CHAPPELL'S

IMPROVED FERTILIZER

SUBSTITUTE FOR GUANO.
TO THE AGRICULTURAL COMMUNITY.
THE ATTENTION of the "Agricultural community" is respectfully directed to the following testimony in reference to the action and durability of CHAPPEI L'S IMPROVED FERTILI-ZER, its uniform good quality, and its efficacy in promoting the growth of any crop. The result of the experiments for the past 2 years which have been kindly furnished us by Com. Jones, fully es tablishes all that we have stated in regard to its su-periority as a renovator of the soil, and the facts stated in his letter should alone convince any intelligent mind of its unfailing efficacy and its adaptation to any and all crops.

It is with such evidence as we present below, from gentlemen of the highest respectability, that Briggs, master, will have despatch as has enabled us to overcome the prejudices which have existed in the minds of some of the farming above, for light freight or passage apply to community against all "artificial nanues." and the result has been that the demand for our Firdilizer, the past season, was much greater than we could possibly supply, and we have yet to hear of one single complaint of its action from any of those to whom we sold the past year.

This article having been so fully tested for the

past five years, and with such haverable results, we now offer it to the Agriculturalists of the country as the cheapest, most certain and durable manure for any crop or any soil. One advantage we can promise in the use of our Pertilizer, that by an equal amount of outlay of the Fertilizer upon an

confidence recommend its use upon the above crops. If intended to be used it should be applied certainly secure its dissolution by the March and April rains, and the results of the application will fully repay the farmer for his outlay, in the increased crop, and will very largely increase the growth

of clover and after crops.

Upon Corn it should be applied broadcast, be ore harrowing, and if preferred a small portion may be used in the hill. We hazard nothing in stating that, applied upon Corn, should the weather prove favorabe, the increased yield would doubly regay the farmer for his outlay, and if two barrels, (600 ibs.) be used to the acre, that his ground will need no other manure for a full rotation of crops. The sanguine opinions advanced above are form-

ed from frequent intercourse with farmers who have used the Pertilizer for a number of seasons past, with unvarying success, and have voluntarily estified to its efficacy, thereby confirming ail that has been stated in regard to its superior qualities. Having received a number of inquiries relative to the action of our Fertilizer mixed with Peruvian Guano, we would say, we have always preferred, in the trial of the officacy of our Pertilizer, its being used alone, as we desire it to "rest upon its own

any other manure; but we have no doubt that a combination of Guano and Fertilizer would prove highly advantageous to the farmer. In a combination of this kind we would recom-mend the use of 100 lbs. Guano with 300 lbs. Fertilizer, being confident that this amount of the two articles in combination, would produce a much larin person or by letter.

Persons at a distance cured at home by addressger yield than if 400 lbs. best rerevian Guano 'vad been used. By using Guano mixed in this way, the use of plaster with that article may be dispensed with, as the Sulphuric Acid in the Pertiller would unite with the Ammonia and other volatile salts in Guano, and converting them into Sulphates, thereby preventing their escape into the air, secures to the farmer all of the nos valuable constituents of the latter article. For the convenience of persons who wish to use the Fertilizer mixed in this way, we will furnish it mixed with Girno in any proportion hanied, charging the

At present prices of Guano, we will furnish a mixed in the following proportions and prices. One fourth Guano, ! Fertilizer Smith, Venice; Metrick, Central City, and other One-third Guano, 1 Fertilizer 32 per ton. One-half Guano, one-half Fertilizer 36 per ton. WASHINGTON CITY, Jan. 27th, 1853

east of Guano, and the cost of barrels. Libor, &c.

severe fracture of the shoulder, occasioned by a fall upon the key payoment of this city, before I received your favor of the 20th of Dec. This will account for my apparent neglect in not responding to the state of the blood and the blood a even now I am writing with much difficulty, and Va. Fertilizer as used by me the last two years, 1851 and '52. The last year's application more than realized the best impressions produced by the first year's use of it. On Corn, in 1851, planted in drill, one half of which was enriched by the application of 200 lbs. best Perurian Guano, and the other with 400 lbs. of your Fertilizer, both applied in the drill, not only was the Corn (9 barrels per nere,) best

Mr. John Thompson, residing in the city of Richmond, was cured by three bottles of Carter's Spanish Mixture, of Sait Rheum, which he had nearly 20 years, and which all the physicians of the city could not cure. Mr. Thompson is a well known merchant in the city of Richmond, Va., and his cure is most remarkable.

Richard E. West, of Richmond, was cured of THE undersigned have this day associated with being put in Barley last spring, (1952) was again them in business, Thomas W. Playes. In dressed with 200 lbs. of Guano per acre, equally being put in Barley last spring, (1952) was again distributed over the previously guanord land, and that on which the Fertilizer was applied at the been used, and when the same land was stubbed up in September, for Rye, the part whereon the Fer-tilizer had been used in 1851, was to the line thickly set with white clover of spontaneous growth, whilst the guanoed part showed but here and there a sprig of that valuable grass, and my corn ground lying over for Oats and Barley, which gave last year 230 barrels from about 26 acres, showed a good set of white clover in October.

In a cut of four acres, which the past years produced Higharrels per acre, one acre through the middle was guanoed with 300 lbs of best Pernyian. Guano-to the other three acres Fertilizer was an plied, two barrels or 600 lbs., to the acre, and in every other respect all treated alike. cores of persons examined the corn at every stage, from planting to gathering, and no one could mark the place where the Guano was applied, unless juinted out by myself, whilst the gigantic growth and white clover marked the effects of the Fertilizer upon the other acres. On the adjoining field of eight acres, the hands, in sowing the Fer-lizer, made a mistake and sowed one land over twice—that is, with 1200 lbs. of Pertitizer; the growth of the corn stalk was not percentilly greater, but wher the Corn was gathered, the difference was as 7 to 5, at least in favor of the double acre-that is to say, it required 7 rows where 600 lbs. had been used to load a fourhorse wagon, whereas five rows did the same from the acre which recrived the double dressing by

mistake. harvest will put to rest all doubts and prejudices sired. against your Fertilizer preparations. By way of backing up my confidence, so often expressed, it may not be out of place here to state that my arrangements for spring and summer crops look to the use of 150 barrels of Fertilizer and Phosphate of Lime, three-fourths of the former-i. e., 120 of the Fertilizer and 30 of the latter article-specific orders for which will be given as required.

I fear you will have great difficulty in decyphering this letter, and I am not sure it will be the trouble, but you can make any use of it, or any portion of it, you may think proper, or pass it by altogether. I shall be glad to have a copy of your pamphlet, and wishing you every success which your untiring zeal, in so noble a cause merits, I Yours taithfully. subscribe myself, THOS. AP. C. JONES. Extract of a Letter from Com Jones. Dated

PROSPECT HILL, (Va.) June 4th, 1853. "I am very glad to hear of the increased demand for your 'Fertilizer.' I am more and more satisfied with its superiority when compared with Guano. as regards durability or the effect on succeeding crops. The Fertilizer is incomparably superior to Guano, even when 300 lbs. of the best are used against 600 lbs., of the Fertilizer.

"In haste, with great respect, your obd'r. serv't...
THOS. AP. C. JONES."

MONTROSS, Westmoreland co.. Va., April 11th, 1853. Mr. P. Stockton Chappell-Dear sir: In answer

to yours of the 8th inst., in regard to my Wheat I can only say at this time, that, on corn ground, when last in cultivation (1851) did not produce more than one half barrels of corn to the acre, I fallowed it up in September 10 or 12 loches deep, harrowed it, sowed white blue stem wheat at the rate of 11 bushels per acre; used 280 lbs. Chappell's Pertilizer and Guano, mixed halfand half each per acre, and from present appearance will make 25 bushels of Wheat per acre. Sowed first week in October. Yours respectfully, JNO. GOODING.

Price of CHAPPELL'S IMPROVED FERTILizer. \$20 per Fon, or \$3 per Barrel containing 300 lbs.

CARTER'S SPANISH MIXTURE

THE GREAT PURIFIER OF THE BLOCK. Not a Particle of Merenry in it.

acre of ground, we can give a larger crop of grain, and leave the ground in a much better condition for after crops, than can be obtained from the use ples or Postules on the face, Blotches, Boils, Chron ic Sore Eyes, Ring Worm or Tetter, Scald Head, As a top dressing upon Wheat and Grass, we would state that from a number of testimonials in born Ulcers, Syphilitic Disorders, Lumbago, Spiour possession, of which the limits of this adver-lisement will not admir, we can with the utmost judicious use of Mercury, I aprudence in Lite, or Im-

purity of the Blood. as early in the season as the weather will rermit, to ted for the number of extraordinary cures effected brough its agency, has induced the proprietors, at the urgent request of their friends, to offer it to the jubic, which they do with the utmost confidence Thefollowing certificates selected from a large number, are, however, stronger testimony than the mere word of the proprietors ; and are all from gentlemen well known in their localities, and of the highest respectability, many of them now residing in the it of Richmond, Virginia.
F. Boyden, Esq., of the Exchange Hotel, Rich

nond, known every where, says he has seen the Medicine called Carter's Spanish Mixture adminisned in over a hundred cases, in nearly all the diseases for which it is recommended, with the most asrishingly good results. He says it is the most ex-

aordinary medicine he has ever seen.

Ague and Fever-Great Cure - I hereby certify. nat for this e years I had Ague and Fever of the most violet t description. I had several Physicians, took ge quantities of Quanine, Mercury, and I believe all the conies advertised, but all without any per-manent relief. At last I tried Caster's Spanish Mixture; two buttles of which eff ctually cured me, and am happy to say I have had neither Chills or Femerits," without any possible or apparent help from vers since. I consider it the best Tonic in the world and the only medicine that ever reached my case, JOHN LONGDEN.

Beaver Dam, near Richmond, Va. C B LUCK, E-q. now in the city of Richmond and for many years in the Post Office, has such con-fidence in the astonishing efficacy of Carter's Span-Bowels, Consumption, Debility, Drepsy, Dysentery ish Wixture that he has bought upwards of 50 bottles, which he has given away to the afflicted. Mr. Luch sais he has never known it to fail when taken reding to directions

press room, cured of violent scrofula combined with Rheumatism, which entirely disabled him from work. Two bottles of Carter's Spanish Mixture P. S. Chappell, E-q.—Dear sir: I am now in my fifth week of confinement to my room with a severe fracture of the shoulder, accasioned by a

to your request alluded to in your last letter, and Conductor on the R. F. & P. R. R. Co., Richmond in general, that he has re-commenced his MUSIC-

Mr. John Thompson, residing in the city of Rich-

where the Fertilizer was used, but the same ground Scrotala, and what Physicians called confirmed Consumption, by three bottles of Carter's Spanish

Mixture. EDWIN BURTON, Commissioner of the Revenue, says he has seen the good effects of Carrer's Spantime of corn planting the previous spring. Like ish Mixture in a number of Syphilitic cases, and the corn, the barley was best were the Fertilizer had says it is, a perfect cure for that harrible disease. Says it is a perfect cure for that horrible disease.

HOLLOWAY'S PILLS. CURR of a Disordered Liver and Bad Digestion Copy of a Letter from Mr. R. W. Rickus, Chemist, 7, Prescortstreet, Liverpool, dated 6th June

To Professor Hortoway:
Sit: Your Pills and Ofmimenthaye store the high
eston our sale list of Proprietary Medicines, for
some years. A customer, to blom I can refer to any inquiries, desires me to be you have the particulars of her case. She had been frombled for years with a disordered liver, and bad digestion. Of the last occasion, however, the virgit price of the tack was so alarming, and the inflammation set so severely, that doubts were entertained up her present the control of the present the pre heing able to bear up under it; fortunately she was induced to try your Pills, and she informs me that after the first, and each succeeding dose, she had great relief. She continued to take them, and alenjoyment of perfect health I could have sent you many more cases, but the above, from the severity the attack, and the speedy cure. I think, speaks niven in fav 2 of your astonishin; Pills.

An Extraordinary Cure of Rheematic Peter, in

Van Dieman's Land. Copy of a Letter inserted in the Hobait Towr Con-rier of the let of March, 1851, by Maj. J. Walch-Margaret McConnigan, 19 years of age, residing at New Town, had been suffering from a clokat Rheumatic Fever for upwards of two months, which had entirely deprived her of the use of her limbs— During this period she was under the care of the most eminent medical men in Hobart Town, and by them her case was considered hopeless. A friend pre ailed upon her to try Holloway's calchrated Pills, which she consented to do, and in an ineredible short space of time they effected a perfect cure Cure of a Pain and Tightness in the Chest and Sto-

much of a Person 84 years of age.

From Messis. Thew & Son, Proprietors of the Lyne Advertiser, who can vouch for the following statement, Aug. 2nd, 1851.

To Professor Holloway: Sir - I desire to hear testimony to the good effects of Holloway's Fills. For some years I enferred severely from a pain and tightness in the stomach, which was also accompanied by a shortness of breath, that prevented me from walking about. I am Si years of age, and notwithstanding my advan-ced state of life, these Pills have so relieved me, that I um desirous that others should be made acquainted with their virtues. I am now rendered by their means, comparatively active and can take exercise without inconvenience or pain which I could not de (Signed) HENRY COE. North st. Lynn, Norfolk

Dr. Minge a practising Physician, and formerly
of the City Hotel, in the city of Richmond, says he
has witnessed in a number of instances the effects of
Carter's Spanish Mixture which were most truly
surprising. He says in a case of Consumption, dependent on the Liver, the good effects were wondertal indeed.

Samtel M. Dringer, of the firm of Drinker of
Merris, Richmond, was cared of Liver complaint of
8 years standing, by the use of two bottles of Cartee's Spanish Mixture.
