THURSDAY JULY 7, 1853

FOURTH OF JULY. colebrated with unusual animation. This is day on which you cannot find a Whig, a Demoher glorious destiny.

The proceedings were as nearly in accordance with the Programme as circumstances would permit. The Oration of Mr. Cowan is much applauded, and all the services at the M. E. Church, Front Street, spoken of with approbation. An interesting feature in the celebration was the appearance of the two new military Companies .-The Journal says of them: "After the conclusion of the ceremonies at the Church, the companies marched down to Market street, the Light Infantry escorting the German Volunteers to the Steamer Spray, chartered by them for an excursion down the River, and the Volunteers reli ing the courtesy by running up opposite the Rails road Wharf and saluting the Infantry on their starting for Rocky Point, on the Railroad. The mont on Wednesday week. The Hon. Erastus cordial and friendly exchange of courtesies between the companies was the theme of general remark and approval."

We had a light shower on the morning of the 4th of July; since then we have had very plentiful showers.

ROBBERS.

The town is infested with robbers-several daring acts in this way having been lately committed. Our Police are on the alert, and we think it would be well for our citizens generally to provide arms for the occasion. Our folks will give them a buck process or two, should they favor us with a call.

GERMAN CELEBRATION.

We have not heretofore noticed the German National Jubilee, which was concluded at Philadelphia on the 27th of last month. It was resolved to hold the next celebration at Baltimore.

The pic-nic held at Lemon Hill on this occasion, was one of the largest assemblages ever witnessed in the United States, and far eclipsed all similar festivals at any of the previous national musical jubiless, held by this worthy class of our adopted citizens. It is estimated that there were at least 10,000 souls on the hill at one time, and that not less than 20,000 persons visited the place during the better, because the inventions of mercenary vatory, it must be borne in mind that it is only an the day. The scene was enlivened by Music, both vocal and instrumental, speeches, &c., and all the tion and intrigue of party relative to them destroy- ted, and the gale whistled through it, leaving it amusements peculiar to the German people, were ed. participated in by both old and young.

RAIL ROAD DISASTERS.

blame for the dreadful results which occur from is emphatically the city fast travelling-because rapid speed is demanded by the people everywhere.

Next to the public at large, in fault, are Editors of newspapers, who are always praising the speed of a winning boat, or a rapid moving Car. As to putting an Editor in the peril indicated. we cannot say we much admire the notion, for we think there is hope of amendment in this quarter. But the position pointed out for Editors should be filled by Representatives of the Travelling Public, duly elected for that purpose, whose known and popular Periodical. Among the interas nearly as possible.

As regards ourself, we shift the responsibility on others. We have never encouraged steamboat racing, or any other of the murderous operations the dwelling house of Mr. D. Gilbert in the of the day. It is not long since that we declared our belief that the proper person to be hung for these crimes is a "generous public," But such a sumed. Fortunately the immates chanced to be neck! What can grasp it?

FOREIGN NEWS.

Liverpool dates to June 18, have been received since our last issue, but there is nothing reliable assume a threatening aspect, by some accounts—but they are very conflicting. The Chinese reon any important subject. The Eastern Question but they are very conflicting. The Chinese rebellion is still in progress, but with what certain results no one can divine.

TERRIBLE EXPLOSION.

On Wednesday week, the propeller Challenge, about twenty miles below Mackinac, exploded her boiler with disastrous effects. Five persons were killed, and three severely and one slightly injured-all of them, except one, being hands on the boat. The stern of the boat was blown off, and she sunk in about five minutes. The passengers and crew escaped in two boats, and were picked up shortly afterwards by the schooner North Star, which was about ten miles distant at the time of the explosion, and, hearing the report, hastened to the rescue.

THE NEW ORLEANS AFFAIR.

The late negro effervescence in New Orleans, though ridiculous enough in itself, the Picayune says, has established the fact that white men have been tampering with the negroes, and shows the necessity of a rigorous enforcement of the laws in regard to inciting the slaves to insurrection, which are very severe, the penalty for this offence being imprisonment for life or death at the discretion of

It has been stated by the New Orleans press, that the whole of the reported disturbance grew out of the wild imaginings of a Negro, under the influence of delirium tremens. Very strange .-Did the tampering of white men with the negroes arise from the same cause? It would be well to let the public know the whole of the facts as they stand-not say that there is "nothing of it," and then turn about and report that crimes have been committed worthy of death or imprisonment for

New York Correspondence of the Commercial

The new era in N. C., and the effects of it. Taxes in City of New York sixty-two and a quarter; as much as in the entire State of North Carolina .-Recent disasters by stores, steam and fire in New York. Effects of the hall storm on the Crystal Palace, and the Latting Observatory and the buildings in that neighborhood. Influx of strangers.

NEW YORK July 2d, 1853. In my last letter I mentioned that there were a number of North Carolinians here trading off their mineral possessions to the Capitalists of New York Some of these have left, and others have appeared in turn. This is a new feature in the history of the North State, and It is worth while to consider some of the probable effects of the new order of things about to be developed in that quiet corner of the world. In the last United States Census, North Carolina is put down as wealthier than Lou-isiana, and a great deal more so than South Caro-street. lina, and this without reference to her mines and | Later from New Brunswick and the Pisheminerals. Heretofore regarded as one of the poorest of Uncle Sam's daughters, she is about to come out at last as one of the wealthiest, and to encounter some of those hazards which usually environ a great heiress. In the progressive developements of the times she has been overlooked and contemned, and left to the solitudes of pine barrens and sandy plains. No one conceived that there were proved an utter failure. treasures of wealth hidden in her hills and mountains, which, when brought to light, would give arming of American fishing vessels as piracy. her prominent rank as one of the wealthiest provinces in the Union. Left so long to herself, and beyond the influences of innovation and the contagion of competition, her people have become distinguished for modest worth, integrity of character, patient industry, moral sobriety, and unaffec-ted simplicity of demeanor. These are virtues The "progressive" reform proposed by a Con. of a primitive and secluded population, and many ruption, come in their train, and are unsatisfacto-This is not a triumph of the Whige merely, r. substitutes for the cheap living, the simple
