord told him to do it. Manley lived about forty-five minutes after the shot. The testimony, as far as it is published, is conclusive as to the fact that Manley was shot by Leahey for aleged adultery with the wife of the latter .- Daily Wiscons in.
