

RELIGIOUS NOTICE

Rev. Mr. Jenkins, (Minister from Chiles) will preach in the Front Street M. E. Church on Monday evening next, 7th inst.

THE QUEEN AND MRS. STOWE

The Queen of England has refused to receive Mrs. Stowe at Court. This is, doubtless, in accordance with the advice of the Cabinet, and shows due regard to American feelings. American traitors at the British Court would give rise to very bitter feelings here.

FROM HAVANA

The Isabella, at Charleston, brings dates of the 22d inst. We see nothing of general interest by this arrival.

PUTNAM'S MONTHLY

We have Putnam's Monthly for July, on our table, the reputation of which is well established. The price is \$3 per annum, or 25 cents for a single number. For sale at Whitaker's, south side of Market street.

GOVERNMENT OF THE WORLD

Some of the most important empires of the world are now governed by young men, under 31 years of age. The Emperor of China, Hien Fung, is now in the twenty-second year of his age, and the third of his reign. It will be recollected that he is of the Tartar or Tu-tsing dynasty. Prince Chu-kisun, of the Ming dynasty, who ascends to the throne of China, is about nineteen years of age. The Sultan, or Shah of Persia, Nasr-ed-Din, is about twenty years of age. Abd-ul-Medjid, the Sultan of Turkey, was born in April, 1823, of course he is now little over thirty years of age. The Emperor Francis Joseph, of Austria, is nearly twenty-three, having been born in August, 1830. He ascended the imperial throne in December, 1848. These empires embrace more than one-third of the population of the world.

CONSOLIDATION

The Standard of Saturday, in some remarks upon the dangers of consolidation, says: "Experience has at length shown that the real danger to be encountered by the federal government is not disruption or dissolution, but consolidation—Here is the point to be guarded. The tendency of the times is to extravagance, to combinations by sections, for effecting their own particular purposes, and to the exercise of unauthorized power by Congress. It is the duty of the Democratic party to keep an eye upon this tendency, and at least to check it, if it cannot be stopped and permanently arrested."

If the Standard is in earnest, let us see the Editor taking ground against hostilities to "combinations of sections" in the shape of gifts of the public lands. It is certainly the duty of the "democratic party to keep an eye on this tendency," as Mr. Holden says, but unfortunately the eye directed in that way is a little, while the eye that looks to official succession and the triumph of party is wide open. Hence the necessity for bringing up material political contingencies, no matter how much the operation strengthens the cause of consolidation. The "party" must be very patriotic in this matter of consolidation; but that sentiment must be permitted to interfere with party prospects. Certain "sections" and "combinations" must be bought up, consolidation or no consolidation.

RIOT IN NEW YORK

A mob in New York, last week, attacked an apothecary's shop, in the cellar of which some human bones had been discovered by some boys, which proved to be a body in process of scientific operation. Three thousand persons assembled and destroyed every thing about the shop, and fatal results were only averted by the escape of the inmates of the shop and dwelling attached. This is philanthropy of a very savage sort on the part of the mob. If every surgeon apothecary's shop is destroyed where skeletons are found, there would be but few left. We do not learn that there was any evidence of trespass or desecration on the part of those with whom the remains were found. It was a shameful affair.

NOT UNGRATEFUL

One effect of the aid sent by Philadelphia, New York and Boston, to Madeira, is, that when an American vessel approaches the island, the fishermen and other salate her with cries of "A good nation—a good nation."

GAVAZZI

This distinguished Lecturer addressed an audience in New York on Wednesday evening last. Our readers know that we are not friendly to the encouragement of Foreign Lecturers of any sort, but the case of GavaZZi has become a question of the rights of the citizen and the liberty of Speech. The following remarks were made by the Lecturer, in relation to the Canadian affair: "The participants in the Canadian affair came into the Church not only against me, but against women, against children, against unarmed citizens. The riots were not aimed against me only, but against liberty of discussion. Romanists and Jesuits, if you wish to meet me—if you do not like my doctrines—if you dispute my historical facts—do not answer me with stones and clubs, but answer me by facts—answer me reasonably like men, and not like brutes and savages. Stones are not so soft and logical as syllogisms; my dear brethren! (Laughter and applause.) They are strong arguments if it is true, but very persuasive! At the door of the church in Montreal, men were stationed with clubs for the use of the rioters, and in addition, the pockets of the miscreants were filled with stones. These are the primary volumes of the Canada Schools!"

The important passage of Matthew, said to allude to Peter: "On this rock will I build my church." It has been made rather clear to me since my Canadian tour. I can really now believe without much difficulty that the Roman Catholic Church is built upon this rock, after having witnessed Roman Catholics coming into church with their pockets full of St. Peter! (Great laughter and applause.) Without wrong or ridicule, I might say: "Upon this rock is their church built." Yes, it is a material church, with spiritual elements. The Editor of the leading Roman Catholic paper in New York, thinks that any one who hears GavaZZi talk in the way he does, ought to "break his mouth." This notice appears to be very prominent among certain portions of the Roman Catholics. Yes, yes, that is the way—"Break his mouth"—that will cut the argument short, and very much edify and enlighten the public mind in this matter of controversy. We heard of a Catholic Priest who advised one of his flock, in case any one disputed what he asserted about Church matters, to "tell him he lies." This was pretty good, but "break his mouth" is much better.

THE NATIONAL MONUMENT

The Washington National Monument is now one hundred and thirty feet high. Blocks of stone have been received for insertion in the column from every State in the Union.

REPORT OF THE BOARD OF HEALTH

A meeting of the Board of Health of Alexandria was held on the 22d inst. The following report of the physicians of this city was made, which the Board hope will be satisfactory. The Board respectfully request that the citizens will continue to give their attention to the condition of their premises, and that nuisances are not suffered to remain upon them, and also to have their cellars and back alleys well aired.

REPORT

To correct the exaggerated reports of ill health which for weeks past have been prevailing to the injury of our town, and to inspire confidence both at home and abroad, we, the undersigned, physicians of the town, have this day met together, and, after the most mature and deliberate examination of the whole subject, with all the facts that could be collected from the physicians present, publish the following as a true and reliable report:

We have to state that, since the 11th of last May, seventy-three cases of true Asiatic cholera have appeared among us; of this number a much larger proportion has fallen to the charge of some than of others, yet we have all seen more or less of them. The deaths have amounted to thirty-four. For some days past the disease has been gradually declining, and at this time but one case is known to exist. The disease has been confined to certain localities, and for the most part has been confined to the victims of intemperate habits, crowded together in confined apartments, and living in a state of great filth and indigence. It thus appears that at no time has the cholera assumed an epidemic form, attacking all classes indiscriminately, but has confined itself within certain bounds, and, with two exceptions, to the lowest class of persons; thereby proving conclusively that there has been no occasion for the singular panic and alarm which has so rapidly spread itself.

In conclusion, we have to assure the public that at no time within our experience has Alexandria been more exempt from all diseases, and we do not hesitate to declare all fears on the part of citizens at home or strangers abroad to be utterly groundless.

I was not present at the meeting, but approve of the above report. R. H. STABLER. ALEXANDRIA, June 21, 1853.

MRS. STOWE IN CORK

Skull and Skibberben—Blarney lane and Black-pool—have invited the female Barnum—the princess of humbugs—to "that beautiful city called Cork to an abolition oration!" Uncle Tom's Cabin! Father Pat's Hui! Uncle Tom well fed, well clothed, well housed, well doctored, and, in many instances, well educated! Father Pat dying in a ditch, after being thrown out of his birth spot—raging in a spotted fever—without food, water to cool his burning tongue—without food, raiment or medicine—without sympathy or aid—save from his peniless peers—rotting, rotting, rotting away out of existence! Uncle Tom decently coffined and interred! Father Pat thrown, like a piece of carrion, into the red earth, a shrivelled remnant of skin hanging about his bones, without a shroud, a coffin, a sigh, or a tear—the hungry dog howling after and tearing him from the earth at night, and holding a carnival over his putrid body.

Aye, inhabitants of Cork city, your white brothers lying upon your sides, the steps of your hall-doors, in your streets, covered with vermin, fever maniacs, with parched lips and cancerous stomachs, how dare you interfere with American institutions—institutions fostered, fed and supported by the cotton, rice and tobacco lords—selfish and knavish hypocrites that they are—of England!

Aye, take Mrs. Barnum Stowe to Skibberben and Skull. Show her the spot where the bones of your kindred lie bleaching—women and men, honest, better and purer than you—where the "mere Irish" have melted into the earth, "having been told, (according to the eminent and philanthropic Everett,) in the frightful language of political economy that at the daily table which nature spreads for the human family there is no cover laid for them in Ireland," and that "they have crossed the ocean to find occupation, shelter and bread on a foreign soil!"

Aye, take Uncle Tom's historian to Father Pat's grave—that spot of red damnation—remind her of the blood hound bricker, the fostering corpse, the howls of the famine stricken, the blasphemy, the ravings of the insane—and ask her should you intermeddle for the black white you have sold; slaves by the millions, whose condition you have done nothing—you do nothing—to alleviate! Father Pat starves in a hut not fit for an aristocratic hog; give him a human dwelling. Poor Pat is without food; give him to eat from "the daily table which nature spreads." Father Pat is ignorant, unenlightened; educate him, and you will be blessed of God.

Do this—perform these duties—contribute to free your own white slave (called, by a mockery, a delusion and snare, a free man)—and then you will mete Mrs. Stowe, Lucy Stone, or Abby Folsom, and sympathize with American bondsmen, whom you propagate by purchasing that cotton which they, and they only, can produce.

FULL COFFERS

The Subtreasury in New York, the Express says, is now fuller than it ever was before, running up to eight millions. Unless the Government makes a great sacrifice in buying up the national debt, the surplus revenues will run over \$20,000,000 when Congress re-assembles.

There are now two thousand four hundred workmen engaged on the Central Road between Zanesville and Wheeling, and one thousand more are needed. This division of the road is to be finished and in operation twelve months from this time. It will be, in fact, a prolongation of the Baltimore and Ohio Railroad into the heart of Central Ohio, forming connections with the extensive railroad systems of Ohio, Indiana, and Illinois.

ANOTHER CAMPFIRE INCIDENT

At Kingston Point, N. Y., Saturday night week, a campfire lamp exploded in the house of Mrs. Abbott while she was filling it, by which her daughter, aged fourteen years, was terribly and fatally burned. The clothes of Mrs. Abbott were nearly consumed upon her person before assistance reached her; and a neighbor, Mr. Goldenstein, who hastened at the first alarm, had his hands much injured while assisting to extinguish the flames. Mrs. A. R. is thought, cannot survive.

LATER FROM CALIFORNIA

Arrival of the Steamer Northern Light. New York, June 24th.—The steamer Northern Light, from San Juan, with dates from San Francisco to June 1st, arrival at New York this morning. A duel was to have taken place on the same day between Senator Gwin and Mr. McCord, a member of Congress. The cause of the difficulty was some personal remarks made by the former in reference to the latter. The weapons chosen were rifles at thirty paces. The steamer California was to leave on the 1st, with over two millions and a quarter gold on freight. A destructive fire had occurred at San Francisco on the 21st, which destroyed thirty buildings on California and Kearney streets. Loss \$30,000.

Second Despatch. New York, June 24.—The passengers by the Northern Light, 400 in number, were brought from San Francisco by the Steamer Brother Jonathan. The transit of the isthmus was effected in 40 hours, the men being in good order. The Brother Jonathan, on coming out of San Francisco, passed the steamer Golden Gate going in.

The steamer Cortes and California, for Panama, were to leave on the 1st. The latter had over \$2,250,000 in gold dust on freight. The principal shippers are: Page, Bacon & Co., \$4,000,000; Davidson, \$2,000,000; Burgoyne & Co., \$2,000,000; Adams & Co., \$300,000; Wells, Fargo & Co., \$100,000.

The Sonora expedition was still talked of. The San Francisco Times says that a Baltimore clipper lying in the harbor has been engaged to convey the party to their destination. The ship Jamestown has arrived at San Francisco, with later advices from China. Her dates are to April 6th.

The grand jury of Suffolk county, Mass., have made a presentment, in which they state, as the result of their examination into the criminal conduct of Boston, that three-fourths of the crime committed there is caused by intemperance, and a tributary in a great degree, to the swarms of illegal dram shops infesting the portions of the city; and they severely rebuke the mayor and council for not diminishing the evils.

CRIME IN BOSTON

YELLOW FEVER AT ST. THOMAS

Reports from St. Thomas represent the yellow fever to be raging with great fatality, especially among the seamen on board vessels in the harbor—the island itself being comparatively healthy.

The Portland (Oregon) Commercial of the 7th of May states that the Cayuse and Nespeper Indians had attacked one of the Hudson Bay Company's forts in the neighborhood of the Dalles, and that two pieces of artillery and a company of the United States troops were sent from Vancouver to the scene of disturbance.

Never suffer long from a Cough. At this age of the world, when you can get Ayer's Cherry Pectoral, it is a criminal neglect, if you do not cure it.

The whole press of Philadelphia are out in favor of Hoodland's German Bitters, as they are prepared by Dr. C. M. Jackson. We are glad to record the success of this valuable remedy for Dyspepsia, as we believe it supplies a desideratum in the medical world long needed. The wretched initiators and counterfeiters have withdrawn their nostrums from the market, and the public are spared from the danger of swallowing poisonous mixtures in lieu of the real Bitters. —Herald.

NEW YORK MARKET. For three days preceding. June 22.—The New York Ship and Com. List reports: Cotton—Business in this staple for the past three days has been nearly suspended, the transactions having been small and of a retail character. The sales for the last three days are 1700 bales, making a total for the week of 5900 bales. We quote, 9 a 12.

Flour—Southern has continued in good request, part for exports to England, and prices, with moderate supplies, are well supported. Naval Stores—We have no further sales of Turpentine, or change in the market to note, the receipts having been light, and the stock on hand small.
